B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of admitted assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for each reporting period. Actual results could differ from those estimates.

C. Accounting Policy

Dental premiums are earned ratably over the terms of the related insurance policies.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost.
2. The Company's investments in fixed maturity securities are valued using prices provided by third party pricing vendors. The pricing vendors determine the prices using market inputs, including benchmark yields, reported trades, broker-dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. Bonds are stated at amortized cost using the interest method.

11. The estimate for incurred but not reported dental claims is based on actuarial projections of costs using historical claims paid data. Estimates are continually monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current operations. Such estimates are subject to the impact of changes in the regulatory environment and economic conditions. Given the inherent nature of such estimates, the actual liability could differ significantly from the amounts provided. Actual future experience will generally differ from assumptions used to determine claim liabilities.

22. Events Subsequent

On January 1, 2016, the Company will be subjected to an annual fee under Section 9010 of the Federal Affordable Care Act (ACA). This annual fee was to be allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. As of December 31, 2015, the Company has written health insurance subject to the ACA assessment, expects to conduct health insurance business in 2016, and estimated its portion of the annual health insurance industry fee to be payable on September 30, 2016 to be \$5,724. This amount is reflected in special surplus. This assessment is expected to impact risk based capital (RBC) by 0. Reporting the ACA assessment as of December 31, 2015, would not have triggered an RBC action level.
