NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory financial statements of Scottsdale Indemnity Company (the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Ohio.

The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance law. The NAIC’s *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Company has no statutory accounting practices that differ from NAIC SAP.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

	State of Domicile	2015	2014

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of statutory financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Federal Income Taxes. The Company’s parent, Nationwide Mutual Insurance Company (Mutual) files a consolidated federal income tax return, which includes all eligible U.S. subsidiaries and affiliates. In this regard, the included subsidiaries and affiliates pay to Mutual the amount which would have been payable on a separate return basis without regard to the alternative minimum tax. Mutual pays tax due on a consolidated basis.

The Company provides for federal income taxes based on amounts the Company believes it will ultimately owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the financial statements which could be significant. Management has used best estimates to establish reserves based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation.

In accordance with guidance specified in the NAIC SAP, the Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets (DTA), net of any non-admitted portion and statutory valuation allowance, and deferred tax liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. DTAs and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The change in deferred taxes, excluding the impact of taxes on unrealized capital gains or losses and nonadmitted deferred taxes, is charged directly to surplus.

Reinsurance Recoverables. The Company cedes insurance to other companies in order to limit potential losses and diversify its exposure. Such agreements do not relieve the Company of its primary obligation to the policyholder in the event the reinsurer is unable to meet the obligations it has assumed. The Company monitors the financial condition of reinsurers on an ongoing basis and reviews its reinsurance agreements regularly in an attempt to minimize its exposure to significant losses from reinsurer insolvencies. Reinsurance recoverables include amounts billed to reinsurers on losses paid. Estimates of amounts expected to be recovered from reinsurers that have not yet been paid on losses are estimated in a manner consistent with the claim liability associated with the underlying policy. Such reinsurance recoverables and reserved deductions partially offset claim costs in the Company’s statutory statements of operations and are included as an offset to losses and loss expense reserves in the accompanying statutory statements of admitted assets, liabilities and surplus. There were no contracts using deposit accounting as of December 31, 2015 and 2014.

Statutory accounting principles require recognition of a minimum liability for certain unsecured or overdue reinsurance recoverables. As of December 31, 2015 and 2014, the Company had no provision related to conditional reinsurance recoverables.

In addition, the Company uses the following accounting policies:

1. Short-term investments consist of investments with maturities of twelve months or less at acquisition and are stated at amortized cost, which approximates fair value.
2. Bonds, excluding loan-backed and structured securities, are stated at amortized cost except those with a NAIC designation of “3” through “6” which are stated at the lower of amortized cost or fair value. Amortization of premiums and discounts is calculated using the effective yield method.
3. Unaffiliated common stocks are stated at fair value.
4. Redeemable preferred stocks are stated at amortized cost except those with an NAIC designation of “3” through “6” which are stated at the lower of amortized cost or fair value. Perpetual preferred stocks are stated at fair value except those with an NAIC designation of “3” through “6” which are stated at the lower of amortized cost or fair value.
5. Mortgage loans are carried at the unpaid principal balance adjusted for premiums, discounts, less a valuation allowance. The valuation allowance for mortgage loans reflects management’s best estimate of probable credit losses.

NOTES TO THE FINANCIAL STATEMENTS

6. Loan-backed and structured securities (collectively, loan-backed securities) are stated at amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles (SSAP) No. 43-Revised and the Purposes and Procedures Manual of the NAIC Securities Valuation Office. The retrospective adjustment method is used to value loan-backed securities where the collection of all contractual cash flows is probable. For all other loan-backed securities, the Company uses the prospective adjustment method.
7. Investments in subsidiary and affiliated companies are stated as follows:

Not applicable.
8. Other invested assets consist primarily of investments in partnerships, limited liability companies and joint ventures. Underlying investments primarily include hedge funds, private equity funds, emerging market and private debt funds, real estate funds and tax credit partnerships. Except for investments in tax credit partnerships, interests are reported using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Realized gains and losses are generally recognized through income at the time of disposal or when operating distributions are received. Partnership interests in tax credits are carried at amortized cost with amortization charged to investment income over the period in which the tax benefits, primarily credits, are earned.
9. Accounting for derivatives

