C. Accounting Policies

6. Loan-backed securities

Loan-backed and structured securities are accounted for as prescribed by Statement of Statutory Accounting Principles No. 43R, Loan-backed and Structured Securities. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends. See Note 5.D.

2. Accounting Changes and Corrections of Errors

No significant change

3. Business Combinations and Goodwill

No significant change

4. Discontinued Operations

No significant change

5. Investments

D. Loan-Backed Securities

1. The sources used to determine prepayment assumptions are derived from updated cash flows from widely utilized reputable industry sources. The Company's portfolio managers review the available cash flow data and prepayment assumptions and make adjustments based on current performance indicators on the underlying assets (e.g., delinquency rates, foreclosure rates, and default rates), credit support (via current levels of subordination), and historical credit ratings.
2. Intent to Sell or Inability to Hold Securities with a Recognized Other-Than-Temporary Impairment
Not applicable
3. As of March 31, 2015, the Company has not recorded an other-than-temporary impairment for loan-backed and structured debt securities during the current year.
4. As of March 31, 2015, the Company had \$26,150 of gross unrealized losses in the Company's loan-backed and structured debt securities. The Company currently does not intend to sell the loan-backed and structured debt securities and determined that it is more likely than not that the Company will not be required to sell these securities for the period of time necessary to recover their cost basis. If the Company's strategy was to change and these securities were determined to be other-than-temporarily impaired, the Company would recognize a write-down in accordance with the Company's stated policy.

As of March 31, 2015, the composition of fair value and gross unrealized losses on loan-backed and structured debt securities by the length of time that individual securities have been in a continuous unrealized loss position is as follows:

Description	Amount
a. Aggregate amount of unrealized losses	
1. Less than twelve months	\$ --
2. Twelve months or longer	26,150
Total	\$ 26,150
b. Aggregate fair value of securities with unrealized losses	
1. Less than twelve months	\$ --
2. Twelve months or longer	403,576
Total	\$ 403,576

5. Under SSAP No. 43R, the Company analyzes its structured debt securities to determine if the Company intends to sell, or if it is more likely than not that the Company will be required to sell, the security prior to recovery and, if so, the Company writes down the security to its current fair market value with the entire amount of the write-down recorded as a realized loss. To the extent that it is more likely than not that the Company will hold the debt security until recovery (which could be maturity), the Company determines if any of the decline in value is due to a credit loss (i.e., where the present value of cash flows expected to be collected is lower than the amortized cost basis of the security) and, if so, the Company recognizes that portion of the impairment as a realized loss.

- F. All Other Contingencies
- All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and loss adjustment expense (“LAE”) reserves. The Company also has potential exposure relating to lawsuits due to its participation in a management agreement for which it is allocated litigation expenses. The Company transferred 100% of the policy liabilities with regard to all binders, riders, policies and contracts of insurance issued by the Company prior to March 29, 2013 under a reinsurance and assumption agreement with Progressive Direct Insurance Company, an insurance affiliate. Therefore the Company has no net exposure to litigation expense on this business.
- The following is a discussion of a potentially significant pending case at March 31, 2015. The Company does not consider a loss from this case to be probable and is unable to estimate a range of loss, if any, at this time.
- As of March 31, 2015, there was one case consolidated into multi-district proceedings alleging that the Company improperly steers automobile repair work to certain auto body repair shops and challenging the labor rates the Company pays to auto body repair shops.

20. Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value in the Company's Financial Statements

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company's subjective evaluation about the assumptions market participants would use in pricing the financial instrument.

The Company's management evaluated whether the market was distressed or inactive in determining the fair value of the Company's securities and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, management concluded that there was sufficient activity in determining the fair market value of the Company's securities.

As of March 31, 2015, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.

2. Roll forward of Level 3 Items

Not applicable

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

4. Inputs and Techniques Used for Level 2 and Level 3 Fair Values

See Note 20A above.

5. Derivative Fair Values

B. Other Fair Value Disclosures

C. Fair Values for all Financial Instruments by Levels 1, 2, and 3
