B. Use of Estimates in Preparation of Financial Statements - The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy - Premiums are earned over the terms of the related insurance policies. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business.

Expenses incurred in the connection with acquiring new insurance business, such as marketing, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Short-term investments are securities with an original maturity greater than 3 months, but less than 1 year, are stated at cost.

Bonds not backed by loans are stated at amortized cost. Premiums and discounts on bonds are amortized or accreted, respectively, over the life of the related debt security as an adjustment to the yield, using the scientific method. Interest income is recognized when it is earned.

No common stocks are held by the Company.

No preferred stocks are held by the Company.

No mortgage loans are held by the Company

Loan-backed securities are stated at amortized cost provided the SVO designation is 1 or 2. If the SVO designation is 3 or greater, the Company states the securities at the lower of amortized cost or fair market value. The Company uses the retrospective method to make valuation adjustments when necessary.

The Company does not have subsidiary controlled or affiliated investments or investments in joint ventures, partnerships or limited liability companies.

The Company does not have derivative financial instruments.

The Company anticipates investment income as a factor in premium deficiency calculations.

Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amounts is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.

D. Going Concern - There are no going concern issues.