Not applicable.
10. Insurance premiums are generally earned ratably over the policy term. The liability for unearned premiums represents the portion of premiums written relating to the unexpired terms of coverage. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Premiums in course of collection represent agent balances and uncollected premiums from policyholders for current policies in force and policy premiums assumed from others, including amounts placed with affiliates. As of December 31, 2015 and 2014, the Company had no liabilities related to premium deficiency reserves. The Company includes anticipated investment income when calculating its premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts – Premiums.
11. The Company establishes losses and loss expense reserves for reported claims and claims incurred but not yet reported (IBNR). Estimating the liability for losses and loss expense reserves involves significant judgment and multiple assumptions. Management considers the Company's experience with similar claims, historical trends, economic factors and judicial, legislative and regulatory changes in establishing reserves. The Company's losses and loss expense reserves are recorded net of reinsurance and amounts expected to be received from salvage (the amount recovered from property after the Company pays for a total loss) and subrogation (the right to recover payments from third parties).

Assumptions and estimates for losses and loss expense reserves are updated as new information becomes available. Due to the inherent uncertainty in estimating losses and loss expense reserves, the actual cost of settling claims may differ materially from recorded amounts. Changes in losses and loss expense reserve estimates are included in results of operations in the period the estimates are revised.
12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The Company has not modified its capitalization policy from the prior period.
13. Not applicable as the Company does not write major medical insurance with prescription drug coverage.

D. Going Concern

Not applicable.

Note 2 - Accounting Changes and Corrections of Errors

A. Accounting Changes and Corrections of Errors

Adopted Accounting Standards

In March 2015, the Company adopted SSAP No. 69, Treatment of Non-Cash Items in the Cash-Flow Statements. The adopted revisions clarify that the cash flow statement is limited to transactions involving “cash,” which is defined to include cash, cash equivalents and short-term investments, and expand disclosures to include non-cash operating items. The adoption of the guidance resulted in a change in the current year presentation of the Cash-Flow Statement.

On July 1, 2014, the Company adopted revisions to SSAP No. 26, Bonds and SSAP No. 43R, Loan-Backed and Structured Securities. The revisions require expanded disclosures around structured notes to assist financial statement users in assessing risk by CUSIP level. The adoption resulted in increased disclosures only and had no impact on the Company's statutory financial statements. Refer to Note 5K (Structured Notes) for the disclosure requirements in accordance with the adopted guidance.

1. Prepayment assumptions are generally obtained using a model provided by a third-party vendor.
2. Not applicable.

NOTES TO THE FINANCIAL STATEMENTS

3. Not applicable.
4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:		
1.	Less than 12 Months	\$ <u>(47,655)</u>
2.	12 Months or Longer	\$ <u>-</u>

b. The aggregate related fair value of securities with unrealized losses:		
1.	Less than 12 Months	\$ <u>2,550,459</u>
2.	12 Months or Longer	\$ <u>-</u>

5. The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

E. Repurchase Agreements and Securities Lending Transactions

1. For repurchase agreements, the Company policy requires that the reporting entity receive collateral having a fair value of at least 95% of the fair value of the securities transferred.

For reverse repurchase agreements, the Company policy requires that the reporting entity receive as collateral transferred securities having a fair value at least equal to 102% of the purchase price paid by the reporting entity for the securities.

The Company does not participate in a securities lending program.

2-7. Not applicable as the Company has no open repurchase agreements or securities lending transactions as of year-end.

F. Real Estate

Not applicable.

G. Low-Income Housing Tax Credits

Effective January 1, 2015, the consolidated federal income tax filing group of which the Company is a member expanded to include Mutual's eligible life insurance subsidiaries and non-insurance subsidiaries of the life insurance companies.

2. Effective January 1, 2015, the Company became a party to a revised tax sharing agreement which was approved by the Board of Directors. The revised tax sharing agreement reflects Mutual's new consolidated federal return group which includes its eligible life and non-life subsidiaries. The method of allocation among the companies is based upon separate return calculations with current benefit for tax losses and credits utilized in the consolidated return.

