B. Use of Estimates in the Preparation of the Financial Statements:

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy:

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by daily pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- Short-term investments are stated at amortized cost, which approximates fair value.
- Bonds not backed by other loans are stated at amortized cost using the scientific method.
- The Company has no investments in common stocks.
- The Company has no investments in preferred stocks.
- The Company has no investments in mortgage loans.
- Loan-backed securities are stated at either amortized cost or the lower or amortized cost or fair market value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative, those are valued using the prospective method.
- The Company has no investment in subsidiaries, controlled and affiliated entities.
- The Company has no investments in joint ventures, partnerships and limited liability companies.
- The Company has no investments in derivative instruments.
- The Company does not anticipate investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
- Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.
- The Company has not modified its capitalization policy from the prior period.
- The Company does not have pharmaceutical rebate receivables.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE
GRANGE PROPERTY & CASUALTY INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

F. Subprime Mortgage Related Risk Exposure

1. Management Definition of Exposure to Subprime Mortgage Related Risk:

- Management defines “subprime” mortgage loans as mortgage loans that are originated with an inherently higher risk profile or have a loan structure that is distinctly different from that of traditional mortgage loans. Management considers the following factors in determining whether or not a mortgage represents a subprime risk: borrowers with low credit ratings (FICO score); unconventionally high initial loan-to-value ratios (LTVs); unconventionally structured loans (option pay adjustable rate mortgages or negative amortizing loans); unconventionally high interest rates; and less than conventional documentation of the borrower’s income and/or assets.
2. The Company has no direct exposure through investments in subprime mortgage loans
3. Estimated Direct Exposure to Subprime Mortgage Risk Through Other Investments.

Management considers the Company's holdings in securities with underlying subprime exposure to be minimal. The majority of residential mortgage backed securities (RMBS) in the portfolio are issued by government-sponsored enterprises (GSEs). The Company did not own securities with collateral that contain subprime characteristics based on low credit (FICO scores less than 620) and/or high LTVs. The Company's bond portfolio does not include any positions in collateralized debt obligations (CDOs) on a direct basis. On a quarterly basis, management reviews all loan-backed and structured securities with an unrealized loss position according to SSAP 43-R. The best estimate of future cash flows using the appropriate discount rate is calculated for each affected security. To assist in this effort, a brokerage firm provides forward-looking assumptions for default rates, voluntary prepayment speeds, and loss severities on a majority of the securities governed by SSAP 43R. The outcomes of this process assure that anticipated cash flows will not be less than the carrying value subsequent to other-than-temporary impairments. As of December 31, 2016 management estimates there were no unrealized losses present due to subprime mortgage exposure.

25. CHANGES IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES:

Reserves for incurred losses and loss adjustment expenses attributable to insured events of prior years has increased (decreased) by \$(0.803) million from \$19.192 million in 2015 to \$18.389 million in 2016 as a result of re-estimation of unpaid losses and loss adjustment expenses principally on private passenger auto liability and homeowners lines of insurance. This increase (decrease) is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. Included in this increase (decrease), the Company experienced \$0 million of unfavorable (favorable) prior year loss development on retrospectively rated policies. However, since the business to which it relates is subject to premium adjustments, there was no significant impact on surplus.

NOTES TO FINANCIAL STATEMENTS

37. CATASTROPHIC PLANNING:

The Company utilizes a variety of catastrophe mitigation techniques including exposure management, catastrophe modeling, transfer of risk via reinsurance and claims staff preparation. Exposure management includes active management of exposures and loss potentials such as monitoring of changes in insured values, peril avoidance, pricing actions and/or agency realignments. The Company primarily relies on two probabilistic catastrophe models to identify PML and TVaR estimates on an annual basis. A deterministic model augments this effort. The Company has a comprehensive catastrophic reinsurance program in place and we currently purchase coverage well in excess of our 250+ year event outcome. The Company places an emphasis on settlement of claims by Company personnel and these associates receive ongoing training on property claims practices.
