A. Accounting Practices

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. No deviations exist.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. These estimates are based on knowledge of current events and anticipated future events, and accordingly, actual results could differ from those estimates.

C. Accounting Policy

Premiums are reported as earned in the period in which members are entitled to receive services, and are net of retroactive membership adjustments. Retroactive membership adjustments result from enrollment changes not yet processed, or not yet reported by an employer group or the government. Premiums received prior to such period are recorded as advance premiums.

Benefits incurred and loss adjustment expenses include claim payments, capitation payments, pharmacy costs net of rebates, allocations of certain centralized expenses, legal and administrative costs to settle claims, and various other costs incurred to provide health insurance coverage to members, as well as estimates of future payments to hospitals and others for medical care provided prior to the date of the statements of admitted assets, liabilities and surplus. Capitation payments represent monthly contractual fees disbursed to participating primary care physicians, and other providers who are responsible for providing medical care to members. Pharmacy costs represent payments for members' prescription drug benefits, net of rebates from drug manufacturers.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments include investments mainly in U.S. Government obligations with a maturity of twelve months or less from the date of purchase. Short-term investments are recorded at amortized cost. The carrying value of short-term investments approximates fair value due to the short-term maturities of the investments.
- (2-4) Investments are valued and classified in accordance with methods prescribed by the NAIC. Bonds with an NAIC rating of 1 or 2 are carried at amortized cost, with all other bonds being recorded at the lower of amortized cost or fair value; redeemable preferred stocks are carried at amortized cost; and non-redeemable preferred stocks are carried at fair value. Common stocks are carried at fair value.

The Company regularly evaluates investment securities for impairment. For all securities other than loan-backed and structured securities, the Company considers factors affecting the investee, factors affecting the industry the investee operates within, and general debt and equity market trends. The Company also considers the length of time an investment's fair value has been below carrying value, the near term prospects for recovery to carrying value, and the Company's intent and ability to hold the investment until maturity or market recovery is realized. If and when a determination is made that a decline in fair value below the cost basis is other-than-temporary, the related investment is written down to its estimated fair value through earnings.

Amortization of bond premium or discount is computed using the scientific interest method.

Income from investments is recorded on an accrual basis. For the purpose of determining realized gains and losses, the cost of securities sold is based upon specific identification. Investment income due and accrued over 90 days past due is nonadmitted.

STATEMENT AS OF December 31, 2014 OF Humana Health Plan of Ohio, Inc.

NOTES TO THE FINANCIAL STATEMENTS

(5) Not Applicable.

(6) For loan backed and structured securities where the securities fair value is less than the amortized cost, the Company considers several factors to determine if the security's impairment is other-than-temporary. If the Company has the intent to sell the security or if the Company does not have the intent and ability to retain the security until recovery of its fair value, the related investment is written down to its estimated fair value through earnings. If, however, the Company has the intent and ability to retain the security until recovery of its fair value, the Company considers factors affecting the investee, factors affecting the industry the investee operates within, and general debt and equity market trends. The Company also considers the length of time an investment's fair value has been below carrying value and the near term prospects for recovery to carrying value. If the determination is made, based on these factors, that the Company does not expect to recover the entire amortized cost of the security, then an other-than-temporary impairment has not occurred. If, however, the determination is made that the Company does not expect to recover the entire amortized cost of the security based on the factors noted above, the Company recognizes a realized loss in earnings for the non-interest related decline. No loss is recognized for the interest impairment.

(7) Not Applicable.

(8) The Company accounts for its investments in joint ventures, partnerships, and LLC's using the audited statutory equity method of accounting.

(9) Not Applicable.

(10-11) The estimates of future medical benefit payments are developed using actuarial methods and assumptions based upon claim payment patterns, medical cost inflation, historical development such as claim inventory levels and claim receipt patterns, and other relevant factors. Corresponding administrative costs to process outstanding claims are estimated and accrued. Estimates of future payments relating to services incurred in the current and prior periods are continually reviewed by management and adjusted as necessary.

