NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

- A. The financial statements of American Mutual Share Insurance Corporation (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department and in accordance with NAIC Statutory Accounting Principles (NAIC SAP). All of the Company's significant statutory accounting practices are prescribed practices.

State Prescribed Practices	State of Domicile	Current	Prior
01A01 - Net Income, state basis (Page 4, Line 20, Columns 1 and 3)	OH	2,703,347	11,018,765
01A04 - Net Income, NAIC SAP (Line 1 - Line 2 - Line 3)	OH	2,703,347	11,018,765
01A05 - Surplus, state basis (Page 3, Line 37, Columns 1 and 2)	OH	207,544,882	202,310,720
01A08 - Surplus, NAIC SAP (Line 5 - Line 6 - Line 7)	OH	207,544,882	202,310,720

- B. The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

2. Accounting Changes and Corrections of Errors -- No change

3. Business Combinations and Goodwill -- Does not apply

4. Discontinued Operations -- Does not apply.

5. Investments

- A. Mortgage Loans -- Does not apply.

- B. Debt Restructuring -- Does not apply.

- C. Reverse Mortgages -- Does not apply.

D. Loan-Backed Securities

Market values and related prepayment assumptions for CMOs and mortgage-backed securities are obtained from broker dealer survey values. For book purposes, the prospective adjustment method is used where changes in prepayment speeds materially impact expected remaining lives of the securities.

- E. Repurchase Agreements -- Does not apply.

F. Real Estate

Real estate is recorded at cost less depreciation. Depreciation is computed on the straight-line basis using twenty-five year to forty year lives.

- G. Low Income Housing Tax Credits -- Does not apply.

- H. Restricted Assets (Including Pledged):

14. Liabilities, Contingencies and Assessments

As described more fully at Note 1 ("Reserve for Guaranty Losses") of the Company's Annual Statement as of December 31, 2014, in connection with the rehabilitation of certain troubled credit unions the Company from time to time guarantees the repayment of installment loans or other issues (\$18.1 million at September 30, 2015). Where loans are guaranteed, they generally are serviced by member credit unions and are substantially secured, principally by personal property. To the extent that losses are likely to be incurred on the Company's guaranty commitments, the reserve for guaranty losses includes a reserve for losses related to these guarantees (\$6,900,000 at September 30, 2015). Also, see Note 10 of the Annual Statement as of December 31, 2014, for the Company's guarantee of its wholly-owned subsidiary's capital and surplus (up to \$7,000,000 commitment).

On September 17, 2015, the Company entered into an early termination and claims settlement (effective September 25, 2015) of a Guarantee Agreement with an Illinois credit union with an original maturity date of December 31, 2015. On September 25, 2015, the Company paid \$1,254,283 to settle the claim which was fully reserved by the Company as of August 31, 2015.

20. Fair Value Measurements --

A. Assets Measured at Fair Value on Recurring Basis

With regard to the Company's financial assets that are recorded or disclosed at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, the Company uses various valuation approaches, including quoted market prices and discounted cash flows. The ASC and SSAP No. 100 also establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are obtained from independent sources and can be validated by a third party, whereas, unobservable inputs reflect assumptions regarding what a third party would use in pricing an asset or liability. The fair value hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 - Valuations based on quoted prices in active markets for identical instruments that the Company is able to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in active markets for instruments that are similar, or quoted prices in markets that are not active for identical or similar instruments, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Reclassification of certain financial instruments may occur when observability of inputs change. There were no transfers between assets carried at fair value classified within Level 1 and Level 2 of the fair value hierarchy during the nine months ended September 30, 2015 and the year ended December 31, 2014.

