The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company , for determining its solvency under the Ohio Insurance law . The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio .

B. Use of Estimates in the Preparation of the Financial Statements-

The preparation of financial statements in conformity with SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities . It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period . Actual results could differ from those estimates .

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts . Unearned premium reserves are established to cover the unexpired portion of premiums written . Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance .

Expenses incurred in connection with acquiring new insurance business , including such acquisition costs as sales commissions , are charged to operations as incurred . Expenses incurred are reduced for ceding allowances received or receivable .

In addition , the Company uses the following accounting policies:

- (1) Short-term investments are reported in the same manner as similar long-term investments per Statements of Statutory Accounting Principles (SSAP) No. 2.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method per SSAP No. 26.
- (3) Common stocks are stated at market per SSAP No. 30 , except for investments in stocks of uncombined subsidiaries in which the Company has an interest of 20% or more , which are carried on the equity basis per SSAP No. 97.

- (5) The Company does not hold any mortgage loans .
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair market value . The retrospective adjustment method is used to value all securities . If a security has been written down due to an other-than-temporary impairment , the prospective adjustment method is used subsequent to the loss recognition in accordance with SSAP No. 43R .
- (7) The Company has no subsidiaries , controlled or affiliated company investments .
- (8) The Company has minor ownership interests in partnerships . These have underlying characteristics of common stock and are carried at market value per SSAP No. 30 .
- (9) The Company does not invest in derivative instruments .

- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount , based on past experience , for losses incurred but not reported . Such liabilities are necessarily based on assumptions and estimates and , while management believes the amount is adequate , the ultimate liability may be in excess of or less than the amount provided . The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined . The Company has limited exposure to asbestos and environmental claims and management believes the reserve for such claims is adequate .

e. Rate of compensation increase*	3.00%	3.50%	NA	NA	3.00%	3.50%

* Rate of compensation increase assumed to be 3.5% for 2015 and 3.0% for 2016+.

** Rate of compensation increase assumed to be 3.0% for 2014-2015 and 3.5% for 2016+.

For measurement purposes, a 6.75% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2015 (7.00% for 2014). The rate is assumed to decrease to 6.50% for 2016, then decrease gradually to 5.00% for 2022, and remain at that level thereafter.

The measurement date (annual valuation) used to determine other postretirement benefit measurements for postretirement benefit plans that make up at least the majority of plan assets and benefit obligation is December 31 (based on January 1 participant data). The fair market value of assets is measured and updated as of December 31.

(9) The amount of the accumulated benefit obligation for the defined benefit Pension Plan was \$348,893,992 for 2015 and \$356,695,802 for 2014. The amount of the accumulated benefit obligation for the Nonqualified Plan was \$79,759,914 for 2015 and \$69,786,836 for 2014.

(10) In addition to pension benefits, OFIC provides certain health care and life insurance benefits for retired employees and their eligible dependents via the Ohio Farmers Insurance Company Group Health Benefit Plan and Ohio Farmers Insurance Company Group Life Insurance Plan (Postretirement Benefit Plans). Employees who meet the requirements for retirement and other eligibility prerequisites are eligible for these benefits. OFIC's future obligation for annual medical and dental costs is generally limited to between \$1,500 and \$6,500 per covered individual based on age and years of service. New employees hired on January 1, 2002 or after are not eligible for the postretirement benefits under the OFIC Group Health Benefit Plan.

The OFIC Group Life Plan provides a flat \$15,000 postretirement life insurance benefit for all current and future retirees. The cost of postretirement benefits is accrued during the years after retirement eligibility occurs.

OFIC also sponsors a nonqualified Supplemental Executive Retirement Plan (SERP) and Supplemental Executive Retirement Compensation Plan (SERC). The SERP and SERC, which are unfunded, provide benefits to eligible senior leadership positions based on average earnings, years of service, and age at retirement.

