- B. The preparation of these statutory-basis financial statements requires management to make estimates and assumptions that affect the amounts reported in the statutory-basis financial statements and accompanying notes. Actual results could differ from those estimates. Such estimates and assumptions could change in the future as more information becomes known which could impact the amounts reported and disclosed herein.
- C. Premiums are earned ratably over the terms of the related insurance policies. Ceded premiums are earned ratably over the terms of the applicable reinsurance contracts. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as marketing, are charged to operations as incurred.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
- (3-9) Not applicable
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 54, Individual and Group Accident and Health Contracts.
- (11) Unpaid losses and loss adjustment expenses include an amount determine from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while the management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company’s Pharmacy Benefit Manager – CVS Health has contractually guaranteed minimum pharmaceutical rebates. These amounts determine the Company’s estimated receivable adjusted for payments received.

20. Fair Value Measurement

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 - Quoted (unadjusted) prices for identical assets in active markets.

Level 2 - Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 - Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds, short-term investment and preferred stocks are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service ("pricing service"), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

Notes to Financial Statement

A. Fair Value

1. Fair Value Measurements at Reporting Date

(2) The Company does not have any financial assets with a fair value hierarchy of Level 3 that were measured and reported at fair value for the nine months ended September 30, 2018 and 2017.

(3) Transfers between fair value hierarchy levels, if any, are recorded as of the beginning of the reporting period in which the transfer occurs. There were no transfers between Levels 1, 2, or 3 of any financial assets or liabilities during the nine months ended September 30, 2018 and 2017.

(4) Fair values of debt and equity securities are based on quoted market prices, where available. The Company obtains one price for each security primarily from a pricing service, which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, and, if necessary, makes adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, benchmark yields, credit spreads, default rates, prepayment speeds and non-binding broker quotes.

(5) The Company does not have an derivative assets and liabilities.

22. Events Subsequent

Type I – Recognized Subsequent Events:

There have been no Type I events. Subsequent Events have been considered through November 15, 2018 for the statutory quarterly 2018 statements.

Type II – Unrecognized Subsequent Events:

There have been no Type II events. Subsequent Events have been considered through November 15, 2018 for the statutory quarterly 2018 statements.

On January 1, 2019, the Company will be subject to an annual fee under Section 9010 of the federal Affordable Care Act (ACA). This annual fee will be allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. As of September 30, 2018, the Company has not written health insurance subject to the ACA assessment, expects to conduct health insurance business in 2018, and estimates their portion of the annual health insurance industry fee to be payable on September 30, 2019 to be \$0. This amount is reflected in special surplus. This assessment is expected to impact risk based capital (RBC) by 0%. Reporting the ACA assessment as of September 30, 2018, would not have triggered an RBC action level.

25. Change in Incurred Claims and Claim Adjustment Expenses

Reserves as of December 31, 2017 were \$0. As of September 30, 2018, \$0 has been paid for insured claims attributable to insured events of the prior years. Claim adjustment expenses are assumed paid for current year. Reserves remaining for prior years are now \$0 as a result of re-estimation of unpaid claims and claim adjustment principally on our health line of business. Therefore, there has been a \$0 unfavorable(favorable) prior-year development December 31, 2017 to September 30, 2018. The increase(decrease) is generally the result of ongoing analysis of recent loss development trends.
