NOTES TO FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

A. Accounting Practices and Procedures

The financial statements of Cigna National Health Insurance Company ("CNHIC" or "the Company"; formerly Central Reserve Life Insurance Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures* manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Ohio.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and Permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates

C. Accounting Policy

- (6) Loan-Backed Securities. Loan-backed bonds and structured securities are valued at amortized cost using the constant level yield method. Significant changes in estimated cash flows from the original purchase assumptions are accounted for generally using the retrospective adjustment method. Significant changes in estimated cash flows from the original purchase assumptions for loan-backed and structured securities that have potential for loss of a significant portion of the original investment are accounted for using the prospective method. These securities are presented on the balance sheet as bonds.

Prepayment assumptions for loan-backed and other structured securities were obtained from external financial data sources. These assumptions are consistent with the current interest rate and economic environment.

When the Company determines it does not expect to recover the amortized cost basis of loan-backed or structured securities with declines in fair value (even if it does not intend to sell and has the intent and ability to hold), the non-interest portion of the impairment loss is recognized in realized investment losses. The non-interest portion is the difference between the amortized cost basis of the loan-backed or structured security and the net present value of its expected future cash flows. Expected future cash flows are based on assumptions about the collateral attributes, including prepayment speeds, default rates and changes in value.

D. Going Concern

In accordance with SSAP No. 1, "Accounting Policies, Risks and Uncertainties, and Other Disclosures," management has made an evaluation of the Company's ability to continue as a going concern, including such factors as its current financial position, recent earnings and cash flow trends and projections, liquidity and capital requirements, readily available sources of liquidity and such other factors deemed by management to be appropriate under the circumstances. As a result of management's evaluation, no conditions, events or trends have been identified that causes substantial doubt as to the ability of the Company to continue as a going concern and, accordingly, the accompanying financial statements have been prepared on the going concern basis.

D. Loan Backed Securities

- (1) Prepayment assumptions for loan-backed and other structured securities were obtained from external financial data sources. These assumptions are consistent with the current interest rate and economic environment.
- (2) The Company had no loan-backed and structured securities with recognized other-than-temporary impairments where the Company had the intent to sell or does not have the intent and ability to retain the investment for a period of time sufficient to recover the amortized cost basis as of June 30, 2018.
- (3) The Company had no loan-backed and structured securities with recognized other-than-temporary impairments where the present value of cash flow expected to be collected is less than the amortized cost basis as of June 30, 2018.
- (4) There were no loan-backed and structured securities with a fair value lower than amortized cost as of June 30, 2018.
- (5) Management reviews loan-backed and structured securities with a decline in fair value from cost for impairment based on criteria that include:
 - Length of time and severity of decline.
 - Financial and specific near term prospects of the issuer.
 - Changes in the regulatory, economic or general market environment of the issuer’s industry or geographic region.
 - The Company’s intent to sell or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost.

NOTES TO FINANCIAL STATEMENTS

F. Other Legal Matters

In the normal course of its business operations, the Company is involved in litigation and other regulatory matters from time to time with claimants, beneficiaries, and other parties. When the Company, in the normal course of its regular review of such matters has determined that a material loss is reasonably possible, the matter is disclosed. In accordance with Statutory Accounting Principles, when litigation or other regulatory matters result in loss contingencies that are both probable and estimable, the Company accrues the estimated loss by a charge to operations. The amount accrued represents management's best estimate of the probable loss at the time. If only a range of estimated losses can be determined, the Company accrues an amount within the range that, in management's judgment, reflects the most likely outcome. If none of the estimates within the range is a better estimate than any other amount, the Company accrues the mid-point of the range.

Management does not believe that litigation or other matters currently pending against the Company, including the litigation between Cigna and Anthem discussed below, would have a material adverse effect on the Company's results of operations, financial condition or liquidity based on its current knowledge of those matters.

