1.) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

The financial statements of Great American Spirit Insurance Company (“the Company”) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for purposes of determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures Manual has been adopted as a component of prescribed or permitted practices by the state of Ohio. The Company has no prescribed or permitted practices that would result in differences between NAIC SAP and the state of Ohio basis, as shown below:

	State of Domicile	2016	2015
Net income state basis	Ohio	\$ 57,777	\$ 345,811
Effect of state prescribed practices	Ohio	-	-

B. No significant change.

C. Accounting Policies

Loan-backed securities with a NAIC rating 1 and 2 are stated at amortized cost using the interest method; all others are stated at the lower of amortized cost or fair value. For residential mortgage-backed securities (RMBS), commercial mortgage-backed securities (CMBS) and loan-backed and structured securities (LBASS), the NAIC has retained third-party investment management firms to assist in the determination of the appropriate NAIC designations and Book Adjusted Carrying Values based not only on the probability of loss, but also the severity of loss. Those RMBS, CMBS and LBASS securities that are not modeled but receive a current year Acceptable Rating Organizations (ARO) rating are subject to the Modified FE process which determines the appropriate NAIC designations and Book Adjusted Carrying Values.

20.) FAIR VALUE

- A. Inputs Used for Assets and Liabilities Measured at Fair Value
 - 1. The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Quoted prices for identical assets or liabilities in active markets (markets in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis). The Company's Level 1 financial instruments consist primarily of publicly traded equity securities and highly liquid government bonds for which quoted market prices in active markets are available.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar assets or liabilities in inactive markets (markets in which there are few transactions, the prices are not current, price quotations vary substantially over time or among market makers, or in which little information is released publicly); and valuations based on other significant inputs that are observable in active markets. The Company's Level 2 financial instruments include corporate and municipal fixed maturity securities and MBS priced using observable inputs. Level 2 inputs include benchmark yields, reported trades, corroborated broker/dealer quotes, issuer spreads and benchmark securities. When non-binding broker quotes can be corroborated by comparison to similar securities priced using observable inputs, they are classified as Level 2.

Level 3 - Valuations derived from market valuation techniques generally consistent with those used to estimate the fair value of Level 2 financial instruments in which one or more significant inputs are unobservable or when the market for a security exhibits significantly less liquidity relative to markets supporting Level 2 fair value measurements. The unobservable inputs may include management's own assumptions about the assumptions market participants would use based on the best information available in the circumstances. The Company's Level 3 is comprised of financial instruments whose fair value is estimated based on non-binding broker quotes or internally developed using significant inputs not based on, or corroborated by, observable market information.

The Company's investment manager, American Money Management Corporation ("AMMC") (an affiliate) is responsible for the valuation process and uses data from outside sources (including nationally recognized pricing services and broker/dealers) in establishing fair value. Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by AMMC's internal investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the prices obtained, these investment managers consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions and the credit quality of the specific issuers. In addition, AMMC communicates directly with the pricing service regarding the methods and assumptions used in pricing, including verifying, on a test basis, the inputs used by the service to value specific securities.

The Company does not have any assets carried at fair value.

- 2. The Company does not have any Level 3 securities carried at fair value.
- 3. Fair Value Recognition of Transfers Between Levels

The Company recognizes and records the transfer of securities into and out of Level 3 due to changes in availability of market observable inputs. All transfers are reflected at fair value as of the end of the reporting period.

- 4. Inputs and Techniques Used in Estimating Fair Value - See narrative in Note 20A.

- B. The Company has no additional fair value disclosures.
- C. The Company has categorized all the financial assets in the financial statements into the three-level fair value hierarchy as reflected in the following table. See item A.1. above for a discussion of each of these three levels.