The Company assesses the profitability of its contracts for providing health insurance coverage to its members when current operating results or forecasts indicate probable future losses. The Company records a premium deficiency liability in current operations to the extent that the sum of expected future medical costs, claim adjustment expenses and maintenance costs exceed related future premiums. Investment income is not contemplated in the calculation of the premium deficiency liability.

Management believes the Company's benefits payable and loss adjustment expense are adequate to cover future claims and loss adjustment expense payments required, however, such estimates are based on knowledge of current events and anticipated future events and, therefore, the actual liability could differ from the amounts provided.

(12) The Company has not modified its capitalization policy from the prior period.

Equipment is stated at cost less accumulated depreciation. Depreciation expense is computed using the straight-line method over estimated useful lives generally ranging from three to five years. Improvements to leased facilities are depreciated over the shorter of the remaining lease term or the anticipated life of the improvement.

The Company recognizes an asset or liability for the deferred tax consequences of temporary differences between the tax bases of assets or liabilities and their reported amounts in the financial statements. The temporary differences will result in taxable or deductible amounts in future years when the reported amounts of the assets or liabilities are recovered or settled.

(13) The Company estimates anticipated Pharmacy Rebate Receivables using the analysis of historical recovery patterns.

(4) The Company does not have any investments in an other-than-temporary impairment position at December 31, 2014.

Gross unrealized losses and related fair value of temporarily impaired securities that have been in a continuous unrealized loss position were as follows at December 31, 2014:

(a) The aggregate amount of unrealized losses:

1. Less than Twelve Months	\$	(3,167)
2. Twelve Months or Longer	\$	(359,494)

(b) The aggregate related fair value of securities with unrealized losses:

1. Less than Twelve Months	\$	196,778
2. Twelve Months or Longer	\$	13,180,842

The unrealized losses at December 31, 2014 were primarily due to increases in market interest rates and tighter liquidity conditions in the current markets than when the securities were purchased. All issuers of securities trading at an unrealized loss remain current on all contractual payments and the Company believes it is probable that all amounts due according to the contractual terms of the debt securities are collectible. After taking into account these and other factors, including the severity of the decline and the Company's ability and intent to hold these securities until recovery or maturity, the Company determined the unrealized losses on these investment securities were temporary and, as such, no impairment was required.

STATEMENT AS OF December 31, 2014 OF Humana Health Plan of Ohio, Inc.

NOTES TO THE FINANCIAL STATEMENTS

F. The Company is included in a consolidated federal income tax return with its parent Company, Humana Inc. The Company has a written agreement, approved by the Company's Board of Directors, which sets forth the manner in which the total combined federal income tax is allocated to each entity which is a party to the consolidation. Pursuant to this agreement, the Company has the enforceable right to be paid for any future net losses it may incur. The Company has no contingent income tax liabilities. The Company has not adjusted gross deferred tax assets due to changes in judgment about the realizability of the related deferred tax asset. The Company has no deposits under Section 6603 of the Internal Revenue Code.

20. Fair Value Measurements

A. (1) The Company did not have any financial assets carried at fair value at December 31, 2014.

The Company reports transfers between Level 1 and Level 2 of the fair value hierarchy levels at the end of the reporting period. There were no transfers between Level 1 and Level 2 of the fair value hierarchy between December 31, 2013 and December 31, 2014.

(2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

Not Applicable.

(3) The Company reports transfers into or out of Level 3 of the fair value hierarchy levels at the end of the reporting period. There were no transfers into or out of Level 3 of the fair value hierarchy levels between December 31, 2013 and December 31, 2014.

(4) Fair value of actively traded debt securities are based on quoted market prices. Fair value of other debt securities are based on quoted market prices of identical or similar securities or based on observable inputs like interest rates generally using a market valuation approach, or, less frequently, an income valuation approach and are generally classified as Level 2. The Company generally obtains one quoted price for each security from a third party pricing service. These prices are generally derived from recently reported trades for identical or similar securities, including adjustments through the reporting date based upon observable market information. When quoted prices are not available, the third party pricing service may use quoted market prices of comparable securities or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include benchmark yields, reported trades, credit spreads, broker quotes, default rates and prepayment speeds. The Company is responsible for the determination of fair value and as such, the Company performs analysis on the prices received from the third party pricing service to determine whether the prices are reasonable estimates of fair value. The Company's analysis includes a review of monthly price fluctuations as well as a quarterly comparison of the prices received from the pricing service to prices reported by the Company's third party investment advisor. Based on the Company's internal price verification procedures and review of fair value methodology documentation provided by the third party pricing service, there were no material adjustments to the prices obtained from the third party pricing service during the year ended December 31, 2014.

