NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements of Progressive Commercial Casualty Company (the “Company”), were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (“DOI”).

The Ohio DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Ohio DOI. No deviations from NAIC statutory accounting practices (“NAIC SAP”) were used in preparing these statutory-basis financial statements as illustrated in the table below:

	SSAP #	F/S Page	F/S Line #	2017	2016
NET INCOME					
(1) PROGRESSIVE COMMERCIAL CASUALTY COMPANY state basis (Page 4, Line 20, Columns 1 & 2)	XXX	XXX	XXX	\$ 59,798	\$ 124,517

(8) NAIC SAP (5 – 6 – 7 = 8)	XXX	XXX	XXX	\$ 8,288,728	\$ 8,231,977

B. Use of Estimates in the Preparation of the Financial Statement

The Company is required to make estimates and assumptions when preparing its financial statements and accompanying notes in conformity with NAIC SAP. Actual results may differ from those estimates.

C. Accounting Policy

Insurance premiums, once written, will be earned into income on a pro-rata basis over the period of risk based on a daily earnings convention. Unearned premiums will be established to cover the unexpired portion of premiums written. The Company will offer a variety of payment plans to meet individual customer needs. Generally, insurance premiums are collected in advance of providing risk coverage, minimizing the Company’s exposure to credit risk.

Acquisition costs, such as agents’ commissions, premium taxes, and other policy initiation costs, will be charged to operations as incurred. Advertising costs will be expensed as incurred.

Certain assets designated as “nonadmitted assets”, in accordance with Statement of Statutory Accounting Principles (“SSAP”) No. 4, Assets and Nonadmitted Assets, are reported on page 13, Exhibit of Nonadmitted Assets. The change in nonadmitted assets is charged directly against surplus as regards policyholders on page 4, Statement of Income, capital and surplus section.

In addition, the Company uses the following accounting policies:

Investments

- Cash and cash equivalents include bank accounts and certificates of deposit as well as short-term investments with original maturities of three months or less that are reported at amortized cost which approximates market value.
- Short-term investments include securities acquired within one year of maturity except for those with original maturities of three months or less (see cash and cash equivalents above) and are reported at amortized cost which approximates market value.
- Investment grade bond valuations are based on NAIC designations or NAIC Credit Rating Provider (“CRP”) designations from the Acceptable Rating Organization (“ARO”) list and are reported at amortized cost using the scientific method which closely approximates the effective interest method. Non-investment grade bond valuations are also based on NAIC designations or NAIC CRP-ARO designations and are reported at the lower of amortized cost or fair market value. Loan-backed and structured securities follow the guidance prescribed by SSAP No. 43R, Loan-backed and Structured Securities (“SSAP No. 43R”), for the determination of the bond valuation and reporting designation. The difference between the original cost and redemption value of these securities is recognized over the lives of the respective issues and included in net investment gain.
- Common stocks, other than investments in stocks of subsidiaries and affiliates, are reported at fair market values based on active market closing quotations from a regulated exchange. Changes in the fair market values of these securities are reflected directly as unrealized gains or losses in statutory surplus, net of deferred income taxes.
- Non-redeemable preferred stocks are reported at fair market values. Changes in the fair market values of these securities are reflected directly as unrealized gains or losses in statutory surplus, net of deferred income taxes. Investment grade redeemable preferred stocks are reported at amortized cost, while non-investment grade redeemable preferred stocks are reported at the lower of amortized cost or fair market value. The difference between the original cost and redemption value of the redeemable preferred securities is recognized using the scientific method, which closely approximates the effective interest method, over the lives of the respective issues and included in net investment gain.
- The fair market values reported are derived from independent and observable market input evaluations provided by reputable pricing services, independent broker/dealer bid lists, independent broker/dealer quotations, independent broker/dealer pricing services, or active market closing quotations from a regulated exchange. In very rare cases, if none of the aforementioned primary sources are available, matrix pricing using the reporting entity’s own market based assumptions may be utilized. The approved methods for computation of fair market value are prescribed in Part Five of the Securities Valuation Office *Purposes and Procedures Manual*.
- The Company has no investments in mortgage loans.
- Loan-backed and structured securities are accounted for as prescribed by SSAP No. 43R. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends.
- The Company has no investments in joint ventures, partnerships, or limited liability companies.
- The Company has no investments in derivatives.

NOTES TO FINANCIAL STATEMENTS

- The Company may enter into repurchase agreements in which it borrows cash by providing certain underlying securities as collateral for the arrangement. The cash borrowed is invested in cash equivalents and an offsetting liability is established. The cash equivalent investment maturities and the term of the borrowing arrangement on the collateralized securities match, eliminating duration risk exposure to the Company. The Company did not have any open repurchase agreements at December 31, 2017 and December 31, 2016.
- Realized gains and losses on sales of securities are computed based on the first-in, first-out method.
- The Company’s management routinely monitors individual securities in its investment portfolio for pricing changes that might indicate potential impairments and performs detailed reviews of securities with unrealized losses based on predetermined guidelines to determine whether a decline in the value of a security is other-than-temporary. A review for other-than-temporary impairment (“OTTI”) requires making certain judgments regarding the materiality of the decline, its effect on the financial statements, the probability, extent, and timing of a valuation recovery, and the Company’s ability and intent to hold the security. The scope of this review is broad and requires a forward-looking assessment of the fundamental characteristics of a security, as well as the market-related prospects of the issuer and its industry.

