b. Liabilities at fair value					
Total liabilities at fair value	0	0	0	0	0

(2) Rollforward of Level 3 Items

Not Applicable

- (3) There were no fair value measurements using significant unobservable inputs. The Company reports transfers between fair value hierarchy levels at the end of the reporting period.
- (4) Fair value of actively traded debt securities are based on quoted market prices. Fair value of other debt securities are based on quoted market prices of identical or similar securities or based on observable inputs like interest rates generally using a market valuation approach, or, less frequently, an income valuation approach and are generally classified as Level 2. The Company generally obtains one quoted price for each security from a third party pricing service. These prices are generally derived from recently reported trades for identical or similar securities, including adjustments through the reporting date based upon observable market information. When quoted prices are not available, the third party pricing service may use quoted market prices of comparable securities or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include benchmark yields, reported trades, credit spreads, broker quotes, default rates, and prepayment speeds.

The Company is responsible for the determination of fair value and as such, the Company performs a review of the prices received from the third party pricing service to determine whether the prices are reasonable estimates of fair value. There were no material adjustments to the prices obtained from the third party pricing service during the quarter ended March 31, 2018.

25. Change in Incurred Claims and Claim Adjustment Expenses

Reserves as of December 31, 2017 were \$631,998. As of March 31, 2018, \$479,447 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$135,762 as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$16,789 favorable prior-year development since December 31, 2017 to March 31, 2018. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