(11) Due to the caps in OFIC's postretirement health care plan, assumed health care cost trend rates have a limited effect on the amounts reported for the health care plans. A one-percentage-point change in assumed health care cost trend rates, including the effects of Medicare Part D subsidies, would have the following effects:

	1 Percentage Point		1 Percentage Point	
	Increase		Decrease	
a. Effect on total of service cost and interest cost components	\$	(12,514)	\$	10,175
b. Effect on postretirement benefit obligation	\$	(245,135)	\$	213,133

(12) The following estimated future payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

	Year(s)	Pension	Postretirement	Nonqualified	Total
a. 2016	\$	14,089,682	\$ 2,301,927	\$ 5,396,054	\$ 21,787,663
b. 2017		15,028,228	2,293,698	5,347,431	22,669,357
c. 2018		15,965,928	2,272,118	5,307,098	23,545,144
d. 2019		16,929,408	2,255,787	5,274,201	24,459,396
e. 2020		17,899,871	2,254,028	5,238,409	25,392,308
f. 2021 through 2025		104,499,323	10,806,973	25,633,046	140,939,342

(13) OFIC may not have any regulatory pension plan contribution requirements for 2016; however, OFIC currently intends to make a voluntary contribution of approximately \$12,900,000 to the defined benefit pension plan with reference to OFIC's contribution funding guidelines.

OFIC's contribution funding guidelines address the contribution and funding limitations as adjusted by the Pension Protection Act Of 2006. The guidelines provide that OFIC will generally contribute an amount equal to the value of benefits earned each year regardless of whether or not a minimum contribution is required with an option to not fund in years where a minimum contribution is not projected during the subsequent five (5) years. Minimum required contributions will always be funded. Contributions are at the final discretion of the Benefits Administrative Committee (BAC).

Additionally, OFIC's postretirement health care plan is contributory, with participants' contributions adjusted annually; the life insurance plan is non-contributory.

(14) Securities, Insurance Contracts, and other Employer Transactions - Not applicable.

(15) Prior service cost is amortized on a straight-line basis over participants' average future service, not on a weighted-average basis.

(16) Substantive commitment used as basis for accounting for the benefit obligation - Not applicable.

(17) Cost of providing special or contractual termination benefits recognized during the period - Not applicable.

(18) Explanation of significant change in the benefit obligation or plan assets not otherwise apparent - Not applicable.

(19) The amount and timing of plan assets expected to be returned in the next twelve months: None

(21) On January 1, 2013, OFIC adopted SSAP No. 92, Accounting for Postretirement Benefits Other Than Pensions - A Replacement of SSAP No. 14 and SSAP No. 102, Accounting for Pensions - A Replacement of SSAP No. 89. The standards require insurers to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability and include non-vested employees in determining the plan obligations. In addition, a sponsor’s fiscal year end will be used as the measurement date for estimating the fair value of postretirement benefit assets and liabilities. The guidance contains a transition provision that gives insurers the option to recognize the initial impact to surplus over a period not to exceed 10 years. OFIC elected the transition option and estimated a surplus decrease of \$36.9 million, net of tax, and initially estimated it to be recognized over the next 5 years. This election was made at the date of transition and the following transition liability was reflected as a reduction in surplus during the 1st, 2nd and 3rd quarters of 2013:

Minimum Transition Liability - greater of:	Pension	Postretirement	Nonqualified	Total
-10% of calculated surplus impact	\$ 7,736,794	\$ 1,214,524	\$ 5,907,758

Tax impact				(1,278,148)
Net surplus decrease at 1/1/2013				\$ 2,373,702

The remaining aggregate transition liability, which reduces surplus in future periods, is shown below:

OFIC’s policy of investment is based on a standard plan and formula. The investment plan and formula states that all assets of the pension trust except dividends and interest received from portfolio securities will be a part of the investment fund (formula). The investment fund will normally consist of debt instruments, including those of governments, government agencies and publicly owned corporations and properly diversified number of common and/or preferred stocks of publicly owned corporations. The investment fund will be divided between these two normal portions. The debt instruments comprise the Bond Fund and shall be considered normal when it is 40% of the investment fund and is generally maintained in a range of 35.0% to 45.0% of the fund. The equities comprise the Stock Fund and shall be considered normal when it is 60% of the investment fund and is generally maintained in a range of 55.0% to 65.0% of the fund. The measurement date for these funds is December 31, annually.

The investments fund portfolio will have the following overall characteristics:

- (1) Complies with provisions of the Ohio Farmers Pension Trust Investment Plan and Formula
- (2) Above average financial quality
- (3) Broadly diversified
- (4) Liquidity requirements minimal
- (5) Fully invested (minimal cash reserves)
- (6) Growing investment income
- (7) Long term time horizon

Additionally the following constraints are placed on individual investments within the portfolio. In the case of equity investments, no equity shall be held unless:

- (1) Dividends are paid (except in the case of mutual funds), and
- (2) Foreign common stock may not exceed 15% of the common stock portfolio.