Management assesses valuation declines to determine the extent to which such changes are attributable to (i) fundamental factors specific to the issuer, such as financial conditions, business prospects or other factors, or (ii) market-related factors such as interest rates or equity market declines (i.e., negative returns at either a sector index level or the broader market level), or (iii) credit-related losses where the present value of cash flows expected to be collected are lower than the amortized cost basis of the security (includes only those securities covered under SSAP No. 43R). This evaluation reflects management’s assessment of current conditions, as well as predictions of uncertain future events that may have a material effect on the financial statements related to security valuation.

When persuasive evidence exists that causes management to conclude that a decline in fair value is other-than-temporary, the book value of such security is written down and recognized as a realized loss. All other unrealized gains or losses are reflected in statutory surplus.

Capitalization of Assets

- Prepaid assets above a \$100,000 threshold are capitalized. Under certain circumstances, the Company may decide to establish a prepaid expense for amounts less than the threshold. Prepaid assets are nonadmitted. There have been no changes to the written policy or predefined capitalization threshold from the prior year.

Pharmaceutical Rebate Receivables

- The Company does not write medical insurance or prescription drug coverage.

D. Going Concern

Management continuously monitors the Company’s financial results and compliance with regulatory requirements and found no reason to expect the Company to not continue as a going concern.

Total deferred tax assets	\$ 9,828	\$ 13,522	\$ (3,694)
Total deferred tax liabilities	751	351	400
Net deferred tax asset (liability)	\$ 9,077	\$ 13,171	\$ (4,094)
Tax effect of unrealized gains (losses)			--
Change in net deferred income tax			\$ (4,094)

On December 22, 2017, legislation commonly known as the Tax Cuts and Jobs Act of 2017 (the "Tax Act"), was signed into law and is generally effective beginning January 1, 2018. The Tax Act reduces the corporate federal income tax rate from 35% to 21%. As of December 31, 2017, we were required to revalue all our deferred tax assets and liabilities using the new rate. The effects of this change are reflected in the change in deferred income taxes, except for the portion related to deferred taxes on unrealized gains and losses, which is reflected in the change in unrealized gains and losses. The total decrease in the deferred tax asset as a result of the tax rate change was \$6,051.

The Tax Act makes several changes to the loss discounting rules that insurance companies must apply to their loss and loss adjustment expense reserves for tax purposes. Under pre-Tax Act law, the discounting is based on an interest rate determined by the Internal Revenue Service (IRS) and by loss payment patterns either published by the IRS or based on the company's own loss payment experience. In general, the Tax Act increases the interest rates, extends the loss payment patterns, and no longer allows companies to use their own loss payment experience. These new rules must be applied to the year-end 2017 loss reserves and the resulting increase in the discount must be brought into taxable income ratably over the next eight years beginning in 2018. The IRS has not yet published the interest rate or the loss payment pattern that must be applied to make this determination. Based on the uncertainty surrounding the payment patterns and the interest rates, we were not able to estimate the magnitude that this change would have our year-end reserves and, therefore, have not reflected any adjustments to deferred taxes for 2017. However, we believe that if we could calculate the adjustment, there would be no net impact to deferred taxes since the adjustment would result in an increase to the gross deferred tax asset associated with loss reserves that would be fully offset by a gross deferred tax liability for the tax to be paid over the eight-year transition period.

D. Reconciliation of Federal Income Tax Rate to Actual Effective Rate Among the more significant book to tax adjustments were the following:

Description	Tax Effect Amount	Effective Tax Rate
Provision computed at statutory rate	\$ 31,690	35%
Impact of tax rate change	6,052	7%
Exempt interest income	(3,409)	-4%
Impact of nonadmitted assets	343	0%
Other	164	0%
Total	\$ 34,840	38%
Federal and foreign income taxes incurred	\$ 30,746	
Change in net deferred income tax	4,094	
Total statutory income taxes	\$ 34,840	

E. Operating Loss Carryforwards and Income Taxes Available for Recoupment

1. During the reporting period, the Company did not have any unused operating loss carryforwards available to offset against future taxable income.

NOTES TO FINANCIAL STATEMENTS

2. The following is income tax expense for current year and proceeding years that is available for recoupment in the event of future net losses:

Period	Amount
Current tax year:	\$ 30,658
First preceding tax year:	\$ 66,522

The amounts that can be recouped may be subject to the alternative minimum tax rules, and therefore may be limited.

The Company did not have any protective tax deposits under Section 6603 of the Internal Revenue Code.

