- Reserves for incurred losses and loss adjustment expenses attributable to insured events of prior years has increased (decreased) by \$(0.138) million from \$18.065 million in 2014 to \$17.927 million in 2015 as a result of re-estimation of unpaid losses and loss adjustment expenses principally on private passenger auto liability and homeowners lines of insurance. This increase (decrease) is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. Included in this increase (decrease), the Company experienced \$0 million of unfavorable (favorable) prior year loss development on retrospectively rated policies. However, since the business to which it relates is subject to premium adjustments, there was no significant impact on surplus.
