B. Use of Estimates in the Preparation of the Financial Statements

In preparing the financial statements in conformity with Statutory Accounting Principles (SAP) as described in the *Annual Statement Instructions* and the *Accounting Practices and Procedures Manual*, management is required to make certain estimates and assumptions that affect 1) the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities as of the date of the financial statements and 2) the reported amounts of revenues and expenses for the reporting period. Actual results could differ from those estimates.

C. Accounting Policies

Investments

Management regularly reviews the Company's investment portfolio to evaluate the necessity of recording impairment losses for other-than-temporary declines in the fair value of invested assets. A number of criteria are considered during this process including, but not limited to, the following: 1) the Company's intent and ability to retain the security for a period of time sufficient to allow for an anticipated recovery in fair value; 2) the recoverability of principal and interest in accordance with the contractual terms of the bond or other debt security in effect at the date of acquisition; 3) the extent and duration to which a security's fair value has been less than cost or amortized cost, as appropriate; 4) the current financial condition, near-term and long-term prospects of the issuer, including relevant industry conditions and trends; and 5) general economic conditions. Other-than-temporary impairment losses result in a permanent reduction of the cost basis of the underlying investment. Estimates for other-than-temporary declines in the fair value of invested assets are included in realized capital gains and losses on investments in the Summary of Operations (Page 4, Line 34).

Insurance Revenue and Expense Recognition

Life premiums are recognized as income over the premium paying period of the related policies. Premium income includes deposits made for universal life investment contracts. Annuity considerations are recognized as revenue when received. Accident & health and disability income premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, principally commission expenses and certain policy issue expenses (such as medical examination and inspection report fees), are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost, which approximates fair value.
2. Bonds are stated at amortized cost unless rated at a "6" by the NAIC, in which case bonds are stated at the lower of amortized cost or fair value. Amortization of bond premium or discount is calculated using the scientific interest method, taking into consideration interest and principal provisions over the remaining life of the bond.
3. Common stocks are stated at fair value.
4. The Company has no preferred stocks.
5. The Company has no mortgage loans.
6. Single class and multi-class mortgage-backed/asset-backed securities are stated at amortized cost using the scientific interest method, including anticipated prepayments. The retrospective adjustment method is used to value these securities.
7. The Company carries its wholly owned subsidiaries, Grange Life Reinsurance Company (Grange Life Re) and Northview Insurance Agency, Inc., at the value of its underlying equity.
8. The Company has no ownership interests in joint ventures, partnerships or limited liability companies.
9. The Company has no derivative instruments.
10. The Company does not consider investment income as a factor in the deficiency reserve calculation, in accordance with Statement of Statutory Accounting Principles No. 54, *Individual and Group Accident and Health Contracts*.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE GRANGE LIFE INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

11. The Company's accident & health liabilities include amounts for long-term disability (LTD). For accident only liabilities, an active life reserve is established for individual policies using an established valuation table and interest rates. For LTD liabilities, a seriatim reserve is established for individual claimants using an established valuation table and interest rates.

The liability recorded for life insurance and accident & health claims includes an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes that the recorded amounts are adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed; any adjustments are reflected in the current period.

12. The Company has not modified its capitalization policy from the prior period.
13. The Company has no pharmaceutical rebate receivables.

2) Accounting Changes and Correction of Errors

- A. Material Changes in Accounting Principles

NONE

- B. Correction of Errors

1. In 2015, as the Company was in the process of working with the reinsurance companies to collect on the reinsurance recoverable amounts identified in 2014 (see 2014 correction of error footnote), further consideration as to the legal rights to collect such amounts arose. As a result, the Company identified adjustments in net admitted reinsurance recoverable assets and contingent fees accrued of \$1,024,757 as of December 31, 2015. The primary reasons for the inability to collect the reinsurance recoverable amounts were the discovery of an errors and omissions amendment with one reinsurer, and the misinterpretation of contractual language with another reinsurer. This resulted in the Company being unable to collect reinsurance recoverable amounts from these reinsurers and also alleviating the Company of the related contingent fees accrued and initially deemed owed to the consultant. The net result of these errors was that net income in prior periods (and, as a result, unassigned surplus) had been understated by \$110,277, while total capital and surplus was overstated by \$725,923. Details of the errors and the financial impact on prior periods is as follows:

