**B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of financial statements in conformity with Statutory Accounting Principles (SSAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**C. Accounting Policy**

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost, using the scientific yield to worst method. Non-investment grade bonds with NAIC designations 3 thru 6 are stated at the lower of amortized cost or fair value.
- (3) Unaffiliated common stocks are stated at fair value.
- (4) Redeemable preferred stocks with NAIC designations 1 thru 2 are stated at amortized cost while those that have a designation of 3 thru 6 are carried at the lower of amortized cost or fair value. Perpetual preferred stock with NAIC designations of 1 thru 2 are stated at fair value while those that have designations of 3 thru 6 are carried at the lower of amortized cost or fair value.
- (5) The Company has no mortgage loans.
- (6) Loan-backed securities are carried at amortized cost using the prospective method, which utilizes anticipated prepayment cash flow assumptions obtained from a widely accepted third party data provider and are based on interest rates and current economic conditions. Loan-backed securities rated 3 thru 6 by the NAIC are reported at the lower of amortized cost or fair value.
- (7) The Company has no investments in stock of subsidiaries.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) The Company owns no derivatives.
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53. Property-Casualty Contracts -Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods used for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company does not offer health insurance policies and has no pharmaceutical rebate receivables.

**B. Deferred Tax Liabilities Not Recognized**

Not Applicable.

**C. Current income taxes incurred consist of the following major components:**

On December 22, 2017, tax reform legislation was enacted through the Tax Cuts and Jobs Act, which significantly changed existing U.S. tax laws, including a reduction in the corporate tax rate from 35% to 21%. As a result of enactment of the legislation, the Company incurred a one-time surplus decrease of \$333,502 in the 4th quarter of 2017, related to the remeasurement of deferred tax assets and liabilities. This reduction in surplus was comprised of a \$717,424 decrease in net deferred tax assets, excluding unrealized capital gains, offset by a \$383,922 decrease in deferred tax liabilities on unrealized capital gains.

The Tax Cuts and Jobs Act also provided for a change in the methodology employed to calculate loss reserves for tax purposes. Beginning January 1, 2018, insurers were required to apply the new IRS published tables, based on industry experience, using a higher interest rate assumption and longer payout patterns to discount these reserves. The Company recognized a \$66,296 decrease in net deferred tax assets during 2018 as a result of this change in discounting of December 31, 2017 reserves.

**NOTE 26 Intercompany Pooling Arrangements**

National Mutual Insurance Company (National) acts as the lead company in the reinsurance pooling agreement with the affiliated companies listed below; each is shown with its pool participation percentages.

The pool participation percentages remain unchanged from the prior year and currently are:

NAIC #	Company	Percent
20176	Celina Mutual Insurance Company	36%
20182	National Mutual Insurance Company	34%
16764	Miami Mutual Insurance Company	30%

All lines of business are included in the pooling agreement and are ceded to National, the lead company. Facultative reinsurance is ceded on an individual company basis to non-affiliated reinsurers prior to pooling. Premiums for excess of loss and catastrophe treaties, where all pool companies are named participants, are ceded to non-affiliated reinsurers by National after the initial assumption of pooled business. Ceded losses are specifically identified and recorded in each company except for catastrophe losses which are accumulated in National after the initial assumption of pooled business. Catastrophe losses in excess of the aggregate retention are then ceded to non-affiliated reinsurers.

There are no discrepancies between entries regarding pooled business on the assumed and ceded reinsurance schedules of the lead company and corresponding entries on the assumed and ceded reinsurance schedules of other pool participants. At December 31, 2018, the Company recorded a \$517,571 net balance receivable from National for pooling of premiums, commissions, losses and loss adjustment expenses.

The Company has obtained releases from the respective claimants, acknowledging that receipt of the structured settlement under each annuity is full payment of the claim.