G. Federal or Foreign Federal Income Tax Loss Contingencies

The Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

Note 10 - Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of Relationships

All outstanding shares of the Company are owned by Mutual, domiciled in the State of Ohio.

Bonds and stocks, if any, owned, acquired or disposed of in any year by the Company in any subsidiary or affiliate are set forth in Schedule D of either this statement or those of prior years. Intercompany relationships and specific holdings are detailed in the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement.

The Company is a party to various reinsurance agreements including a quota share agreement with several affiliated companies. See Note 26.

The Company and various affiliates have entered into agreements with Nationwide Cash Management Company (NCMC) a subsidiary of Mutual, under which NCMC acts as a common agent in handling the purchases and sales of short-term investments for the respective accounts of the participants. Amounts on deposit with NCMC were \$1.5 million and \$3.6 million as of December 31, 2015 and 2014, respectively.

B. Detail of Transactions Greater than ½ % of Admitted Assets

Not applicable.

C. Change in Terms of Intercompany Arrangements

Not applicable.

NOTES TO THE FINANCIAL STATEMENTS

D. Amounts Due to or from Related Parties

Affiliate receivables and payables are the result of cost sharing and intercompany service agreements between the Company and its parent and affiliates in which settlement has not yet occurred. Affiliate receivables are presented gross of affiliate payables when the Company has the right to offset. The Company reported gross amounts of \$9.1 million and \$0.1 million due from parent and affiliates and \$2.8 million and \$2.1 million due to parent and affiliates at December 31, 2015 and 2014, respectively. These arrangements are subject to written agreements which require that intercompany balances be settled within 30 days.

E. Guarantees or Undertakings for Related Parties

The Company has no guarantees or contingent commitments to affiliates.

F. Management, Service Contracts, Cost Sharing Arrangements

The Company and various affiliates share a home office, other facilities, equipment, common management and administrative services. Pursuant to a cost sharing agreement between the companies, the amounts associated with these services are subject to allocation based on standard allocation techniques and procedures acceptable under general cost accounting techniques and procedures in conformity with the NAIC SAP. Measures used to determine the allocation among companies includes individual employee estimates of time spent, special cost studies, claims counts, policies in force, direct written premium, paid losses, pro rata share of employees or their salaries, and other methods agreed to by the participating companies. The Company does not believe amounts recognized under the intercompany agreement are materially different than what would have been recognized had the Company operated on a stand-alone basis.

A. Outstanding Shares

The Company has 100,000 shares of \$60 par value common stock authorized, and 50,000 shares issued and outstanding.

B. Dividend Rate of Preferred Stock

Not applicable.

C. Dividend Restrictions

The payment of dividends by the Company is limited by state insurance laws. For example, Ohio Insurance Code requires Ohio-domiciled insurance companies to seek prior regulatory approval to pay a dividend or distribution of cash or other property if the fair market value thereof, together with that of other dividends or distributions made in the preceding twelve months, exceeds the greater of (i) 10% of the insurer's surplus as regards policyholders as of the thirty-first day of December next preceding or (ii) the net income of the insurer for the twelve month period ending the thirty-first day of December next preceding. Additionally, the Ohio Insurance Code requires insurers to seek prior regulatory approval for any dividend paid from surplus that is other than earned. Subject to applicable regulatory approval(s), dividends are paid as determined by the Company's board of directors.

D. Dividends Paid

No dividends were paid by the Company during 2015 and 2014.

E. Profits Available for Ordinary Dividends

Within the limitations of (C) above, there are no restrictions placed on the portion of Company profits that may be paid as ordinary dividends to shareholders.

F. Restrictions on Surplus

There is no restriction on the use of the Company's unassigned surplus and such surplus is held for the benefit of the shareholder.

G. Advances to Surplus Not Repaid

Not applicable.

H. Stock Held by Company for Special Purposes

Not applicable.

I. Changes in Special Surplus Funds

Note 14 – Contingencies

A. Contingent Commitments

The Company has no commitments or contingent commitment to affiliates or other entities. As indicated in Note 10 E, the Company has made no guarantees on behalf of affiliates.

