B. Other Fair Value Disclosures – Not applicable.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The Company has categorized its assets and liabilities into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity in the valuation method by which fair value was determined. The three levels are defined as follows:

Level 1 - Fair value measurements are based on quoted prices in active markets for identical assets. This category includes U.S. Treasury securities.

Level 2 - Fair value measurements are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations in which all significant techniques are observable in active markets. This category includes municipal bonds.

Level 3 - Fair value measurements are based on valuations derived from valuation techniques in which one or more significant inputs are unobservable in the marketplace. This category includes bonds for which there is no active or inactive market for similar instruments, bonds whose fair value is determined based on unobservable inputs and bonds, other than those backed by the U.S. Government, that are not rated by a nationally recognized statistical rating organization.

NOTES TO FINANCIAL STATEMENTS