Level 3 financial assets include notes and other receivables which consists of the admitted balance of a capital assistance note at December 31, 2014 and September 30, 2015. The estimated fair value of the capital assistance note is determined utilizing Level 3 inputs, including the credit union's cash flow estimates and the interest rate underlying the capital assistance note. The Company did not have any financial assets recorded at fair value that required the use of Level 3 inputs prior to December 31, 2014. At December 31, 2014, the Company recorded a \$6,924,104 non-recurring reduction in its valuation allowance on the capital assistance note based on estimates of probable future collections of the previously fully reserved balance. The estimate was based on the present value of expected cash flows during the foreseeable future and was recorded as part of recovery income in 2014. Of the fair value amount recorded, \$4,624,104 was collected in cash on January 23, 2015 and was reported as an admitted asset at December 31, 2014. The remaining \$2.3 million was treated as a non-admitted asset at December 31, 2014 in the statutory financial statements since collection was not anticipated for greater than 90 days. At March 31, 2015 this \$2.3 million was recorded as an admitted asset since payment was received on April 23, 2015. At June 30, 2015, the Company recorded additional recovery income of \$4,626,572 related to this capital assistance note. Of the fair value amount recorded, \$2,313,286 was collected in cash on July 22, 2015; therefore, this amount was included as an admitted asset at June 30, 2015 with the balance of \$2,313,286 recorded as a non-admitted asset at June 30, 2015 since collection was not anticipated for greater than 90 days. At September 30, 2015, the Company recorded additional recovery income of \$2,313,286, which was collected along with the previously

non-admitted balance from June 30, 2015 of \$2,313,386 on October 27, 2015; therefore the total balance of \$4,626,572 was included as an admitted asset at September 30, 2015.

The Company evaluated all events or transactions that occurred after September 30, 2015 and through November 13, 2015, the date of this filing. Except as described at Note 20A, concerning the collection of \$4.6 million on October 27, 2015 for SRI-1, there have been no events subsequent to September 30, 2015, through the date of this filing which could have a material effect on the Company's financial condition.

23. Reinsurance -- Does not apply.

24. Retrospectively Rated Contracts & Contract Subject to Redetermination -- Does not apply.

25. Changes in Incurred Losses and Loss Adjustment Expenses

The Company writes only one line of business, "Other" (with two products written solely to credit unions: primary share insurance and excess share insurance) and sets loss reserves on a prudent basis for potential claims events. Primary insurance claims can involve specifically identified claims events and other events incurred but not reported (IBNR). The Company also sets aside unallocated loss reserves for its primary insurance book of business so that aggregate loss reserves remain within an actuarially accepted range. Excess insurance claims events are infrequent (rare) but potentially severe and as a result, upon consultation with the Company's independent actuary, the Company provides annual loss reserve additions so that cumulative loss reserves are within an actuarially accepted range.

The Company provided specific loss reserves of approximately \$32.24 million during 2009 related to two Primary-insured credit unions in Nevada, one of which was acquired by another Primary-insured credit union through a purchase and assumption (P&A) transaction that resulted in a gross claim paid of \$8,000,000 under a secondary capital note transaction. The Company transferred \$7,589,000 of guaranty loss reserves to an allowance for loss on the secondary capital note as of December 31, 2014 (\$7,589,000 at September 30, 2015). As part of a guarantee agreement extension expiring September 30, 2017, the Company and the credit union entered into a partial claims settlement on September 30, 2014 in which the Company paid \$14,154,150, out of the \$20.9 million specific loss reserve for this guarantee. The Company also recorded recovery income of \$472,886 in September 2014 on the secondary capital note, primarily for interest collected that was previously fully reserved.

The Company had also provided \$24.6 million in the allowance for losses account at December 31, 2009 for estimated losses on a second troubled Nevada credit union. The Company determined its estimated loss at the time on this credit union through an analysis of potential losses under different events that may transpire during the workout period for this credit union, including capital assistance, merger/P&A with guarantees, liquidation and financial and operational recovery by the credit union, and the likelihood of occurrence of each identified event.

On February 12, 2010, the Company provided capital assistance to this second troubled Nevada credit union, through an advance of \$22,000,000 under an SRI (Special Reserve Instrument) and an SAA (Special Assistance Agreement) as amended effective March 3, 2011 by SRI-1 and the Amended SAA, which primarily provided for a five-year recovery and repayment plan through February 25, 2015 as described further below. The SRI and SRI-1 is collectively referred to herein as the SRI-1. On December 21, 2011, the Company supplemented its previously provided capital assistance with an additional \$4.4 million under a Second Amended SAA and SRI-2 for \$4.4 million based on the credit union's financial and operational progress through 2011, providing the credit union with sufficient resources to continue its recovery. The Amended SAA, Second Amended SAA, SRI-1

