(2) Fair Value Measurements in (Level 3) of the Fair Value

- (3) The reporting entity's policy is to recognize transfers in and out as of the end of the reporting period.

- (4) As of June 30, 2017, the reported fair value of the entity's investments categorized within Level 2 and Level 3 of the fair value hierarchy are as follows:

Bonds—According to statutory accounting rules, fixed income securities with a rating of NAIC 1 thru 5 are reported at amortized cost. Securities with a rating of NAIC 6 are measured and reported at the lower of amortized cost or fair value on the statement of financial position. As of June 30, 2017, the Company did not have any bonds rated NAIC 6 and therefore did not report any securities at fair value.

Parent, Subsidiaries, and Affiliates—The Company's investment in one subsidiary is measured and reported at fair value as of June 30, 2017 totaling \$0. Fair value measurement is determined by the individual entity's surplus at the end of a period, or the amount by which assets exceed liabilities. Each subsidiary is in the insurance industry, whereby its assets are largely comprised of fixed income securities carried at amortized cost and its liabilities represent reserves for policyholder claims and benefits. Some inputs to the valuation methodology are unobservable and significant to the fair value measurement, and result in disclosure at Level 3.

- (5) The Company does not have derivative assets or liabilities.

- B. The Company is not required to combine the fair value information disclosed under SSAP No. 100, since it is not practicable.

- C. Fair values for these types of financial instruments:
