B. Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles (SSAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost, using the scientific yield to worst method. Non-investment grade bonds with NAIC designations 3 thru 6 are stated at the lower of amortized cost or fair value.
- (3) Unaffiliated common stocks are stated at fair value.
- (4) Redeemable preferred stocks with NAIC designations 1 thru 2 are stated at amortized cost while those that have a designation of 3 thru 6 are carried at the lower of amortized cost or fair value. Perpetual preferred stock with NAIC designations of 1 thru 2 are stated at fair value while those that have designations of 3 thru 6 are carried at the lower of amortized cost or fair value.
- (5) The Company has no mortgage loans.
- (6) Loan-backed securities are carried at amortized cost using the prospective method, which utilizes anticipated prepayment cash flow assumptions obtained from a widely accepted third party data provider and are based on interest rates and current economic conditions. Loan-backed securities rated 3 thru 6 by the NAIC are reported at the lower of amortized cost or fair value.
- (7) Investments in stock of subsidiaries are carried on the equity basis and subsequently non-admitted in accordance with SSAP No. 97 as audited statements of the subsidiaries are not obtained.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) The Company owns no derivatives.
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53. Property - Casualty Contracts - Premiums.

A. Financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by Statement of Statutory Accounting Principle No. 100, Fair Value Measurements. Level 1 inputs in the hierarchy consist of unadjusted quoted prices for identical assets and liabilities in active markets. Level 2 inputs consist of quoted prices in active markets for similar assets or liabilities or quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Level 3 inputs consist of unobservable inputs (supported by little or no market activity) and reflect management’s best estimate of what hypothetical market participants would use to determine a transaction price at the reporting date.

STATEMENT AS OF DECEMBER 31, 2017 OF THE NATIONAL MUTUAL INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

(B) Information about significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses – None to report.

26. Inter-company Pooling Arrangements

National Mutual Insurance Company (National) acts as the lead company in the reinsurance pooling agreement with the affiliated companies listed below; each is shown with its pool participation percentages.

The pool participation percentages remain unchanged from the prior year, and currently are:

<u>NAIC #</u>	<u>Company</u>	<u>Percent</u>
20176	Celina Mutual Insurance Company	36%
20182	National Mutual Insurance Company	34%
16764	Miami Mutual Insurance Company	30%

All lines of business are included in the pooling agreement and are ceded to National, the lead company. Facultative reinsurance is ceded on an individual company basis to non-affiliated reinsurers prior to pooling. Premiums for excess of loss and catastrophe treaties, where all pool companies are named participants, are ceded to non-affiliated reinsurers by National after the initial assumption of pooled business. Ceded losses are specifically identified and recorded in each company except for catastrophe losses which are accumulated in National after the initial assumption of pooled business. Catastrophe losses in excess of the aggregate retention are then ceded to non-affiliated reinsurers.

There are no discrepancies between entries regarding pooled business on the assumed and ceded reinsurance schedules of the lead company and corresponding entries on the assumed and ceded reinsurance schedules of other pool participants. At December 31, 2017, the Company recorded net balances of \$761,736 receivable from Celina, and \$495,539 payable to Miami for pooling of premiums, commissions, losses and loss adjustment expenses.

27. Structured Settlements

The Company has settled certain losses with annuities, on which claimants are payees, in settlement of claims under the Company's policies. The Company has obtained releases from the respective claimants, acknowledging that receipt of the structured settlement under each annuity is full payment of the claim. The Company has no contingent liability for these annuities since ownership has been transferred to another insurance company.

28. Health Care Receivables - None to report.

29. Participating Policies - None to report.

30. Premium Deficiency Reserves

The Company has determined it has no premium deficiency reserves and does not consider anticipated investment income in the calculation. The most recent calculation was performed as of December 31, 2017.

31. High Deductibles - None to report.

32. Discounting of Liabilities for Unpaid Losses of Unpaid Loss Adjustment Expenses

The Company does not discount liabilities for unpaid losses or unpaid loss adjustment expenses.

33. Asbestos/Environmental Reserves - No significant changes.

A. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses?

Yes (X) No ()

The Company's exposure to asbestos losses arises from the sale of general liability insurance.

The Company tries to estimate the full impact of asbestos exposure by establishing full case basis reserves on all known losses and computing incurred but not reported losses based on previous experience.

Asbestos related losses (including coverage dispute costs) for each of the five most recent calendar years, based upon the Company's current pool participation percentage, were as follows:

ANNUAL STATEMENT FOR THE YEAR 2017 OF THE NATIONAL MUTUAL INSURANCE COMPANY

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1

What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
N/A

6.2

Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.
The company uses the RMS and AIR Models to obtain estimates of probable maximum losses using a series of simulated tornado/hail storms encompassing a range of probable United States events. These analyses included an Annual Probability of Non-Exceedance analysis and an average annual loss analysis. Concentrations of exposures with a higher potential exist in western Ohio and northern Indiana.

6.3

What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
The company maintains catastrophe protection and may cede up to \$29 million of property losses in excess of \$4 million per event. This program was 100% placed in 2017. In addition, a property aggregate cover provides \$4 million in protection, excess of a \$3.5 million retention, subject to a \$750,000 per occurrence deductible. This cover was 95% placed in 2017.

6.4

Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?

Yes ☒ No ☐

6.5

If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to uninsured catastrophic loss.

7.1

Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)?

Yes ☐ No ☒

7.2

If yes, indicate the number of reinsurance contracts containing such provisions:

7.3

If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?

Yes ☐ No ☐

8.1

Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?

Yes ☐ No ☒

8.2

If yes, give full information

9.1

Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.

Yes ☐ No ☒

9.2

Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.

(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?

Yes ☐ No ☒

9.5

If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6

The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
(a) The entity does not utilize reinsurance; or,
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement.

Yes [X] No []

14.2

If yes, please describe the method of allocating and recording reinsurance among the cedants:
The Company and two affiliated companies participate in the Celina Insurance Group Property & Casualty Pool with National Mutual Insurance Company acting as the lead company. Facultative reinsurance is ceded on an individual company basis. The premium balance after facultative cessions, is ceded to the lead company who calculates and cedes reinsurance premium to outside reinsurers for excess of loss and catastrophe reinsurance. The remaining net pooled premium is then assumed from the lead company based on each company's share of the pool. Allocation of excess of loss and catastrophe premiums to a non-pool affiliate is made based on its percentage of subject premium to the total. Ceded losses are specifically identified and recorded in each company except for catastrophe reinsurance with aggregate retention. Allocation of the aggregate retention and ceded loss in excess of the retention is prorated to company based on subject incurred losses.
