NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

A. Accounting Practices

The statutory basis financial statements of Optum Insurance of Ohio, Inc. (the "Company") are presented on the basis of accounting practices prescribed and permitted by the Ohio Department of Insurance (the "Department").

The Department recognizes only statutory accounting practices, prescribed and permitted by the State of Ohio, for determining and reporting the financial condition and results of operations of a life, accident, and health insurer, for determining its solvency under Ohio Insurance Law. The state prescribes the use of the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") in effect for the accounting periods covered in the statutory basis financial statements.

No significant differences exist between the practices prescribed and permitted by the State of Ohio and those prescribed and permitted by the NAIC SAP which materially affect the statutory basis net income and capital and surplus, as illustrated in the table below:

2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

During 2018, the Company determined that it had understated aggregate write-ins for miscellaneous income and amounts receivable relating to uninsured plans related to fee for service revenue by \$1,136,200 for the year ended December 31, 2017. In addition, current federal and foreign income tax recoverable and interest thereon and federal and foreign income taxes incurred (excluding tax on capital gains) were understated by \$236,381. Lastly, aggregate write-ins for other than invested assets and insurance taxes, licenses and fees, excluding federal income taxes were understated by \$2,221. Had the above adjustment been recorded to the 2017 statutory basis financial statements, the increase to net income and total assets would have been of \$897,598. Due to the significance, the cumulative effect of this prior year error was corrected by the Company in accordance with Statements of Statutory Accounting Principles No. 3, *Accounting Changes and Corrections of Errors*, and is reflected in the statutory basis statements of changes in capital and surplus as correction of prior year error for the period ended June 30, 2018.

The Company has been, or is currently involved, in various governmental investigations, audits and reviews. These include routine, regular and special investigations, audits and reviews by Centers for Medicare and Medicaid Services, state insurance and health and welfare departments and other governmental authorities. Certain aspects of the Company's businesses have been reviewed or are currently under review, for reasons including compliance with coding and other requirements under the Medicare risk-adjustment model.

On February 14, 2017, the Department of Justice ("DOJ") announced its decision to pursue certain claims within a lawsuit initially asserted against the Company and filed under seal by a whistleblower in 2011. The whistleblower's complaint, which was unsealed on February 15, 2017, alleges that the Company made improper risk adjustment submissions and violated the False Claims Act. On February 12, 2018, the court granted in part and denied in part the Company's motion to dismiss. In May 2018, the DOJ moved to dismiss the Company's counterclaims, which were filed in March 2018, and moved for partial summary judgment. Those motions will be argued in September 2018. The Company cannot reasonably estimate the outcome that may result from this matter given its procedural status.

There are no assets that the Company considers to be impaired at June 30, 2018.

19. DIRECT PREMIUM WRITTEN/PRODUCED BY MANAGING GENERAL AGENTS/THIRD-PARTY ADMINISTRATORS

20. FAIR VALUE MEASUREMENT

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (“pricing service”), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company’s internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company’s assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

A. Fair Value

(1–5) The Company does not have any financial assets that are measured and reported at fair value in the statutory basis statements of admitted assets, liabilities, and capital and surplus at June 30, 2018 and December 31, 2017.
