B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Accounting Policy

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Expenses incurred in connection with acquiring new insurance business, including acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost.
2. Bonds not backed by other loans are stated at amortized value using the interest method. Non-investment grade bonds are stated at the lower of amortized value or fair value.
3. Common stocks, other than investments in stocks of subsidiaries and affiliates, are stated at market.
4. Redeemable preferred stocks are stated at amortized value. Perpetual preferred stocks are stated at fair value. Non-investment grade preferred stocks are stated at the lower of amortized value or fair value.
5. The Company does not have any mortgage loans.
6. Loan-backed securities are stated at amortized value. The retrospective adjustment method is used to value all loan-backed securities. Non-investment grade loan-backed securities are stated at the lower of amortized value or fair value.
7. Insurance subsidiary (Home and Farm Insurance Company) is stated at statutory equity value. Non-insurance subsidiaries (Hetuck Insurance Agency and Marias Technology, Inc.) are stated at statutory equity value.
8. The Company does not have any joint ventures or partnerships.
9. The Company does not carry any derivatives.
10. The Company does not anticipate investment income as a factor in premium deficiency calculations.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports, and an amount based on past experience for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates, and while management believes the amount is adequate, the ultimate liability may be in excess or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
12. The Company has not modified its capitalization policy from the prior period.

B. Investment Policies and Strategies

In recognition of the difficulty in predicting the direction of the market or future state of the economy, the Plan's assets will be prudently diversified. In addition to asset classes, the Plan will be diversified among managers/funds and investment styles. The purpose of this approach is to incorporate prudent diversification within the Plan, enhancing expected returns and/or reducing the risk of the total portfolio.

The Plan may include liability-matching assets. The primary purpose of these assets is to gain duration exposure similar to that of the Plan liabilities and better match the credit exposure and asset quality with the discount rate used to value the Plan liabilities. As funded status changes, Plan asset allocation may change to better match duration and interest rate risk of Plan liabilities.

Note 25 – Change in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2015 were \$10.284 million. As of December 31, 2016, \$5.817 million has been paid for incurred losses and loss adjusting expense attributable to insured events of prior years. Reserves remaining for prior years are now \$3.759 million as a result of re-estimation of unpaid claims and claim adjustment expenses principally on the auto physical damage, auto liability and homeowners & farmowners lines of insurance. Therefore, there has been a \$708,000 favorable prior year development since December 31, 2015 to December 31, 2016. The decrease is generally the result on ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. The Company does not have retrospectively rated policies.