- a. During the collection activities, the Company identified the contractual issues resulting in the inability to collect the reinsurance recoverable amounts. As such, the net admitted reinsurance recoverable amounts related to the reinsurers associated with these contracts were overstated and the accrued contingent fees initially deemed owed to the consultant were overstated. The net impact of the Company's previously issued financial statements is the net admitted reinsurance recoverable (Assets, line 25) was overstated by \$1,024,757 and the contingent fees accrued (Liabilities, Surplus, and Other Funds, line 12) was overstated by \$298,834 as of December 31, 2014. Additionally, premiums and annuity considerations for life and accident and health contracts (Summary of Operations, line 1) was overstated and general insurance expenses (Summary of Operations, line 23) was overstated during the period by \$188,557 and \$298,834, respectively. The following adjustments were recorded in the December 31, 2015 financial results to reflect this error: a) on line 25.03 of Assets, a decrease in net admitted assets of \$1,024,757 was recorded to account for the amounts of reinsurance uncollectible (including the impact of the reversal of the \$340,122 amount non admitted attributable to an estimated allowance for uncollectible amounts); b) on line 12 of the Liabilities, Surplus, and Other Funds page, a decrease in contingent fees accrued of \$298,834 was recorded to reflect the amounts no longer owed to the consultant; c) on line 35 of the Liabilities, Surplus and Other Funds Page, (\$725,923) was recorded to decrease unassigned funds (surplus).

10) Information Concerning Parent, Subsidiaries, Affiliates, and Other Related Parties

A, B, & C. All employees of the parent company, Grange Mutual Casualty Company (Grange Mutual), are covered by a participating group life insurance policy issued by the Company. Premiums received from Grange Mutual amounted to \$2,097,343 and \$2,092,333 in 2016 and 2015, respectively. Dividends of \$273,960 and \$294,720 were paid to Grange Mutual in 2016 and 2015, respectively.

In December 2012, the Company formed Grange Life Reinsurance Company (Grange Life Re) as a Vermont special purpose financial captive insurance company. Grange Life Re issued 250,000 common shares of its capital stock, each with a par value of \$1.00, to the Company in exchange for paid-in capital of \$250,000. In 2012, the Company contributed an additional \$3,000,000 in surplus, designated as unassigned surplus. In August and December 2015, \$5,000,000 and \$10,000,000, respectively, of additional paid in capital were contributed by the Company and designated as unassigned surplus.

The Company entered into a coinsurance agreement on a funds withheld basis with Grange Life Re, whereby the captive will assume 100% of the risks and rewards of the universal and term life insurance policies effective January 1, 2012.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE GRANGE LIFE INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

On November 1, 2016, the Company recaptured its universal life with secondary guarantees and term life business from its wholly-owned captive insurance company, GLRE, under the provisions of the coinsurance reinsurance agreement. The Company recognized a one-time loss of \$(18.3) million, after tax, related to this recapture, with the loss driven primarily by the net increase in reserves of \$22.7 million. Following the recapture, GLRE will be dissolved in early 2017 subject to the approval of the Vermont Department of Financial Regulation. The recapture transaction and the subsequent dissolution will be treated as an integrated transaction and taxable as a tax free liquidation under section 333 of the IRS tax code. In addition, the Company and the GLIC have elected to transfer the tax attributes of Company as of the date of the recapture transaction under Treasury Regulation 1.381-1 (b)-1.

On November 1, 2016, contemporaneous with the recapture of GLRE business, GLIC entered into a coinsurance agreement with Reinsurance Group of America (RGA). GLIC ceded 100% of the term business recaptured from GLRE to RGA for an initial premium of \$51.4 million and initial ceding allowance of \$28.9 million. GLIC also initially transferred cash of \$22.5 million to RGA. Trailing ceding commission allowances of 2.5% based on annual premiums will be paid by RGA to GLIC. Policy fees of \$75 per policy on the term series J-L and \$60 per policy on the term series E-I, will be charged by GLIC, of which \$34 will be retained and the remaining will be RGA's share of the policy fee. These allowances and fees are required to cover GLIC's maintenance expenses.

RGA will pay GLIC YRT premiums equal to the reinsurance premiums in each of GLIC's reinsurance agreements with Canada Life, Gen Re, and Hannover Re that are in effect on the date of this agreement. The YRT premium rates between RGA and GLIC will not change for the duration of this reinsurance agreement, and RGA will not participate in any changes to the YRT rates between GLIC and the other reinsurers. GLIC will pay RGA, the proportionate amount of each death claim that is reinsured by Canada Life, Gen Re, and Hannover. GLIC is responsible to pay the claim to RGA irrespective of whether the other reinsurers pay GLIC. GLIC will not recapture any of the third-party YRT reinsurance, nor change the terms or amounts reinsured without mutual agreement with RGA.

