**STATEMENT AS OF SEPTEMBER 30, 2016 OF THE The Western and Southern Life Insurance Company  
NOTES TO FINANCIAL STATEMENTS**

**1. Summary of Significant Accounting Policies and Going Concern**

**A. Accounting Practices**

The financial statements of The Western and Southern Life Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The Department has the right to permit other specific practices that deviate from prescribed practices. There are no differences between the Company's net income and capital and surplus following NAIC SAP or practices prescribed and permitted by the state of Ohio.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

**B. Use of Estimates in the Preparation of the Financial Statements. No Change.**

**C. Accounting Policy. No Change.**

**D. Going Concern. Management has not raised any doubts about the entity's ability to continue as a going concern.**

**2. Accounting Changes and Correction of Errors**

Effective January 1, 2016, the Company determined that its reserves related to certain classes of traditional life policies were understated due to an error in the calculation of premium mode factors. This resulted in a change of the aggregate reserve for traditional contracts that is required to be recorded directly to surplus rather than as a part of the reserve change recognized in the Summary of Operations. The company has recorded a \$4.7 million decrease directly to surplus as a result of the correction through the Aggregate Write-ins for Gains and Losses in Surplus, within the line titled *Traditional Life Reserve Correction*, on the Summary of Operations.

**3. Business Combinations and Goodwill. No Change.**

**4. Discontinued Operations. No Change.**

**5. Investments**

**A. Mortgage Loans, including Mezzanine Real Estate Loans. No Change.**

**B. Debt Restructuring. None.**

**C. Reverse Mortgages. None.**

**D. Loan-Backed Securities**

(1) Prepayment assumptions are derived from Bloomberg and broker dealer prepayment models or from empirical data.

(2) The Company had no other-than-temporary impairments on loan-backed and structured securities for the nine month period ended September 30, 2016, due to the intent to sell the security or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis of the security.

(3) The following is a list of each loan-backed and structured security with a recognized other-than-temporary impairment, for the nine month period ended September 30, 2016, as the present value of future cash flows expected to be collected is less than the amortized cost basis of the securities:

1 CUSIP	2 Book/Adjusted Carrying Value Amortized Cost Before Current Period OTTI	3 Present Value of Projected Cash Flows	4 Recognized Other-Than- Temporary Impairment	5 Amortized Cost After Other-Than- Temporary Impairment	6 Fair Value at time of OTTI	7 Date of Financial Statement Where Reported

(4) The following is an aggregate total of all impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss, including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains as of September 30, 2016:

STATEMENT AS OF SEPTEMBER 30, 2016 OF THE The Western and Southern Life Insurance Company  
NOTES TO FINANCIAL STATEMENTS

a. The aggregate amount of unrealized losses:

1. Less than 12 Months .....	5,533,360
2. 12 Months or Longer .....	2,852,176
b. The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 Months .....	94,893,582
2. 12 Months or Longer .....	128,315,209

(5) The Company monitors investments to determine if there has been an other-than-temporary decline in fair value. Factors management considers for each identified security include the following:

- the length of time and the extent to which the fair value is below the book/adjusted carry value;
- the financial condition and near term prospects of the issuer, including specific events that may affect its operations;
- for equity securities and debt securities with credit related declines in fair value, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;
- for debt securities with interest related declines in fair value, the Company's intent to sell the security before recovery of its book/adjusted carry value;
- for loan-backed securities, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;
- for loan-backed securities, the Company's intent to sell the security before recovery of its book/adjusted carry value.

If the decline is judged to be other-than-temporary, an impairment charge is recorded as a net realized capital loss in the period the determination is made.

\*Gains and losses for assets held in separate accounts do not impact net income or surplus as the change in value of assets held in separate accounts is offset by a change in value of liabilities related to separate account.

(3) The Company's policy is to recognize transfers in and transfers out of levels at the beginning of each quarterly reporting period.

(4) The fair values of investments in Level 2 for NAIC 6 rated industrial & miscellaneous bonds have been determined through the use of third-party pricing services utilizing market observable inputs.

The fair values of common stock and mutual funds have been determined utilizing publicly quoted prices from third-party pricing services.

Assets held in separate accounts include debt securities, common stock, mutual funds, private equity and private debt fund investments. The fair values of debt securities in the separate accounts have been determined through the use of third-party pricing services utilizing market observable inputs. The fair values of common stock and mutual funds in the separate accounts have been determined using the same methodologies as common stock and mutual funds in the general account. The fair values of private equity and private debt fund investments in the separate accounts have been determined based on the Company's interest in the underlying audited GAAP equity of the investee.

The following discussion describes the valuation methodologies utilized by the Company for assets and liabilities measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows and the credit standing of the issuer. Such estimates do not consider the tax impact of the realization of unrealized gains or losses. For Level 3 investments, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial instrument. As described below, certain fair values are determined through the use of third-party pricing services. Management does not adjust prices received from third-parties; however, we do analyze the third-party pricing services' valuation methodologies and related inputs and perform additional evaluation to determine the appropriate level within the fair value hierarchy. Care should be exercised in deriving conclusions about the Company's business, its value or financial position based on the fair value information of financial instruments presented below.

*Debt Securities and Surplus Notes*

The fair values of actively traded debt securities, asset/mortgage-backed securities, and surplus notes have been determined through the use of third-party pricing services utilizing market observable inputs. Private placement securities trading in less liquid or illiquid markets with limited or no pricing information are valued using either broker quotes or by discounting the expected cash flows using current market-consistent rates applicable to the yield, credit quality and maturity of each security.

*Equity Securities*

The fair values of actively traded equity securities have been determined utilizing publicly quoted prices obtained from third-party pricing services. The fair values of certain equity securities for which no publicly quoted prices are available have been determined through the use of third-party pricing services utilizing market observable inputs. Actively traded mutual funds are valued using the net asset values of the funds.

*Mortgage Loans*

The fair values for mortgage loans, consisting principally of commercial real estate loans, are estimated using discounted cash flow analyses, using interest rates currently being offered for similar loans collateralized by properties with similar investment risk. The fair values for mortgage loans in default are established at the lower of the fair value of the underlying collateral less costs to sell or the carrying amount of the loan.

*Cash, Cash Equivalents and Short-Term Investments*

The fair values of cash, cash equivalents and short-term investments are based on quoted market prices or stated amounts.

*Securities Lending Reinvested Collateral Assets*

The fair value of securities lending reinvested collateral assets are from third-party sources utilizing publicly quoted prices.

*Assets Held in Separate Accounts*

Assets held in separate accounts include debt securities, equity securities, mutual funds, private equity, and private debt fund investments. The fair values of these assets have been determined using the same methodologies as similar assets held in the general account. The fair values of debt securities, equity securities and mutual funds have been determined using the same methodologies as similar assets held in the general account. The fair values of private equity and private debt fund investments have been determined utilizing the net asset values of the funds.

*Life and Annuity Reserves for Investment-type Contracts and Deposit Fund Liabilities*

The fair value of liabilities for investment-type contracts is based on the present value of estimated liability cash flows. Present values reflect the Company's margin for uncertainty of the timing of liability cash flows. Key assumptions to the cash flow model include the timing of policyholder withdrawals and the level of interest credited to contract balances.

Fair values for insurance reserves are not required to be disclosed. However, the estimated fair values of all insurance reserves and investment contracts are taken into consideration in the Company's overall management of interest rate risk.

*Securities Lending Liability*

The liability represents the Company's obligation to return collateral related to securities lending transactions. The liability is short-term in nature and therefore, the fair value of the obligation approximates the carrying amount.
