On January 1 , 2013 , Ohio Farmers Insurance Company adopted SSAP No . 92 , *Accounting for Postretirement Benefits Other Than Pensions* and SSAP No . 102 , *Accounting for Pensions* . The standards require insurers to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability and include non-vested employees in determining the plan obligations . In addition , a sponsor's fiscal year end will be used as the measurement date for estimating the fair value of postretirement benefit assets and liabilities . The guidance contains a transition provision that gives insurers the option to recognize the initial impact to surplus over a period not to exceed 10 years . Ohio Farmers Insurance Company elected the transition option . Ohio Farmers Insurance Company recognized the remaining transition liability of \$0.7 million in 2016 .

Ohio Farmers Insurance Company contributed \$16.7 million to its pension plan in March 2017 . Ohio Farmers Insurance Company does not expect to make any additional contributions during the remainder of fiscal year 2017 .

The Other Postretirement Benefits expense reflects the receipt of the government subsidy during the period that Ohio Farmers Insurance Company's plan benefits are expected to be considered actuarially equivalent to those provided by Medicare Part D .

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date .

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets , quoted prices from those willing to trade in markets that are not active , or other inputs that are observable or can be corroborated by market data for the term of the instrument . Such inputs include market interest rates and volatilities , spreads and yield curves .

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement . If an input changes , the Company evaluates the new input (s) and makes the determination whether or not a transfer between levels is appropriate . If an asset or liability is transferred between levels , it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs . For bonds that are not actively traded , estimated fair values are based on values of bonds of comparable yield and credit quality . The fair values for common stocks are based on quoted market prices , where available , which are provided to the Company by an independent pricing service .

Short-term investments , Receivables for securities , Uncollected premiums and agents' balances in the course of collection , and Deferred premiums , agents' balances and installments booked but deferred and not yet due - The carrying amounts reported as admitted assets or liabilities for these financial instruments approximate their fair values due to the short-term nature of these financial instruments .

Other Invested Assets - The estimated fair value of publicly traded limited partnerships is based on the values prescribed by an independent pricing service .