- (2) There were no fair value measurements of plan assets that used significant unobservable inputs (Level 3) in 2015 or 2014 .
- (3) OFIC determines the fair value of its defined benefit pension plan and postretirement plan assets with a three-level hierarchy for fair value measurements that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs) and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs) . The hierarchy level assigned to each security is based on management's assessment of the transparency and reliability of the inputs used in the valuation of such instruments at the measurement date .

NOTES TO FINANCIAL STATEMENTS

OFIC's policy for determining when a transfer between levels is required is based upon change in the inputs used to determine fair value measurement. If an input changes, OFIC evaluates the new input (s) and makes the determination whether or not a transfer between levels is appropriate. If an asset or liability is transferred between levels, it is OFIC's policy to record the transfer as of the beginning of the reporting period in which the transfer occurs.

There were no transfers into or out of Level 1, 2 or 3 during 2015 or 2014.

- D. The long-term rates of return were determined using a combination of actual results and published market data. The rates are within the high and low ends of an expected return range. The low end of the range was calculated by multiplying the percentage of portfolio composition of each asset category by published historical return data for the category. The high end of the range was calculated by combining the published market data with actual historical returns for the pension plan weighting the percentages, 80% published and 20% historical.

The investment approach for Postretirement Benefit Plans follows the same conservative investment strategies as for the Pension Plan. In light of the shorter duration, however, more emphasis is placed on investments that provide a stable return to fund more current needs.

- E. Defined Contribution Plan

The Company's employees are covered by a qualified defined contribution pension plan (under IRC Section 401 (k)) sponsored by OFIC. The plan began operation on January 1, 2000, in accordance with "Safe Harbor" Treasury regulations.

Contributions of three percent (3%) of each employee's eligible compensation are made during the year. The Company's non-elective contribution for the plan was \$579,015 and \$556,545 for 2015 and 2014, respectively.

At December 31, 2015, the total fair market value of the defined contribution plan assets was \$230,031,963, including unrealized gains and losses and participant loans.

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date .

The fair values for common stocks are based on quoted market prices , where available , which are provided to the Company by an independent pricing service .

Short-term investments , Receivables for securities , Uncollected premiums and agents' balances in the course of collection , and Deferred premiums , agents' balances and installments booked but deferred and not yet due - The carrying amounts reported as admitted assets or liabilities for these financial instruments approximate their fair values due to the short-term nature of these financial instruments .

NOTES TO FINANCIAL STATEMENTS

E. State Transferable and Non-transferable Tax Credits
The Company does not have state transferable or non-transferable tax credits.

F. Subprime-Mortgage-Related Risk Exposure
(1) The subprime lending sector is the sector of the mortgage lending industry which lends to borrowers who do not qualify for prime market interest rates because of poor or insufficient credit history. The term also applies to paper taken on property that cannot be sold on the primary market, including loans on certain types of investment properties and certain types of self-employed individuals.

For purposes of this disclosure, subprime exposure is defined as the potential for financial loss through direct investment, or underwriting risk associated with the risk from the subprime lending sector. This includes any direct risk through investments in debt securities, asset backed or structured securities, hedge funds, subsidiaries and affiliates, and insurance product issuance. The Company views the following features as common characteristics of subprime mortgage loans:

- An interest rate above prime to borrowers who do not qualify for prime rate
- Borrowers with low credit ratings (FICO scores)
- Interest-only or negative amortizing loans
- Unconventionally high initial loan-to-value ratios
- Low initial payments based on a fixed introductory rate that expires after a short initial period, then adjusts to a variable rate plus a margin for the remaining term of the loan
- Borrowers with less than conventional documentation of their home and/or assets
- Very high or no limits on how much the payment amount or the interest rate may increase at reset periods, potentially causing a substantial increase in the monthly payment amount
- Include substantial prepayment penalties

The Company's strategy to manage or mitigate subprime exposure is to avoid making direct investments in, or insuring any of the sources of risk identified above.

(2) The Company has no direct exposure through investments in subprime mortgage loans.

(3) The Company has no direct exposure through other investments.

(4) The Company has no underwriting exposure to subprime mortgage related risk.

Reserves as of December 31, 2014 were \$193.1 million. In calendar year 2015, \$61.6 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$125.5 million. Therefore, there has been a \$6.0 million favorable prior-year development from December 31, 2014 to December 31, 2015. The favorable development is principally from decreases in the estimates of loss and loss adjustment expenses for the following lines of business: reinsurance (nonproportional assumed property) and workers compensation. This change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. The estimates are not affected by prior year loss development on retrospectively rated policies, as the Company does not write this type of policy.