The Company recorded the following transactions with Grange Life Re as of December 31, related to the reinsurance agreement:

Transactions	2016	2015
Ceded Premiums	(46,732,094)	19,576,704
Ceded Losses	1,429,508	4,109,046
Ceded Reserves	(60,518,824)	20,655,124
Ceding Allowances	30,137,824	10,554,631

The Company identified Grange Life Re as an unauthorized affiliate U.S. Captive reinsurer on Schedule S, collateralized with a syndicated letter of credit and funds-withheld. As of December 31, 2016 and 2015, the letter of credit totaled \$0 and \$44,131,976, respectively and funds withheld amounts of \$0 and \$17,743,371 respectively. The letter of credit was terminated as of December 16, 2016.

In 2012, the Company recorded aggregate write-ins for deductions and gains in surplus related to the deferred gain of \$3,247,415 (net of tax of \$1,418,411) on in-force business ceded to Grange Life Re. The Company recognized \$2,633,208 (net of tax of \$800,495) of the deferred income and \$156,635 (net of tax of \$47,617) in 2016 and 2015, respectively, through Expense Allowances on Ceded Commission with \$0.00 remaining deferred in surplus to be recognized in future periods.

D. The Company reported amounts due to the parent company, Grange Mutual, of \$10,372,674 and \$10,672,752 at December 31, 2016 and 2015, respectively. All amounts due to the parent company were settled within 30 days.

As of December 31, 2016 the Company incurred amounts due to Grange Life Re of \$3,900,648 in accordance with tax sharing obligations that will be paid within 30 days of the consolidated federal income tax filing with the Internal Revenue Service. Additionally, \$178,018 is due from Grange Life Re for the settlement of intercompany general expenses, which was settled within 60 days. As of December 31, 2015 the Company reported amounts due to Grange Life Re of \$125,547 for tax sharing obligations that were paid upon receipt of funds from the Internal Revenue Service, and \$146,305 due to Grange Life Re for the settlement of Funds withheld. Additionally, \$244,416 was due from Grange Life Re for the settlement of intercompany general expenses and reinsurance related to funds withheld, which was settled within 30 days.

The Company received proceeds from Grange Life Re of \$0 and \$0 in 2016 and 2015, respectively.

E. The Company does not have any guarantees or undertakings.

F. The parent company, Grange Mutual, has a formal cost-sharing agreement with its property-casualty affiliate and certain of its subsidiaries, including the Company, whereby the parent company provides certain operational and administrative services – such as sales support, advertising, information technology support, investment management services, employee benefits and personnel management services, and other general management services – to these companies. Expenses covered by this agreement are subject to allocation among the parent company, its affiliate and its subsidiaries. The allocations are based on techniques and procedures in accordance with SAP and insurance regulatory guidelines. Measures used to allocate expenses among the companies include individual employee estimates of time spent, specific cost studies, salary expenses, and other methods agreed to by the participating companies that are within industry guidelines and practices. The Company does not believe that expenses recognized under this agreement are materially different than expenses that would have been recognized had the Company operated on a stand-alone basis.

In addition, a management fee is assessed by and paid to Grange Mutual as a reimbursement for certain expenses – such as salaries, pension and post-retirement benefits – that are incurred on behalf of the Company.

The Company is also a party to a service agreement with Grange Life Re whereby they provide services and make available services necessary to support their business operations. These services include all necessary financial, actuarial, audit, accounting, tax, information technology, records management and legal and compliance services, other than those provided by third-party service providers. The Company is reimbursed for all direct costs incurred by their subsidiary.

G. The Company is controlled by Grange Mutual, an Ohio domiciled property-casualty insurance company, which owns approximately 100.00% of the outstanding capital stock of the Company.

H. The Company did not deduct from the value of an upstream intermediate entity or ultimate parent owned, either directly or indirectly, via a downstream subsidiary, controlled, or affiliated entity.

I. The Company's investment in Grange Life Re is less than 10% of admitted assets. The Company carries its investment in Grange Life Re at statutory basis equity. Grange Life Re, with the explicit permission of the Commissioner of Insurance of the State of Vermont, records the value of its Letters of Credit (LOC) as part of surplus instead of being excluded from surplus as required by the Manual of the NAIC. The LOC was drawn down and closed (as of December 31, 2016) as a result of the Grange Life Insurance Company recapture of ceded reinsurance on 11/01/2016. As a result the LOC was valued at \$0.00, and the statutory surplus of Grange Life Re was \$12,087,891.

J. The Company did not recognize any impairment write downs of their subsidiaries.

4. As of December 31, 2016, the reported fair value of the entity's investments categorized within Level 2 and Level 3 of the fair value hierarchy are as follows:

Bonds - According to statutory accounting rules, fixed income securities with a rating of NAIC 1 thru 5 are reported at amortized cost. Securities with a rating of NAIC of 6 are measured and reported at the lower of amortized cost or fair value on the statement of financial position. As of December 31, 2016, the Company did not have any bonds rated NAIC-6 and therefore did not report any securities at fair value.