NOTES TO FINANCIAL STATEMENTS

and SRI-2 establish a plan to restore the credit union's regulatory net worth and set a course for financial recovery by the credit union. The funds advanced to the credit union under the SRI-1 and SRI-2 are permitted to be included in regulatory net worth by the credit union's Nevada regulatory authority and the Company's rights to any repayment under the SRI-1 and SRI-2 are subordinated to the claims of the credit union's members and creditors. The Amended SAA and Second Amended SAA requires that the credit union comply with and operate within certain parameters designed to assist the credit union. These agreements also required that the credit union develop and implement a Restructuring Plan of Action for 2010 and 2011, including annual updates to the Restructuring Plan for subsequent years (Restructuring Plan), designed to enhance revenues, reduce operating costs and implement new loan collections and other procedures in order to allow the credit union to stabilize operations, return to profitability and to rebuild its net capital over time.

The SRI-1 and Amended SAA divide the SRI into ten sub-instruments of \$2.2 million each plus interest and the original maturity date of August 11, 2010 was extended to February 25, 2015 (with maturities for the ten \$2.2 million sub-instruments beginning February 12, 2015 - see discussion below concerning extension of SRI-1 to December 28, 2016). The SRI-1 also provides for a reduction in the interest rate under the SRI from 3.25% per annum to the two-year US Treasury rate (0.68%, 0.32% 0.25%, 0.31% and 0.79% effective March 3, 2015, 2014, 2013, 2012 and 2011, respectively) adjusted annually on March 3 of each anniversary of SRI-1, and requires repayments against the capital assistance and interest under the SRI-1 to be made to the Company by the credit union, when the credit union's regulatory net worth exceeds 6.0% of total assets. The SRI-2 is structured similarly to SRI-1, with two sub-instruments of \$2.2 million each plus interest at the two-year US Treasury rate (0.71%, 0.38%, 0.26% and 0.28% effective December 21, 2014, 2013, 2012 and 2011, respectively) adjusted annually on December 21 of each anniversary of SRI-2, and with maturities for the two \$2.2 million sub-instruments on December 30, 2016 and December 31, 2016. Both SRI-1 and SRI-2 require that accrued and unpaid interest at each annual interest adjustment date be capitalized into the principal balance commencing on March 3, 2011 for SRI-1 and December 21, 2012 for SRI-2. Capitalized interest that has not been repaid (see below) at September 30, 2015 was \$226,572 for SRI-1. Capitalized interest for SRI-2 was \$40,636 at September 30, 2015.

As noted above, the Amended SRI matured in February 2015 and, given the credit union's financial progress and successfully making six of ten payments aggregating \$13,200,000 (plus capitalized interest of \$635,441) on the Amended SRI through January 23, 2015, the Company and the credit union entered into an Amendment to SRI-1 to extend the repayment terms of the final four of the ten sub-instruments within the Amended SRI through December 28, 2016. The extension of Amended SRI-1 repayment terms through December 28, 2016 has been incorporated into a Third Amendment to the Special Assistance Agreement and an Amendment One to the Amended SRI, effective January 31, 2015. On October 27, 2015, the final two of ten installment payments under SRI-1 were collected in the amount of \$4,626,572.

The Company continually evaluates the ultimate collectability of SRI-1 and SRI-2, based on various factors including the long-term workout period required before the credit union could be in a position to begin repayment of SRI-1 and SRI-2 and interest thereon. As a result, in 2010, the Company transferred \$22,000,000 of guaranty loss reserves into an allowance for loss account, fully reserving the entire outstanding balance of the SRI-1 as of December 31, 2010. At June 30, September 30 and December 31, 2014, March 31, June 30, and September 30, 2015 the credit union had met the SRI regulatory net worth repayment parameters described above, and as a result of the credit union's ability to make payment on SRI-1, the Company re-evaluated its valuation allowance on the SRI's and reduced the SRI valuation allowance at December 31, 2014 from \$27,482,894 to \$11,364,263. The reduction in the December 31, 2014 valuation allowance of \$16,118,631 approximates the amount of the SRI-1 payments collected in 2014 of \$9,223,627, the amount collected on January 23, 2015 of \$4,611,813, and the amount collected in April 2015 of \$2,300,000. An additional \$4,400,000 of guaranty loss reserves was transferred into an allowance for loss account, fully reserving the entire outstanding balance of the SRI-2 since December 31, 2011.