F. Subprime Mortgage Related Risk Exposure

(1) The Company consults with its external investment managers to assess its subprime mortgage related risk exposure. Certain characteristics are utilized to determine if a mortgage-backed security has subprime exposure. The main characteristics reviewed when determining this are the collateral and structure of the security, the loan purpose, loan documentation, occupancy, geographical location, loan size and type. Subprime mortgage borrowers typically have lower credit scores, lower loan balances and higher loan-to-values than other conforming loans. Management's practices include reviewing quantitative and qualitative credit models that analyze loan-level collateral composition, historical underwriter performance trends, the impact of macroeconomic factors, and issuer risks; as well as reviewing the estimation of security cash flows and monthly model calibrations.

(2) Direct exposure through investments in sub-prime mortgage loans.

The Company has no direct exposure through investment to sub-prime mortgage loans.

(3) Direct exposure through other investments:

- a. Residential mortgage backed securities – No substantial exposure noted.
- b. Commercial mortgage backed securities – No substantial exposure noted.
- c. Collateralized debt obligations – No substantial exposure noted.
- d. Structured securities – No substantial exposure noted.
- e. Equity investment in SCAs – No substantial exposure noted.
- f. Other assets – No substantial exposure noted.
- g. Total – No substantial exposure noted.

(4) Underwriting exposure to sub-prime mortgage risk through Mortgage Guaranty coverage, Financial Guaranty coverage, Directors and Officers liability coverage, or Errors and Omissions liability coverage.

Not Applicable.

Classification of mortgage related securities is primarily based on information from outside data services, including rating agency actions. When considering our exposure, the Company evaluated the percentage of full documentation loans, percent of owner occupied properties, FICO scores, average margin for ARM loans, percent of loans with prepayment penalties, the existence of non-traditional underwriting standards, among other factors.

G. Retained Assets

Not Applicable.

STATEMENT AS OF December 31, 2014 OF Humana Health Plan of Ohio, Inc.

NOTES TO THE FINANCIAL STATEMENTS

22. Events Subsequent

On January 1, 2015, the Company will be subject to an annual fee under section 9010 of the Federal Affordable Care Act (ACA). This annual fee will be allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. As of December 31, 2014, the Company has written health insurance subject to the ACA assessment, expects to conduct health insurance business in 2015, and estimates their portion of the annual health insurance industry fee to be payable on September 30, 2015 to be \$9,635,453. This amount is reflected in special surplus. This assessment is expected to impact risk based capital (RBC) by 15.17%. Reporting the ACA assessment as of December 31, 2014 would not have triggered an RBC action level. The Company expects to offset the impact of the health insurance industry fee on its results of operations in 2015 through pretax income improvement; however, there can be no assurance that it will be able to do so.

The Company is not aware of any events or transactions occurring subsequent to the close of the books for this statement which may have a material effect on its financial condition. Subsequent events have been considered through February 24, 2015 for the Statutory Statement issued on February 24, 2015.

23. Reinsurance

A. Ceded Reinsurance Report

Section 1 – General Interrogatories

(1) Are any of the reinsurers, listed in Schedule S as non-affiliated, owned in excess of 10.0 percent or controlled, either directly or indirectly, by the company or by any representative, officer, trustee, or director of the company?
Yes () No (X)

(2) Have any policies issued by the company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10.0 percent or controlled directly or indirectly by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business?

Yes () No (X)

Section 2 – Ceded Reinsurance Report – Part A

(1) Does the company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?
Yes () No (X)

(2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?
Yes () No (X)

Section 3 – Ceded Reinsurance Report – Part B

(1) What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the company may consider the current or anticipated experience of the business reinsured in making this estimate. \$0

(2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the company as of the effective date of the agreement?
