B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles as described in the *NAIC Annual Statement Instructions* and the *Accounting Practices and Procedures Manual* requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of the premiums written. Such reserves are computed using the daily method for direct business and are based on reports received from ceding companies and/or pools for assumed business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- 1) Short-term investments are stated at amortized cost.
- 2) Bonds not backed by other loans are stated at amortized cost using the scientific amortization method.

- 9) The company does not hold any derivative securities.
- 10) The company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53: Property/Casualty Contracts – Premiums.
- 11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount based on past experience for losses incurred but not reported (IBNR). Such liabilities are necessarily based on assumptions and estimates. While management believes the amounts are adequate, the ultimate liabilities may be in excess of or less than the amounts provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
