Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, All America Insurance Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
- (3) Common stocks are stated at market value except investments in stocks of uncombined
- (4) Preferred stocks are stated at market value except qualified sinking fund preferreds which are stated at amortized cost.
- (5) All America Insurance Company has no mortgage loans on real estate.
- (6) Loan-backed securities are stated at amortized cost. Prepayment assumptions for loan-backed bonds and structured securities are obtained from dealer surveys. These assumptions are consistent with the current interest rate and economic environment. The prospective adjustment method is used to value these securities.
- (7) Central Mutual Insurance Company owns 100% of the common stock of All America Insurance Company, a property and casualty insurance company. Central Mutual Insurance Company owns 100% of Security Central, a holding company. Stocks held in all subsidiaries are carried at their Admitted Asset Equivalent.
- (8) All America Insurance Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) All America Insurance Company owns no derivatives.
- (10) All America Insurance Company anticipates investment income as a factor in the premium.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
