## NOTES TO FINANCIAL STATEMENTS

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

#### A. Accounting Practices

The financial statements of Bristol West Insurance Company (“the Company”) are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of the State of Ohio (“DOI”).

The Company recognizes only statutory accounting practices prescribed or permitted by the State of Ohio (the “State”) for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures Manual (the “Codification”), version effective January 1, 2001 and subsequently amended (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. The Company did not utilize any permitted practices during the years presented.

A reconciliation of the Company’s net income and surplus between NAIC SAP and practices prescribed by the State of Ohio for year ended December 31, 2018 and the year ended December 31, 2017 is shown below:

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

#### C. Accounting Policy

Premiums are earned pro rata over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

1. Short-term investments include all investments whose maturities, at the time of acquisition, are greater than three months and less than one year and are stated at amortized cost, which approximates fair value.
- 2-4. Bonds not backed by other loans are generally carried at amortized cost or the lower of amortized cost or fair value depending on their NAIC designation. Bond premium or discount is amortized using the interest method.

The Company does not hold any common stocks in its portfolio.

The Company does not hold any preferred stocks in its portfolio.

## NOTES TO FINANCIAL STATEMENTS

The Company recognizes other-than-temporary impairment losses on investments when the decline in fair value specific to an issuer's fundamental credit difficulties, or a non-interest related decline, is deemed to be other than temporary. There are a number of assumptions and estimates inherent in evaluating impairments specific to an issuer's fundamental credit difficulties, or non-interest related decline, and determining if they are other than temporary, including: 1) the Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; 2) the recoverability of principal and interest; 3) the length of time and extent to which the fair value has been less than amortized cost for bonds or cost for unaffiliated common and preferred stocks; 4) the financial condition, near-term and long-term prospects of the issue or issuer, including relevant industry conditions and trends, and implications of rating agency actions and offering prices; and 5) the specific reasons that a security is in a significant unrealized loss position, including market conditions which could affect access to liquidity. Interest rate related impairments are deemed other than temporary when the Company has the intent to sell an investment, at the reporting date, before recovery of the cost of the investment.

5. The Company does not own any mortgage loans.
6. Mortgage-backed bonds and structured securities are stated at either amortized cost or the lower of amortized cost or market value. Premiums and discounts on mortgage-backed securities and structured securities are amortized using the retrospective method, except for interest-only mortgage-backed securities, which are amortized using the prospective method.

Loan-backed securities with evidence of deterioration of credit quality for which it is probable that the Company will be unable to collect all contractually required payments receivable, are written down to the present value of expected cash flows to be received.

7. The Company has no investments in subsidiaries or controlled companies.
8. The Company has no investments in joint ventures, partnerships, or limited liability companies.
9. The Company has no investments in derivatives.
10. The Company utilizes anticipated investment income in the calculation of premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts – Premiums (see Note 30).
11. Reserves for losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported ("IBNR"). Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting reserves are continually reviewed and any adjustments are reflected in the period determined.
12. The Company has not modified its capitalization policy from the prior period.
13. Not applicable, as the Company does not write any medical insurance with prescription drug coverage.

### D. Going Concern

Management has evaluated the Company's ability to continue as a going concern, and is satisfied that the Company has adequate resources to enable it to continue in business for the foreseeable future.

### 2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

Effective January 1, 2018, "SSAP 26R - Bonds" was revised to allow for a new measurement alternative for bond exchange-traded funds ("ETFs") and bond mutual funds. This revision effectively removed Securities Valuation Office ("SVO") designated bond ETFs from the definition of a bond and also required the identification of instruments that will be measured using systematic value on January 1, 2018. In addition, these substantive changes made provisions for insurance companies to make a one-time election to record bond ETFs and bond mutual funds at either fair value or systematic value as of December 31, 2017. For insurers electing to use fair value, investments are to be recorded at market value immediately. However, if systematic value was elected, then insurers are required to use their existing method for 2017 but to then revert and use the systematic calculation beginning 2018. The adoption of these revisions had no material impact on the Company's 2018 statutory financial statements.