B. Guaranty Fund and Other Assessments

The Company is subject to guaranty fund and other assessments by the states in which it writes business. Guaranty fund assessments should be accrued at the time of insolvencies. Other assessments should be accrued either at the time of assessments or in the case of premium based assessments, at the time the premiums were written. In the case of loss-based assessments, the assessments should be accrued at the time the losses are incurred.

As outlined in Note 26, the Company participated in a 100% quota share reinsurance agreement with Scottsdale Insurance Company. Therefore, the accrued liability for guaranty fund and other assessments and the related premium tax benefit have been ceded indirectly to Mutual.

C. Gain Contingencies

Not applicable.

NOTES TO THE FINANCIAL STATEMENTS

Note 20 – Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company’s view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its financial assets and liabilities into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Company categorizes financial assets and liabilities as follows:

Level 1. Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

Level 2. Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, U.S. LIBOR, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management’s best estimate about the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs. Primary inputs to this valuation technique include broker quotes and comparative trades.

The Company reviews its fair value hierarchy classifications for financial assets and liabilities quarterly. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the period in which the change occurs.

To determine the fair value of bonds and stocks for which market quotations are available, independent pricing services are most often utilized. For these bonds and stocks, the Company obtains the pricing services’ methodologies, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

A corporate pricing matrix is used in valuing certain corporate bonds. The corporate pricing matrix was developed using publicly available spreads for privately placed corporate securities with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when quotes are not available from independent pricing services or a corporate pricing matrix. These bonds are classified accordingly in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased. Inputs used in the development of prices are not provided to the Company by the brokers as the brokers often do not provide the necessary transparency into their quotes and methodologies. Broker quotes are subject to validation of price movements that require approval from the Company’s management. Management uses its knowledge of the investment and current market conditions to determine if the price is indicative of the investment’s fair value.

No financial assets or liabilities were carried at fair value as of December 31, 2015.

The following table summarizes aggregate carrying value and fair value, by level, for all financial assets and liabilities, excluding assets and liabilities reported at fair value, as of December 31, 2015:

30.2	Preferred Stocks	0	0	0
30.3	Totals	35,622,918	36,961,117	1,338,199

30.4

Describe the sources or methods utilized in determining fair values:
For fixed maturity and marketable equity securities for which market quotations generally are available, Nationwide generally uses independent pricing services to assist in determining the fair value measurement. For certain fixed maturity securities not priced by independent services (generally private placement securities without quoted market prices), an internally developed pricing model or "corporate pricing matrix" is most often used. The corporate pricing matrix is developed by obtaining private spreads versus the U.S. Treasury yield for corporate securities with varying weighted average lives and bond ratings. The weighted average life and bond rating of a particular fixed maturity security to be priced using the corporate matrix are important inputs into the model and are used to determine a corresponding spread that is added to the U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular fixed maturity security. Nationwide also utilized broker quotes to assist in pricing securities or to validate modeled prices.

31.1

Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D?

Yes ☒ No ☐

31.2

If the answer to 31.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source?

Yes ☐ No ☒

31.3

If the answer to 31.2 is no, describe the reporting entity's process for determining a reliance pricing source for purposes of disclosure of fair value for Schedule D:
Nationwide relies on broker valuations only when an approved third party vendor evaluation is not available. Any exceptions are approved by Risk Management and the Middle Office and reviewed by the Investments Pricing Committee. The brokers used to value securities are deemed to be main market makers for each individual security and therefore have in depth knowledge of the particular issue.

(a) Insert the number of "L" responses except for Canada and Other Alien.

(L) - Licensed or Chartered - Licensed Insurance Carrier or Domiciled RRG; (R) - Registered - Non-domiciled RRGs; (Q) - Qualified - Qualified or Accredited Reinsurer;

(E) - Eligible - Reporting Entities eligible or approved to write Surplus Lines in the state; (N) - None of the above - Not allowed to write business in the state.

Explanation of Basis of Allocation of Premiums by States, etc.

Premiums are allocated to those states where the insured risks are located: principle garage for automobile, physical address for homeowners, commercial multiple peril and other liability and main place of work for workers' compensation. Allocation of premiums for individual and group health insurance is based on the situs of the contract.
