2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

On December 12, 2014, the NAIC adopted substantive revisions to SSAP 40R, "Real Estate Investments". This revision establishes guidance for the reporting of all single property real estate that is wholly owned (100%) by a single reporting entity in an LLC as a Schedule A item in the financial statements, if certain specific criteria are met. Under the revised guidance, a single real estate property investment that is wholly-owned by a limited liability company ("LLC") that is directly and wholly owned by the reporting entity is to be captured as a real estate investment and reported on Schedule A – Real Estate. Prior to this revision, such single property real estate investments are required to be reported in Schedule BA per SSAP No. 48—Joint Ventures, Partnerships and Limited Liability Companies. All Real Estate owned through an LLC not meeting the criteria stated in this revision shall continue to be reported on Schedule BA – Other Long-Term Invested Assets.

This revision is effective on January 1, 2015 and its adoption did not have any material impact on the Company's statutory financial statements.

20. FAIR VALUE MEASUREMENTS

A. Inputs Used For Assets Measured At Fair Value

(1) Fair Value Measurements by Levels 1, 2 and 3

The Company has categorized its assets that are measured at fair value into the three-level fair value hierarchy as reflected in the table below.

Level 1 - are liquid investments traded in active markets and valued based on unadjusted quoted prices. Assets in this category are preferred and common stock securities.

Level 2 - The securities that fall into this category are bonds, preferred stocks, common stocks and call options which are not exchange traded. These securities are valued based upon models with observable inputs - for example market interest rates, credit spreads etc. They may have been determined by independent pricing services using observable inputs.

Level 3 - are investments valued based upon models with "significant" non-observable inputs (assumptions). Such assumptions can be about loss severities, prepayment speed, interest rate volatilities, earnings forecast, comparables sales etc.

(3) Policy on Transfers In and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an investment to be transferred in or out of Level 3.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Bonds and/or Common stocks carried at fair value categorized as Level 3 were valued using unobservable inputs. These unobservable inputs reflect our own assumptions about the criteria that market participants would use in pricing these assets (including assumptions about risk). These assumptions were based on the best information available in the circumstances.
