NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory-basis financial statements of Progressive Bayside Insurance Company (the “Company”) were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (“DOI”).

The Ohio DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Ohio DOI. No deviations from NAIC statutory accounting practices (“NAIC SAP”) were used in preparing these statutory-basis financial statements as illustrated in the table below:

|     | The Company routinely assesses the collectibility of premiums and agents' balances receivable and records a bad debt reserve for amounts exceeding the nonadmitted balance that the Company believes are uncollectible.                                                                                                                                                                                                                                                                                                 |
|     | All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and loss adjustment expense ("LAE") reserves. The Company also has, on a net basis, potential exposure relating to lawsuits due to its participation in a 100% pooling reinsurance agreement for which it is allocated litigation expenses.                                                                                                                                                   |

|     | The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:                                                                                                                                                                                                                                                                                                                        |
|     | Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).                                                                                                                                                                                                                                                                                                                                                    |
|     | Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means. |
|     | Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company's subjective evaluation about the assumptions market participants would use in pricing the financial instrument.                                                                                                                                                                                                                                                                                                                        |
|     | The Company's management evaluated whether the market was distressed or inactive in determining the fair value of the Company's securities and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, management concluded that there was sufficient activity in determining the fair market value of the Company's securities.                                                                          |
|     | As of June 30, 2015, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.                                                                                                                                                                                                                                                                                                                                                                |

D. Financial Instruments for Which it is Not Practicable to Estimate Fair Values

Not applicable

21. Other Items

J. Agents' Balances Certification, Florida Statute 625.012 (5):

At June 30, 2015, the Company reported net admitted premiums and agents' balances in course of collection of \$983,459. Of this amount there were no premiums due from a controlled or controlling person as defined in Florida statute 625.012 (5).

22. Events Subsequent

Subsequent events have been considered through August 7, 2015 for the statutory statement that was available for issuance by August 15, 2015. There were no subsequent events to report.

23. Reinsurance

No significant change

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

F. Risk-Sharing Provisions of the Affordable Care Act

The Company does not write health insurance.

25. Changes in Incurred Losses and Loss Adjustment Expenses

Incurred losses and LAE attributable to insured events of prior accident years decreased by \$834,560 in 2015, which is 2.1% of the total prior year net unpaid losses and LAE of \$40,246,279. The favorable development is primarily due to private passenger auto liability originally anticipated severity for accident year 2014 decreasing by 1% and less late reported losses than anticipated for auto physical damage. The LAE reserves developed favorably primarily due to favorable adjusting and other expense reserve development.

26. Intercompany Pooling Arrangements

No significant change

27. Structured Settlements

No significant change

28. Health Care Receivables

No significant change

29. Participating Accident and Health Policies
