C. Accounting Policy

6. Loan-backed securities

Loan-backed and structured securities are accounted for as prescribed by Statement of Statutory Accounting Principles No. 43R, Loan-backed and Structured Securities. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends. See Note 5.D.

D. Going Concern

Management continuously monitors the Company's financial results and compliance with regulatory requirements and found no reason to expect the Company to not continue as a going concern.

NOTE 5 – INVESTMENTS

D. Loan-Backed Securities

1.

The sources used to determine prepayment assumptions are derived from updated cash flows from widely utilized reputable industry sources. The Company's portfolio managers review the available cash flow data and prepayment assumptions and make adjustments based on current performance indicators on the underlying assets (e.g., delinquency rates, foreclosure rates, and default rates), credit support (via current levels of subordination), and historical credit ratings.
2.

Intent to Sell or Inability to Hold Securities with a Recognized Other-Than-Temporary Impairment

Not applicable
3.

For the reporting period, the Company has not recorded an other-than-temporary impairment for loan-backed and structured debt securities during the current year.
4.

For the reporting period, the Company had \$789 of gross unrealized losses in the Company's loan-backed and structured debt securities. The Company currently does not intend to sell the loan-backed and structured debt securities and determined that it is more likely than not that the Company will not be required to sell these securities for the period of time necessary to recover their cost basis. If the Company's strategy was to change and these securities were determined to be other-than-temporarily impaired, the Company would recognize a write-down in accordance with the Company's stated policy.

NOTES TO FINANCIAL STATEMENTS

For the reporting period, the composition of fair value and gross unrealized losses on loan-backed and structured debt securities by the length of time that individual securities have been in a continuous unrealized loss position is as follows:

a.	The aggregate amount of unrealized losses:	1.	Less than 12 Months	\$	6,901
		2.	12 Months or Longer	\$	42
b.	The aggregate related fair value of securities with unrealized losses:	1.	Less than 12 Months	\$	3,993,087
		2.	12 Months or Longer	\$	327,846

5.
- Under SSAP No. 43R, the Company analyzes its structured debt securities to determine if the Company intends to sell, or if it is more likely than not that the Company will be required to sell, the security prior to recovery and, if so, the Company writes down the security to its current fair market value with the entire amount of the write-down recorded as a realized loss. To the extent that it is more likely than not that the Company will hold the debt security until recovery (which could be maturity), the Company determines if any of the decline in value is due to a credit loss (i.e., where the present value of cash flows expected to be collected is lower than the amortized cost basis of the security) and, if so, the Company recognizes that portion of the impairment as a realized loss.

All Other Contingencies

The Company routinely assesses the collectibility of premiums and agents' balances receivable and records a bad debt reserve for amounts exceeding the nonadmitted balance that the Company believes are uncollectible.

The Company is named as defendant in various lawsuits arising out of its insurance operations. All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and loss adjustment expense ("LAE") reserves. The Company also has potential exposure relating to lawsuits due to its participation in the management agreement for which it is allocated litigation expenses.

The following is a discussion of a potentially significant pending case at the reporting date. The Company does not consider a loss from this case to be probable and is unable to estimate a range of loss, if any, at this time.

NOTE 20 – FAIR VALUE MEASUREMENTS

A. Inputs Used for Assets and Liabilities Measured at Fair Value in the Company’s Financial Statements

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company’s subjective evaluation about the assumptions market participants would use in pricing the financial instrument.

The Company’s management evaluated whether the market was distressed or inactive in determining the fair value of the Company’s securities and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, management concluded that there was sufficient activity in determining the fair market value of the Company’s securities.

As of the reporting date, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.

2. Roll forward of Level 3 Items

Not applicable

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

4. Inputs and Techniques Used for Level 2 and Level 3 Fair Values

See Note 20.A above.

Incurred losses and LAE attributable to insured events of prior accident years increased by \$28,235 in 2016, which is less than 1% of the total prior year net unpaid losses and LAE of \$58,160,061. The unfavorable development is primarily due to commercial auto liability originally anticipated severity increasing by 17.2% for accident year 2015 partially offset by originally anticipated severity decreasing by 2.2% for accident years 2013 and prior. Private passenger auto liability developed unfavorably due to originally anticipated severity increasing by 1.2 % for accident year 2015. LAE reserves developed favorably in both defense and cost containment and adjusting and other expense reserves.
