B. Use of Estimates in the Preparation of the Financial Statements

The preparation of the financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of the premiums written. Such reserves are computed by pro rata methods using the contract term for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.

ANNUAL STATEMENT FOR THE YEAR 2018 OF THE The American Insurance Company

NOTES TO FINANCIAL STATEMENTS

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

In 2018, the consolidated tax-sharing agreement was revised, whereby Allianz of America, Inc. contemporaneously reimburses all subsidiaries for separate company tax attributes (e.g. net operating losses, tax credits) utilized by the consolidated tax group. The revised accounting policy is to recognize the current tax benefit in the year that the net operating loss originated and was utilized by the consolidated tax group. No deferred tax assets related to these tax attributes will be recognized on the subsidiaries under separate company method.

Under the former tax-sharing agreement, the subsidiaries were required to submit a waiver to the tax-sharing agreement for reimbursement for separate company net operating losses. The accounting treatment was for the subsidiaries to recognize a deferred tax asset for the net operating loss, consistent with a separate company methodology. Then, upon the approval of the reimbursement waiver, the subsidiary would reverse the deferred tax asset and recognize the tax benefit within the current tax benefit.

The change in accounting policy had no impact on the Company’s surplus in 2018.

ANNUAL STATEMENT FOR THE YEAR 2018 OF THE The American Insurance Company

NOTES TO FINANCIAL STATEMENTS

20. FAIR VALUE MEASUREMENTS

A. Assets measured at fair value on a recurring basis.

(1) There were no financial assets or financial liabilities recorded at fair value as of December 31, 2018.

The Company reviews its fair value hierarchy classifications quarterly. This review could reveal that previously observable inputs for specific assets or liabilities are no longer available or reliable. For example, if the market for a Level 1 asset becomes inactive, the Company may need to adopt a valuation technique that relies on unobservable components causing the asset to be transferred to Level 2 or Level 3. Alternatively, if the market for a Level 3 asset or liability becomes active, the Company will report a transfer out of Level 3. Transfers in or out of Level 3 are reported as of the beginning of the reporting period in which the change occurs. In 2018, there were no transfers of assets or liabilities from one level of the fair value hierarchy to another.

(2) The Company has no assets or liabilities carried at fair value in the level 3 category of the fair value hierarchy.

(3) See discussion above for a description of the Company’s policy for determining when transfers between levels are recognized.

(4) The Company has analyzed the valuation techniques and related inputs, evaluated its assets and liabilities reported at fair value, and determined a fair value hierarchy level based upon trading activity and the observability of market inputs consistent with SSAP 100, Fair Value Measurement. Based on the results of this evaluation and investment class analysis, each valuation was classified into Level 1, 2, or 3. An asset’s or a liability’s classification is based on the lowest level input that is significant to its measurement. The fair value of bonds is based primarily on quoted market prices in active markets. Based on the market data, the securities are categorized into asset class, and based on the asset class of the security, appropriate pricing applications, models, and related methodology and standard inputs are utilized to determine what a buyer in the market place would pay for the security in a current sale. When quoted prices are not readily available or in an inactive market, standard inputs used in the valuation models, listed in approximate order of priority, include, but are not limited to, benchmark yields, reported trades, municipal securities rulemaking board (MSRB) reported trades, nationally recognized municipal securities information repository (NRMSIR) material event notices, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and industry and economic events. In certain cases, including private placement securities as well as certain difficult-to-price securities, internal pricing models may be used that are based on market proxies.

(5) The entity does not hold any derivative assets or liabilities measured at fair value.

B. Other Fair Value Disclosures: None

C. Aggregate Fair Value & Level Measurements as of December 31, 2018:

FFIC is the lead insurer in an intercompany reinsurance pool. The Company participates in the intercompany pooling arrangement with several affiliated insurance entities pursuant to the Second Amended and Restated intercompany Reinsurance Agreement effective January 1, 2012 ("Pooling Agreement"). The Pooling Agreement applies to all lines of business. Under the terms of the Pooling Agreement each of the participating affiliates cedes and FFIC assumes the liabilities of the participating affiliates for all policies and contracts of insurance issued, assumed or otherwise reinsured by the participating affiliates, excluding reinsurance obligations of the affiliates to third party reinsurers, and FFIC cedes into the pool all of the liabilities for policies and contracts of insurance issued, assumed or otherwise reinsured by FFIC. The liabilities of the affiliated insurers are pooled with the liabilities arising from policies and contracts of insurance issued directly by FFIC. FFIC retains 100% of the pool liabilities, in accordance with its pool participation percentage, and the other participating insurers (including the Company) do not assume any portion of pool results.

Members of the pool and their respective percentages of participation at December 31, 2018 are as follows:

The Company does not discount on a tabular and a non-tabular basis liabilities for unpaid losses or loss adjustment expenses.

33. ASBESTOS/ENVIRONMENTAL RESERVES

The Company has exposure to asbestos and environmental claims primarily through Commercial Multi-Peril, Products Liability and Other Liability policies.

The exposure to asbestos claims arises from the mining and manufacturing of asbestos, asbestos in place, the use of asbestos products by insulators, ship workers and others, as there were thousands of common uses for asbestos and asbestos products.

In 2000 the Company changed the definition of environmental claims to include both pollution claims and other mass tort claims. Pollution claims arise from facilities where a hazardous substance has been deposited, stored, treated, handled, disposed of, placed, or otherwise come to be located. Pollution liability can arise from owners and operators of such facilities, and from generators and transporters of hazardous substances. Other mass tort claims arise from products such as silicone breast implants, Agent Orange, tobacco and lead.

The Company establishes full case reserves for all reported asbestos claims. Reserves for IBNR include a provision for development of reserves on reported losses. The Company's IBNR reserves are established after examining a variety of techniques including ground-up exposure based modeling and average cost models.

A.-F. Results reflect the application of the Pooling Agreement wherein FFIC will reinsure and be liable on all policies and contracts of insurance and assumed reinsurance of the Company. See Note 26.

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1

What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
The company typically writes Workers' Compensation in conjunction with a package policy that includes modeled Property exposure. The insight achieved from the Property underwriting process includes the Construction, Occupancy, Protection and Exposure aspects for each account, enhancing risk selection. We also model such risks for Natural Catastrophe and Terrorism risk as part of risk selection including the potential impact from Workers' Compensation exposure. There is a stated PML limit built into the corporate authority template requiring referral. (see 6.2 below)

6.2

Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.
The company uses both deterministic and probalistic models to identify catastrophe exposure and uses the RMS software program Risklink 16 (for both Natural Catastrophe and Terrorism) in the evaluation. Catastrophe reinsurance is purchased which covers catastrophic perils in all exposed regions.

6.3

What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
The company is protected under catastrophe reinsurance coverage for both terrorism and natural catastrophe. The catastrophe reinsurance covers catastrophic perils in all exposed regions.