Litigation with Anthem. In February 2017, Cigna delivered a notice to Anthem terminating the merger agreement, and notifying Anthem that it must pay Cigna the \$1.85 billion reverse termination fee pursuant to the terms of the merger agreement. Also in February 2017, Cigna filed suit against Anthem in the Delaware Court of Chancery (the "Chancery Court") seeking declaratory judgments that termination of the merger agreement was valid and that Anthem was not permitted to extend the termination date. The complaint also sought payment of the reverse termination fee and additional damages in an amount exceeding \$13 billion, including the lost premium value to Cigna's shareholders caused by Anthem's willful breaches of the merger agreement.

Also in February 2017, Anthem filed a lawsuit in the Chancery Court against Cigna seeking (i) a temporary restraining order to enjoin Cigna from terminating and taking any action contrary to the terms of the merger agreement, (ii) specific performance compelling Cigna to comply with the merger agreement and (iii) damages.

On February 15, 2017, the Chancery Court granted Anthem's motion for a temporary restraining order and temporarily enjoined Cigna from terminating the merger agreement. In May 2017, the Chancery Court denied Anthem's motion for a preliminary injunction to enjoin Cigna from terminating the merger agreement but stayed its ruling pending Anthem's determination as to whether to seek an appeal. Anthem subsequently notified Cigna and the Chancery Court that it did not intend to appeal the Chancery Court's decision. As a result, the merger agreement was terminated.

The litigation between the parties remains pending. Trial is scheduled for 2019. Cigna believes in the merits of their claims and disputes Anthem's claims, and intends to vigorously defend themselves and pursue their claims. The outcomes of lawsuits are inherently unpredictable, and Cigna may be unsuccessful in the ongoing litigation or any future claims or litigation.

Note 20 - Fair Value Measurements

Fair value is defined as the price at which an asset could be exchanged in an orderly transaction between market participants at the balance sheet date. The Company's financial assets have been classified based upon a hierarchy defined by SAP. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a financial asset or liability carried at fair value would be classified in Level 3 if unobservable inputs were significant to the instrument's fair value, even though the measurement may be derived using inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

Updates to SSAP 100 that became effective on January 1, 2018 allow the use of net asset value (NAV) as a practical expedient to fair value for investments in investment companies where there is no readily determinable fair value. There were no such investments owned by the Company for either period presented.

- Level 1 Inputs for instruments classified in Level 1 include unadjusted quoted prices for identical assets in active markets accessible at the measurement date. Active markets provide pricing data for trades occurring at least weekly and include exchanges and dealer markets.

NOTES TO FINANCIAL STATEMENTS

- Level 2

Inputs for instruments classified in Level 2 include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are market observable or can be corroborated by market data for the term of the instrument. Such other inputs include market interest rates and volatilities, spreads and yield curves. An instrument is classified in Level 2 if the Company determines that unobservable inputs are insignificant. Level 2 assets primarily include corporate bonds valued using recent trades of similar securities or pricing models that discount future cash flows at estimated market interest rates.
- Level 3

Certain inputs for instruments classified in Level 3 are unobservable (supported by little or no market activity) and significant to their resulting fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

2. Fair Value Measurements in Level 3 of the Fair Value Hierarchy – None
3. Level 3 Transfers – None
4. Valuation Techniques and Inputs - No financial instruments at fair value.

C. Aggregate Fair Value of All Financial Instruments

The following tables provide the fair value, carrying value, and classification in the fair value hierarchy of the Company's financial instruments as of June 30, 2018 and December 31, 2017.

Total	\$ 5,911,030	\$ 5,968,809	\$ 4,496,641	\$ 1,414,389	\$ -	\$ -	\$ -

The following valuation methodologies and significant assumptions are used by the Company to determine fair value for each instrument.

Bonds
The Company estimates fair values using prices from third parties or internal pricing methods. Fair value estimates received from third-party pricing services are based on reported trade activity and quoted market prices when available, and other market information that a market participant may use to estimate fair value. Such other inputs include market interest rates and volatilities, spreads, and yield curves. The internal pricing methods are performed by the Company's investment professionals and generally involve using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality, as well as other qualitative factors. In instances where there is little or no market activity for the same or similar instruments, the fair value is estimated using methods, models, and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price.

Cash, Cash Equivalents, and Short-Term Investments
Short-term investments and cash equivalents are carried at fair value which approximates cost, and are classified in Level 2. Given the nature of cash, fair value approximates carrying value and is classified in Level 1.