At September 30, 2015, the Company re-evaluated its valuation allowance on SRI-1 in light of the continued good progress being made by the credit union, and the credit union's final payment on SRI-1 installment of \$4,626,572 on October 27, 2015. As a result, the valuation allowance on SRI-1 was reduced to \$-0- at September 30, 2015, increasing the amount recorded as recovery income in 2015 through September 30, 2015 to \$6,953,143. Of the \$4,626,57 net SRI-1 receivable at September 30, 2015, the total amount is recorded as an admitted asset due to its collection in October 2015.

At September 30, 2015, the Company has also reserved \$24,532 of the balance of \$42,805 of accrued interest due the Company under SRI-1 and SRI-2 that have not been capitalized into the balances outstanding for SRI-1 and SRI-2 as of that date.

Although the Company does not normally charge a premium under its primary insurance program, the Company's governing Ohio statute and its primary insurance policy permit premiums to be assessed against Primary-insureds in order to ensure that the Company maintains a sufficient equity base for its insurance risk. As a result of escalating risks identified in the state of Nevada in 2009, as discussed above, the Company billed its Primary-insureds a first time ever special premium assessment of \$0.15 per \$100 of each Primary-insured's total shares on December 31, 2009. This special premium assessment generated approximately \$15.2 million of revenues in 2009 but was not collected until 2010, to partially offset the primary insurance losses of over \$32 million discussed above.

On September 30, 2010, the Company again billed its Primary-insureds a special premium assessment of \$0.15 per \$100 of each Primary-insured's total shares. The special premium assessment generated approximately \$16.2 million of revenues in 2010.

On September 30, 2011, the Company billed its Primary-insureds a third special premium assessment of \$0.15 per \$100 of each Primary-insured's total shares. The special premium assessment generated approximately \$16.4 million of revenues in 2011.

On September 30, 2012, the Company billed its Primary-insureds a fourth special premium assessment of \$0.09 per \$100 of each Primary-insured's total shares. The special premium assessment generated approximately \$10.5 million of revenues in 2012.

On September 30, 2013, the Company billed its Primary-insureds a fifth special premium assessment of \$0.075 per \$100 of each Primary-insured's total shares. The special premium assessment generated approximately \$9.0 million of revenues in 2013.

NOTES TO FINANCIAL STATEMENTS

As a result of the repayments of a portion of the previously fully reserved Special Reserve Instrument (described above) the Company was not required to assess a special premium assessment in 2014 and at this time, it is not anticipated that the Company will charge a special premium assessment in 2015.

Since the Company has no specific excess insurance loss events identified at September 30, 2015, for which a loss reserve would normally be established, all of the Company's loss reserves related to excess insurance and its unallocated primary insurance loss reserves are treated as unallocated IBNR loss reserves. For purposes of Schedule P, in any given year the cumulative unallocated IBNR loss reserves held are considered to have occurred as follows: (1) 60% in current year; (2) 30% in the previous year; and (3) 10% in the second previous year and have been allocated as such in Schedule P, which is comparable to methods used by other insurance companies with infrequent claims events. Since claims events are rare (infrequent but potentially severe), the typical year shows favorable development. A summary of the favorable loss development for the Company's single line of business ("Other") for 2015 and a reconciliation of loss provision, claims payments, prior year loss development and gross losses incurred in 2015, follows (dollars in thousands):

30. Premium Deficiency Reserves

The Company provides deposit insurance to participating credit unions under the Company's primary and excess contracts. Under the primary insurance contract, a deposit of 1.3% of the member's year-end share balance is required. These capitalization deposits are non-interest bearing and the investment earnings therefrom are used to fund the Company's deposit insurance programs in lieu of a normal premium charge. Special Premium Assessments may be charged from time to time against insured credit unions to fund claims activity during unusual times, such as the past two years, in order to maintain the insurance fund at a regulatory acceptable primary insurance equity ratio (currently the equity ratio is 1.69% of primary insurance fund equity to primary insured shares). Even so, the deposits for the primary and excess deposit contracts are at-risk to the insured credit unions and ultimately can act as a reserve that is available to pay claims if needed. The aggregate of capitalization deposits that are available to pay claims are \$163,830,627 at September 30, 2015. Therefore the Company has determined there is not a need for a premium deficiency reserve and none has been recorded at September 30, 2015. This evaluation was completed on October 31, 2015. The Company considers investment income when evaluating the need for
