On January 1, 2013, OFIC adopted SSAP No. 92, *Accounting for Postretirement Benefits Other Than Pensions* and SSAP No. 102, *Accounting for Pensions*. The standards require insurers to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability and include non-vested employees in determining the plan obligations. In addition, a sponsor's fiscal year end will be used as the measurement date for estimating the fair value of postretirement benefit assets and liabilities. The guidance contains a transition provision that gives insurers the option to recognize the initial impact to surplus over a period not to exceed 10 years. OFIC elected the transition option. The Company expects the remaining transition liability of \$0.7 million to be recognized in 2016.

OFIC contributed \$14.0 million to its pension plan in March 2016. OFIC does not expect to make any additional contributions during the remainder of fiscal year 2016.

The Other Postretirement Benefits expense reflects the receipt of the government subsidy during the period that OFIC's plan benefits are expected to be considered actuarially equivalent to those provided by Medicare Part D.

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date .

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets , quoted prices from those willing to trade in markets that are not active , or other inputs that are observable or can be corroborated by market data for the term of the instrument . Such inputs include market interest rates and volatilities , spreads and yield curves .

If an input changes , the Company evaluates the new input (s) and makes the determination whether or not a transfer between levels is appropriate . If an asset or liability is transferred between levels , it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs . The Company held no assets or liabilities categorized as Level 1 , 2 or 3 during the reporting period that were transferred into or out of the level categorization held at January 1 , 2016 .

The fair values for common stocks are based on quoted market prices , where available , which are provided to the Company by an independent pricing service .

Short-term investments , Receivables for securities , Uncollected premiums and agents' balances in the course of collection , and Deferred premiums , agents' balances and installments booked but deferred and not yet due - The carrying amounts reported as admitted assets or liabilities for these financial instruments approximate their fair values due to the short-term nature of these financial instruments .

- 24. Retrospectively Rated Contracts and Contracts Subject to Redetermination- Not applicable
- 25. Changes in Incurred Losses and Loss Adjustment Expenses- Reserves as of December 31 , 2015 were \$201.0 million . In calendar year 2016 , \$23.0 million has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years . Reserves remaining for prior years are now \$174.9 million . Therefore, there has been a \$3.1 million favorable prior-year development from December 31 , 2015 to March 31 , 2016 . The favorable development is principally from decreases in the estimates of loss and loss adjustment expenses for the following lines of business: Commercial Multiple Peril , Auto Physical Damage , Workers Compensation and Fidelity/Surety . This is offset , in part , by increases in the estimates of loss and loss adjustment expenses for Other Liability-Occurrence . This change is generally the result of ongoing analysis of recent loss development trends . Original estimates are increased or decreased , as additional information becomes known regarding individual claims . The estimates are not affected by prior year loss development on retrospectively rated policies , as the Company does not write this type of policy .