Parents, Subsidiaries, and Affiliates - The Company's investment in one subsidiary is measured and reported at fair value at December 31, 2016 totaling \$12,087,891. Fair value measurement is determined by the individual entity's surplus at the end of a period, or the amount by which assets exceed liabilities. The subsidiary is in the insurance industry, whereby its assets are largely comprised of fixed income securities carried at amortized cost and its liabilities represent reserves for underwriting losses. Some inputs to the valuation methodology are unobservable and significant to the fair value measurement, and result in disclosure at Level 3.

5. The Company does not have derivative assets or liabilities.

B. The Company is not required to combine the fair value information disclosed under SSAP No. 100, since it is not practicable.

F. Subprime Mortgage Related Risk Exposure

1. Management Definition of Exposure to Subprime Mortgage Related Risk:

Management defines "subprime" mortgage loans as mortgage loans that are originated with an inherently higher risk profile or have a loan structure that is distinctly different from that of traditional mortgage loans. Management considers the following factors in determining whether or not a mortgage represents a subprime risk: borrowers with low credit ratings (FICO score); unconventionally high initial loan-to-value ratios (LTVs); unconventionally structured loans (option pay adjustable rate mortgages or negative amortizing loans); unconventionally high interest rates; and less than conventional documentation of the borrower's income and/or assets.

The Company does not invest in mortgage loans on a direct basis, nor is it in the practice of originating mortgage loans.

ANNUAL STATEMENT FOR THE YEAR 2016 OF THE GRANGE LIFE INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

2. The Company has no direct exposure through investments in subprime mortgage loans.

3. Estimated Direct Exposure to Subprime Mortgage Risk Through Other Investments:

Management considers the Company's holdings in securities with underlying subprime exposure to be minimal. The majority of residential mortgage backed securities (RMBS) in the portfolio are issued by government-sponsored enterprises (GSEs). Securities with collateral that contain subprime characteristics based on low credit (FICO scores less than 620) and/or high LTVs represent less than 1% of the Company's invested assets. In addition, these securities were issued prior to 2003. The Company's bond portfolio does not include any positions in collateralized debt obligations (CDOs) on a direct basis. On a quarterly basis, management reviews all loan-backed and structured securities with an unrealized loss position according to SSAP 43-R. The best estimate of future cash flows using the appropriate discount rate is calculated for each affected security. To assist in this effort, a brokerage firm provides forward-looking assumptions for default rates, voluntary prepayment speeds, and loss severities on a majority of the securities governed by SSAP 43R. The outcomes of this process assure that anticipated cash flows will not be less than the carrying value subsequent to other-than-temporary impairments. As of December 31, 2016, management estimates there were no unrealized losses present due to subprime mortgage exposure.

For the year ending December 31, 2016 and 2015, premiums under individual and group participating policies were \$2,293,424 and \$2,360,080, respectively or 17.18% of total individual and group premiums in both years. The method of accounting for policyholder dividends for participating individual life insurance policies is based upon the accounting regulations in Statement of Statutory Accounting Principles No. 51, *Life Contracts*. The method of accounting for policyholder dividends on the participating group life insurance policy is based on premium and claim experience from the prior year. During 2016 and 2015, the Company paid dividends in the amount of \$59,401 and \$57,446, respectively, to policyholders and did not allocate any additional income to such policyholders.

30) Premium Deficiency Reserves

NONE

31) Reserves for Life Contracts and Annuity Contracts

1. The Company waives deduction of deferred fractional premiums upon the death of the insured. The Company returns any portion of the final premium paid beyond the date of death for all policies. Surrender values are not promised in excess of the legally computed reserves.
2. Extra premiums are charged for substandard lives, plus the gross premium for a rated age. Mean reserves for substandard lives are determined by computing the regular mean reserve for the plan at the rated age and holding an additional reserve of one-half (1/2) of the extra premium charge for the year.
3. As of December 31, 2016, the Company had \$3,917,872,773 of insurance in force for which the gross premiums are less than the net premiums according to the standard valuation set by the State of Ohio. Reserves to cover the above insurance totaled the gross amount of \$20,570,643 at year-end and are reported in Exhibit 5, Miscellaneous Reserves, Line 0700001.
4. The tabular interest (Page 7, Line 4), the tabular less actual reserve released (Page 7, Line 5), and the tabular cost (Page 7, Line 9) have been determined by formulas as described in the instructions for Page 7.
5. For the determination of tabular interest on funds not involving life contingencies for each valuation rate of interest, the tabular interest is calculated as the product of such valuation rate of interest multiplied by the mean of the amount of funds subject to such valuation rate of interest held at the beginning and end of the year of valuation.
6. There were no other material reserve changes.
