B. Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Reinsurance recoverables are estimates of paid and unpaid losses collectible from the Company's reinsurers. The amounts ultimately collected may be more or less than these estimates. Any adjustments of these estimates is reflected in income as they are determined. The Company periodically reviews the financial condition of its reinsurers and amounts recoverable therefrom, recording an allowance when necessary for uncollectible reinsurance.

The capitalization policy for fixed assets has not changed from prior year.

In addition the Company uses the following accounting policies:

1. Short-Term investments are stated at cost, which is also their fair value.

Fair values are based on quoted market prices when available.
