Therefore, these financial statements should be read in conjunction with the footnote disclosures contained in the 2016 annual statement.

A. Accounting Practices

The financial statements of UDC Ohio, Inc. (the "Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of Ohio. The state has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums billed to individual and group subscribers are recognized as revenue in the month in which subscribers are entitled to receive dental care. Uncollected premiums over 90 days past due are nonadmitted and excluded from surplus. The Company contracts with dentists (providers) for dental services to be provided to its subscribers. Provider capitation consists of monthly fees paid to providers and is expensed in the month in which the provider is obligated to render dental services. Emergency services to members while temporarily out of their provider's area, as well as specialty services not covered by capitation fees, are recorded as incurred.

9. Income Taxes

A. The application of SSAP No. 101 requires a company to evaluate the recoverability of deferred tax assets and to establish a valuation allowance, if necessary, to reduce the deferred tax asset to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. As a result of management's evaluation at March 31, 2017, management believes it is more likely than not that the deferred tax assets will not be realized. Therefore, the Company has recorded a valuation allowance against the gross deferred tax assets ("DTAs"), excluding the effects associated with its deferred tax liabilities ("DTLs"), as of March 31, 2017.

1. The components of deferred tax assets ("DTAs") and deferred tax liabilities ("DTLs") as of March 31, 2017, and December 31, 2016, are as follows:

20. Fair Value Measurements

A. Assets Measured at Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various methods including market, income and cost approaches. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

- (1) The Company transfers assets into or out of levels at the fair value as of the beginning of the reporting period. Transfers made are the result of changes in the level of observability of inputs used to price assets as well as changes in NAIC ratings. No transfers between levels 1 and 2 have occurred for the reporting period.

The Company did not hold assets measured at fair value as of statement date.

- (2) There were no assets measured at fair value which are categorized as level 3 for the reporting period. See Note 20(A)(1) for a description of the Company's policy related to transfers between levels.

- (3) The Company has not changed its policy on when transfers between levels are recognized. See Note 20(A)(1) for a description of the Company's policy related to transfers between levels.

- (4) The Company has categorized the fair value of its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded at fair value in the Company's balance sheet are categorized as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market. The types of assets and liabilities utilizing Level 1 valuations include U.S. Treasury and agency securities and investments in publicly-traded mutual funds with quoted market prices.

Level 2 - Quoted prices in markets that are not active or significant inputs that are observable either directly or indirectly. Level 2 inputs include the following:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in non-active markets,
- Inputs other than quoted market prices that are observable, and
- Inputs that are derived principally from or corroborated by observable market data through correlation or other means.

The types of assets and liabilities utilizing Level 2 valuations generally include U.S. Government securities not backed by the full faith and credit of the U.S. Government, municipal bonds, structured notes and certain asset-backed securities ("ABS") including collateralized debt obligations, residential mortgage-backed securities

NOTES TO FINANCIAL STATEMENTS

("RMBS"), commercial mortgage-backed securities ("CMBS"), certain corporate debt and certain private equity investments.

Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. They reflect management's opinions regarding the assumptions a market participant would use in pricing the asset or liability. Generally, the types of assets and liabilities utilizing Level 3 valuations are certain ABS, RMBS, and CMBS, certain corporate debt, certain private equity investments and certain mutual fund holdings and certain derivatives.

There have been no significant changes made in valuation techniques for the statement period.

(5) The Company does not hold derivative instruments.

B. Presentation of Fair Value Information

The Company has combined fair value disclosure requirements from other accounting pronouncements within Note 20.

C. Aggregate Fair Value of all Financial Instruments

The following table summarizes the aggregate fair value of financial instruments and the level within the fair value hierarchy as of statement date:

Type of financial instrument	Aggregate Fair Value	Carrying Value	Level 1
Financial assets:			
Debt securities	\$ 289,570	\$ 289,617	\$ 289,570
Equity securities	-	-	-
Cash, cash equivalents and short-term investments	578,323	578,323	578,323
Total financial assets	<u>\$ 867,893</u>	<u>\$ 867,940</u>	<u>\$ 867,893</u>

The Company did not have any Level 2 or Level 3 financial instruments.

The methods and assumptions that the Company uses in determining the estimated fair value of its financial instruments are summarized below:

Debt securities: The Company determines the fair value of its publicly-traded fixed maturity securities using three primary pricing methods: third-party pricing services, non-binding broker quotes and pricing models. Prices are first sought from third-party pricing services with the remaining unpriced securities priced using one of the other two methods. Third-party pricing services derive the security prices through recently reported trades for identical or similar securities with adjustments for trading volumes and market observable information through the reporting date. In the event that there are no recent market trades, pricing services and brokers may use pricing models to develop a security price based on future expected cash flows discounted at an estimated market rate using collateral performance and vintages. The Company generally does not adjust quotes or prices obtained from brokers or pricing services.

Equity securities: The fair value of the Company's equity securities is first based on quoted market prices. Similar to fixed maturity securities, the Company uses pricing services and broker quotes to price the equity securities for which the quoted market price is not available.

Cash, cash equivalents and short-term investments: The carrying value for cash, cash equivalents and short-term investments approximates fair value due to the short-term nature and liquidity of the balances.

D. Not Practicable to Estimate Fair Value

The Company held no financial instruments where it was not practicable to estimate fair value.

22. Events Subsequent

In 2018, the Company will be subject to an annual fee under Section 9010 of the Federal Affordable Care Act (ACA), as the moratorium placed on ACA fees for the 2017 calendar year by the United States Congress has been lifted. As of March 31, 2017, the Company has written health insurance subject to the ACA Assessment and estimates their portion of the annual health insurance industry fee to be payable on September 30, 2018 to be \$1,689. This amount is reflected in special surplus.

Subsequent events were evaluated through May 11, 2017. No additional subsequent events were noted.

25. Change in Incurred Claims and Claims Adjustment Expenses

Reserves as of December 31, 2016 were \$11,972. As of March 31, 2017, \$718 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$366 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on the dental care line of insurance. Therefore, there has been a \$10,888 favorable prior-year development since December 31, 2016 to March 31, 2017. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. The Company did not experience any prior year loss development on retrospectively rated policies.
