ANNUAL STATEMENT FOR THE YEAR 2016 OF THE REPUBLIC-FRANKLIN INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Republic-Franklin Insurance Company are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department.

The Ohio Insurance Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Ohio Insurance Laws. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The state of Ohio has adopted some practices that differ from NAIC SAP; however, none of those changes would impact the financial results of Republic-Franklin Insurance Company.

A reconciliation of net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Ohio is shown below.

B. Use of Estimates in Preparation of the Financial Statement

The preparation of financial statements in compliance with Statutory Accounting Principles (SAP) requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the balance sheet date as well as reported amounts of revenue and expenses during the period covered by the income statement. The actual results could vary from these estimates.

C. Accounting Policies

Premiums are earned over the term of related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written and are computed on the daily pro-rata method. Expenses incurred with the acquisition of new insurance contracts, including acquisition costs such as commissions, are charged to operations as incurred. Expenses incurred are reduced by any ceding allowances received or receivable.

The Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds are stated at amortized cost using the scientific amortization method.
- (3) Common stock is stated at market value.
- (4) The Company does not own any preferred stock.
- (5) The Company does not own any mortgage loans on real estate.
- (6) Loan-backed securities are stated at either amortized cost, or the lower of amortized cost or fair market value. The prospective adjustment method is used to value all loan-backed securities.
- (7) The Company does not own any subsidiaries or affiliates.
- (8) The Company does not have any ownership interests in joint ventures.
- (9) The Company does not own any derivatives.
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.

D. Management's evaluation of the financial condition of the Company did not indicate any going concern issues.

Note 2 – Accounting Changes and Corrections of Errors

1. Our asset manager uses a proprietary model for loss assumptions and widely accepted models for prepayment assumptions in valuing mortgage-backed and asset-backed securities with inputs from major third party data providers. The models combine the effects of interest rates, volatility, and pre-payment speeds based on various scenarios (Monte Carlo), simulations with resulting effective analytics (spreads, duration, convexity) and cash flows on a monthly basis. Credit sensitive cash flows are calculated using a proprietary model which estimates future loan defaults in terms of timing and severity. Model assumptions are specific to asset class and collateral types and are regularly evaluated and adjusted where appropriate.

Employees hired after January 1, 2007 are not eligible for the Retirement Income Plan. Plan benefits are based on years of service and the employee's compensation during the highest five consecutive out of the last ten years of employment. The Company also participates in the Supplemental Employee Retirement Plan for certain management Employees of the Utica Mutual (SERP), a non-qualified excess plan for certain officers whose benefits were limited by IRS Code Section 401(a)(17) or IRS Code Section 415(b).

The Republic-Franklin Insurance Company does not have any employees and substantially all of the Utica Mutual employees are covered in the Qualified Employee Profit Sharing and Investment Plan sponsored by Utica Mutual ("Company"). Employees can defer up to 50% of their base pay into the plan, subject to annual IRS elective deferral limitations. The Company will match from 0% to 125% of the first 4% of employee deferrals, depending upon Company earnings. The Company can also make an additional discretionary contribution.

The Deferred Income Plan allows all officers of the Company to defer part of their annual compensation.

In addition to pension benefits, the Republic-Franklin Insurance Company, as a subsidiary of the Utica Mutual, provides certain health care insurance benefits ("post-retirement") for retired employees through a plan sponsored by Utica Mutual. Substantially all employees may become eligible for these benefits if they reach retirement age while working for Utica Mutual. Alternatively, retirees may elect certain prepaid health care benefits plans. During 2010, the Utica Mutual curtailed the life insurance benefits available to future retirees. Existing retiree life insurance benefits were settled through the purchase of a single life premium life insurance policy.

The Republic-Franklin Insurance Company has no legal obligation for benefits under any of these plans. Utica Mutual allocates pension amounts to the Republic-Franklin Insurance Company based on cost allocations and the pooling agreement ratios.

Note 33 - Asbestos / Environmental Reserves

Asbestos

- A. Does the Company have on the books, or has it ever written an insured for which you have identified a potential for the existence of, a liability due to asbestos losses? Yes (X) No ()

The Company has exposure to asbestos claims. This exposure arises primarily from the sale of general liability policies to manufacturers and suppliers that may have used/sold products that may have contained asbestos. Claimants have sued these manufacturers/suppliers for damages they allegedly received as a result of claimed exposure to these products.

Aggregate asbestos reserves have been established based on a stochastic model valuation. The Company reserves to the best point estimate of reasonable range of estimates after adjusting for reinsurance.

Effective 1/1/12, Utica entered into a reinsurance agreement with National Indemnity Company (NICO), a subsidiary of Berkshire Hathaway Group, which reinsures Utica's current asbestos losses up to a contract limit of \$475,985,800 for certain policies from 2003 and prior.

Environmental

- D. Does the Company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to environmental losses? Yes (X) No ().

The Company has exposure to hazardous waste clean up claims. This exposure arises primarily from the sale of general liability policies.

Hazardous waste clean up claims are defined as losses related directly or indirectly to the cost of remediation of a site arising from past operations or waste disposal of hazardous materials or substances.

Hazardous waste clean up claims are reserved by evaluating coverage, liability and damages.

Factors considered in evaluating coverage include whether the facts indicate an "occurrence" has taken place as that term is defined in general liability policies, whether there is a pollution exclusion in the policy, what policies are triggered, whether there is property damage as that term is defined in the policy, whether in the case of property damage the damage is confined to the insured own property, the law of the jurisdiction applicable to the claim, and possibly other factors.

Factors considered, in evaluating liability include whether the insured produced toxic or hazardous products or substances or owns property on which such toxic substances are located, the toxicity of such substances and the quantity attributable to the insured, whether the injuries alleged are causally connected to the substance attributed to the insured, the number and relative liability of other defendants, the probability of other causes and possibly other factors.

Factors considered in evaluating damages in the case of a hazardous waste clean up claim include the cost to remediate the site, monitoring costs, damages to material resources, administrative costs, etc.

The relatively small volume of environmental losses are reserved on a case occurrence basis. IBNR reserves are carried to maintain a reasonable survival ratio.