Effective January 1, 2018, the NAIC made substantive revisions to SSAP 100R "Fair Value" which allow for the use of net asset value ("NAV") as a practical expedient to fair value when specifically named in a Statement of Statutory Accounting Principles ("SSAP") or when specific conditions exist. The conditions include: 1) when the investment does not have a readily determinable fair value and 2) when the investment is in an investment company or real estate fund for which it is industry practice to measure investment assets at fair value on a recurring basis and to issue financials consistent with the principles of an investment company. Investments reported at NAV must be identified separately in the fair value hierarchy to permit reconciliations. Certain disclosures are required in instances when the asset may be sold below NAV, or if there are significant restrictions in the liquidation of an investment held at NAV. This revision and its adoption did not have any material impact on the Company's statutory financial statements.

#### **Litigation**

Certain of the Farmers' companies are defendants in certain lawsuits arising in the normal course of business, which are in various stages of development. Some of these matters seek punitive as well as compensatory damages. While it is not possible to predict the outcome of these matters with certainty, management believes that their ultimate disposition will not have a material effect on the Company's financial position or results of operations. In addition, certain of the Farmers' companies are, from time to time, involved as parties in various governmental and administrative proceedings.

#### **Revolving Credit Facility Framework Agreement**

FIE and certain members of the Farmers' companies entered into a Revolving Credit Facility Framework Agreement for the purpose of eliminating the need to maintain large cash balances or unnecessarily liquidating investments during the monthly reinsurance cash settlement process among participating affiliates. The revolving credit framework allows participating affiliates to make short term loans to each other to cover debt arising from the monthly reinsurance settlement process. The loans, executed on an as-needed basis, mature in ninety (90) days and cannot exceed in the cumulative aggregate three percent (3%) of a borrower's or lender's admitted assets. Loans may be collateralized with a pledge of securities at lender's option, and in any event, must be collateralized if the loan crosses from one calendar year into the next calendar year such that the loan is secured and perfected as of December 31 of the year the loan was made. Parties to the agreement will renegotiate the terms of the agreement at least once every three (3) years. The agreement has been non-disapproved by the California Department of Insurance as well as by the regulators of the domiciliary states of FIE affiliates outside of California. At December 31, 2018, there was no outstanding loan balance on this revolving credit facility.

### 20. FAIR VALUE MEASUREMENTS

#### A. Inputs Used For Assets Measured At Fair Value

##### (1) Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes assets that are measured at fair value into the three-level fair value hierarchy as follows:

Level 1 - Liquid investments traded in active markets and valued based on unadjusted quoted prices. Assets in this category are preferred and common stock securities.

Level 2 - Bonds, preferred stocks, common stocks and call options which are not exchange traded. These securities are valued based upon models with observable inputs (for example, market interest rates, credit spreads, etc.). They may have been determined by independent pricing services using observable inputs.

Level 3 - Investments valued based upon models with "significant" non-observable inputs (assumptions). Such assumptions can be about loss severities, prepayment speed, interest rate volatilities, earnings forecast, comparable sales, etc.

The Company has no assets that are measured at fair value as of December 31, 2018.

##### (2) Rollforward of Level 3

None.

##### (3) Policy on Transfers In and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an investment to be transferred in or out of Level 3.

##### (4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Bonds carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations as quoted market prices for similar instruments in an active market were utilized. This was accomplished by the use of matrix pricing. Matrix pricing takes quoted prices of bonds with similar features that are inputs into the analysis, including duration, credit quality, tax status and call and sinking fund features.

Bonds carried at fair value categorized as Level 3 were valued using unobservable inputs. These unobservable inputs reflect our own assumptions about the criteria that market participants would use in pricing these assets (including assumptions about risk). These assumptions were based on the best information available in the circumstances.

##### (5) Derivative fair values

None.
