**B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of financial statements in conformity with Statutory Accounting Principles as described in the *NAIC Annual Statement Instructions* and the *Accounting Practices and Procedures Manual* requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**C. Accounting Policy**

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of the premiums written. Such reserves are computed using the daily method for direct business and are based on reports received from ceding companies and/or pools for assumed business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- 1) Short-term investments are stated at amortized cost.
- 2) Bonds not backed by other loans are stated at amortized cost using the scientific amortization method.
- 3) Common stocks are valued at market. However, investments in stocks of uncombined subsidiaries and affiliates in which the company has an interest of 20% or more are valued using the equity basis.
- 4) Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32: Investments in Preferred Stock.
- 5) The company does not have any mortgage loans.
- 6) Loan-backed securities are stated in accordance with the guidance provided in SSAP No. 43R: Loan-backed and Structured Securities. The retrospective adjustment method is used to value these securities.
- 7) The company owns 30% of the common stock of Motorists Life Insurance Company, a life insurer, and 100% of the common stock of MCM Agency, Inc., an insurance broker. Motorists Life Insurance Company is valued on an equity basis as described in Part 5, Section 2ciB1 of the *Securities Valuation Handbook*. MCM Agency, Inc. is valued on an equity basis as described in Part 5, Section 2ciB2 of the *Securities Valuation Handbook*.
- 8) The company has investments in limited partnerships and limited liability companies. In accordance with SSAP No. 48: Joint Ventures, Partnerships and Limited Liability Companies, the investments are recorded using the equity method of accounting based on the underlying audited U.S. GAAP equity values of the holdings. The company also has partnership investments in low income housing tax credit properties. In accordance with SSAP No. 93: Accounting for Low Income Housing Tax Credit Property Investments, the investments are reported at amortized cost.
- 9) The company does not hold any derivative securities.
- 10) The company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53: Property/Casualty Contracts – Premiums.
- 11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount based on past experience for losses incurred but not reported (IBNR). Such liabilities are necessarily based on assumptions and estimates. While management believes the amounts are adequate, the ultimate liabilities may be in excess of or less than the amounts provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- 12) The Motorists Insurance Group standardized its thresholds for capitalization across all member companies. The Group also implemented updates for software licenses and maintenance agreements that allow amortization over service periods for material transactions.
- 13) The company does not have any pharmaceutical rebate receivables to report.

**D. Going Concern**

Management has concluded that there is no substantial doubt of the Company's ability to continue as a going concern.

**2. Accounting Changes and Corrections of Errors**

The Motorists Insurance Group elected to freeze its defined pension and other non-qualified benefit plans effective December 31, 2017. In conjunction with this election, the company voluntarily changed the accounting for its benefit plans to a mark-to-market (MTM) valuation approach. Under the MTM accounting method, actuarial and asset valuation gains and losses are recognized immediately as current year net benefit costs in the Statement of Operations, rather than by amortizing (smoothing) the gains and losses over future calendar years.

This change in accounting principle was applied retrospectively back to January 1, 2017 in accordance with SSAP #3, Accounting Changes and Correction of Errors, and SSAP #102, Pensions. The accounting for the cumulative unamortized plan costs as of January 1, 2017 of \$121.2 million and current year service costs and actuarial and asset valuation gains and losses totaling \$37.0 million had the following financial impact on the company and its property/casualty affiliates.

D. The company had exposure to environmental losses during the periods reported. Direct exposure arose from the sale of general liability, commercial auto liability, and commercial multiple peril business. The company also had exposure through its unaffiliated reinsurance assumed operations and an intercompany pooling arrangement (reference Note 26). The company estimates the impact of its direct exposure by establishing case reserves on all known losses and by computing IBNR losses based on previous experience. **GENERAL INTERROGATORIES**

**PART 2 - PROPERTY AND CASUALTY INTERROGATORIES**

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?  
The company is a member of the Minnesota Workers' Compensation Reinsurance Association. In addition, the company has excess of loss reinsurance to protect itself. ....

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.  
Profiling and probable maximum loss (PML) analysis on the exposures of The Motorists Insurance Group is performed by JLT Re using the Risk Management Solutions (RMS) RiskLink and AIR Touchstone catastrophe models. Analysis is performed for the perils of hurricane, severe convective storm, winterstorm, and earthquake. The PML driver on low return periods (~20 years) is severe convective storm. Starting around the 150 year return period, hurricane becomes the largest driver of the PML. The highest concentration of exposure (total insured value) is in Ohio. Ohio also has the highest gross average annual loss (Gross AAL). 8 of the top 10 counties for exposure are in Ohio. The other two counties are in Kentucky and Pennsylvania. 6 of the top 10 counties for Gross AAL are in Ohio. The other counties are in Nebraska, Kentucky, Minnesota, and Iowa. The Motorists Insurance Group utilizes JLT Re's CATography tool to analyze and manage catastrophe risk. Catastrophe excess of loss reinsurance is purchased to protect against excessive loss. ....

7.2 If yes, indicate the number of reinsurance contracts containing such provisions: ....

7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? ....

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? ....

8.2 If yes, give full information  
....

(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. ....

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.