F. Consolidated Federal Income Tax Return

1. The Company's Federal income tax return is consolidated with The Progressive Corporation ("TPC"), a publicly traded holding company incorporated in Ohio, and all of its wholly-owned United States subsidiaries (the "Group") as detailed in Schedule Y, Part 1.
2. The method of allocation between the companies is subject to written agreement and is jointly approved by an officer of TPC and the Company. The allocation is based upon separate tax return calculations with current credit for net losses or other items utilized in the consolidated tax return. Intercompany tax balances are settled quarterly.

G. Federal or Foreign Federal Income Tax Loss Contingencies:

The Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

Note 10 – Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of Relationships

The Company is wholly owned by Drive Insurance Holdings, Inc. ("DIH"), a holding company incorporated in Delaware. The structure of the holding company organization is shown on Schedule Y, Part 1.

B. Detail of Transactions Greater than ½% of Admitted Assets

All significant transactions by the Company or any affiliated insurer with any affiliate are summarized in Schedule Y, Part 2.

C. Change in Terms of Intercompany Arrangements

Not applicable

D. Amounts Due to or from Related Parties

The Company reported a \$20,705 receivable from parent, subsidiaries, and affiliates at December 31, 2017 and a \$36,834 payable to parent, subsidiaries, and affiliates at December 31, 2016. These balances are due to cash collections and disbursements on behalf of the Company under the Group's centralized cash management system and the reinsurance and management agreements in which the Company participates. The Company also reported a \$5,294 and \$7,322 current Federal income tax payable at December 31, 2017 and 2016, respectively. These balances are due to TPC for the Company's Federal income tax liability. The intercompany balances are settled by the end of the following quarter depending on the timing of investment cash transactions. These transactions are dependent upon market timing, investment needs and overall portfolio strategy as to the timing of such settlement transactions.

E. Guarantees or Contingencies for Related Parties

Not applicable

F. Management, Service Contracts, Cost Sharing Arrangements

Management, operations and claims services are provided under a management agreement with Progressive Casualty Insurance Company ("Casualty"), an insurance affiliate domiciled in Ohio. Under the terms of the agreement, the Company is provided underwriting and loss adjustment services for business produced in exchange for a management fee based on the Company's use of services.

The Company participates in an investment services agreement with Progressive Capital Management Corp., a non-insurance affiliate. Under the terms of the agreement, the Company is provided investment and capital management services in exchange for an investment management fee based on its use of services.

All intercompany agreements are approved by the participating insurance companies' states of domicile when established.

G. Nature of Relationships that Could Affect Operations

All outstanding shares of the Company are owned by DIH.

Note 14 – Liabilities, Contingencies and Assessments

- A. Contingent Commitments

Not applicable
- B. Assessments

The Company is subject to state guaranty fund and other assessments by the states in which it writes business. State guaranty fund assessments are accrued at the time of any known insolvencies. Other assessments are accrued either at the time of assessment or at the time the premiums are written. These accruals are based on information received from the states in which the Company writes business and may change due to many factors including the Company's share of the ultimate cost of current insolvencies.

As of December 31, 2017 and 2016, the Company's estimated liability for state guaranty fund and other assessments was \$1,000 and \$1,000, respectively. The Company did not recognize any premium tax benefit associated with its various assessments

G. All Other Contingencies

The Company is named as defendant in various lawsuits arising out of its insurance operations. All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and LAE reserves. The Company has potential exposure relating to lawsuits due to its participation in a management agreement for which it is allocated litigation expenses (see Note 10.F).

The following is a discussion of a potentially significant pending case at the reporting date. The Company does not consider a loss from this case to be probable and is unable to estimate a range of loss, if any, at this time.

There was a putative lawsuit challenging the Company's wage statement compliance and California Fair Pay Act violations.

Note 20 – Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value in the Company's Financial Statements

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., active exchange-traded equity securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly. This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect the Company's subjective evaluation about the assumptions market participants would use in pricing the financial instrument.

See Note 1, Investment Policies section for further information regarding methods used to determine fair market value.

The Company's management evaluated whether the market was distressed or inactive in determining the fair value of the Company's securities and reviewed certain market level inputs to evaluate whether sufficient activity, volume, and new issuances existed to create an active market. Based on this evaluation, management concluded that there was sufficient activity in determining the fair market value of the Company's securities.

As of the reporting date, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.

2. Roll forward of Level 3 Items

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

F. Subprime Mortgage Related Risk Exposure

1. Exposure to Subprime Mortgage Related Risk

The following subprime disclosure and the review and procedures described within are completed at a consolidated level for all the Progressive companies. To the extent the Company had any direct subprime exposure, those securities would be listed in Note 21.F.3.

Management's review of the investment portfolio for securities with direct subprime exposure, such as Alt-A residential mortgage loan-backed bonds and home equity loan-backed bonds is performed in conjunction with the OTTI analysis and procedures (see Note 1.C). Additionally, securities that were determined to have an indirect subprime exposure were also reviewed as part of the OTTI process.

The Company's management continues to perform a detailed review of its investment portfolio, paying particular attention to the credit profile of the issuers to identify the extent to which any asset values may have been impacted by direct or indirect exposure to the subprime mortgage loan disruption, as well as broader credit and financial market events.

In the reporting period, the Company recorded no OTTI write-downs on any securities as a result of direct subprime exposure.
