NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements of Progressive Casualty Insurance Company (the "Company") were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance ("DOI").

The Ohio DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Ohio DOI. No deviations from NAIC statutory accounting practices ("NAIC SAP") were used in preparing these statutory-basis financial statements as illustrated in the table below:

B. Use of Estimates in the Preparation of the Financial Statement

The Company is required to make estimates and assumptions when preparing its financial statements and accompanying notes in conformity with NAIC SAP. Actual results may differ from those estimates. Material estimates that are susceptible to significant changes in the near term include the loss and loss adjustment expense ("LAE") reserves.

C. Accounting Policy

Insurance premiums written are being earned into income on a pro-rata basis over the period of risk based on a daily earnings convention. Unearned premiums are established to cover the unexpired portion of premiums written. The Company offers a variety of payment plans to meet individual customer needs. Generally, insurance premiums are collected in advance of providing risk coverage, minimizing the Company's exposure to credit risk.

Acquisition costs, such as agents' commissions, premium taxes, and other policy initiation costs, are charged to operations as incurred. Advertising costs are expensed as incurred.

Other income includes finance and service charges collected on premiums receivable and finance and service charges assumed under quota-share reinsurance agreements with three of the Company's non-pooled insurance company affiliates.

Certain assets designated as "nonadmitted assets", in accordance with Statement of Statutory Accounting Principles ("SSAP") No. 4, Assets and Nonadmitted Assets, are reported on page 13, Exhibit of Nonadmitted Assets. The change in nonadmitted assets is charged directly against surplus as regards policyholders on page 4, Statement of Income, capital and surplus section.

In addition, the Company uses the following accounting policies:

Investments

- Cash and cash equivalents include bank accounts and certificates of deposit as well as short-term investments with original maturities of three months or less and securities acquired with remaining maturities of three months or less that are reported at amortized cost which approximates market value. Also includes money market mutual funds valued at fair value or net asset value (NAV) as a practical expedient.

- Short-term investments include securities acquired within one year of maturity, excluding those with maturities of three months or less (see cash and cash equivalents above) and are reported at amortized cost which approximates market value.

- Investment grade bond valuations are based on NAIC designations or NAIC Credit Rating Provider ("CRP") designations from the Acceptable Rating Organization ("ARO") list and are reported at amortized cost using the scientific method which closely approximates the effective interest method. Non-investment grade bond valuations are also based on NAIC designations or NAIC CRP-ARO designations and are reported at the lower of amortized cost or fair market value. Loan-backed and structured securities follow the guidance prescribed by SSAP No. 43R for the determination of the bond valuation and reporting designation. The difference between the original cost and redemption value of these securities is recognized over the lives of the respective issues and included in net investment gain.

- Common stocks, other than investments in stocks of subsidiaries and affiliates, are reported at fair market values based on active market closing quotations from a regulated exchange. Changes in the fair market values of these securities are reflected directly as unrealized gains or losses in statutory surplus, net of deferred income taxes.

- Non-redeemable preferred stocks are reported at fair market values. Changes in the fair market values of these securities are reflected directly as unrealized gains or losses in statutory surplus, net of deferred income taxes. Investment grade redeemable preferred stocks are reported at amortized cost, while non-investment grade redeemable preferred stocks are reported at the lower of amortized cost or fair market value. The difference between the original cost and redemption value of the redeemable preferred securities is recognized using the scientific method, which closely approximates the effective interest method, over the lives of the respective issues and included in net investment gain.

- The fair market values reported are derived from independent and observable market input evaluations provided by reputable pricing services, independent broker/dealer bid lists, independent broker/dealer quotations, independent broker/dealer pricing services, or active market closing quotations from a regulated exchange. In very rare cases, if none of the aforementioned primary sources are available, matrix pricing using the reporting entity's own market based assumptions may be utilized. The approved methods for computation of fair market value are prescribed in Part Five of the Securities Valuation Office *Purposes and Procedures Manual.*

- The Company has no investments in mortgage loans.

- Loan-backed and structured securities are accounted for as prescribed by SSAP No. 43R. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends.

- The Company owns 100% of the common stock of Progressive Specialty Insurance Company ("Specialty"), an insurance affiliate domiciled in Ohio, Progressive Gulf Insurance Company ("Gulf"), an insurance affiliate domiciled in Ohio, and PC Investment Company ("PCI"), a non-insurance affiliate. These investments are reported on the equity basis as described in the *Purposes and Procedures Manual of the Securities Valuation Office* of the NAIC.

- The Company owns a 99.0% interest of the Solar Eclipse Investment Fund XXVI, LLC., a non-insurance affiliate incorporated in California. In accordance with SSAP No. 4 – Assets and Nonadmitted Assets, this investment is reported as other invested assets in the Company's statutory-basis financial statements (see Schedule BA). This investment is reported on the equity basis as prescribed in the *Accounting Practices and Procedures Manual* of the NAIC *(s*ee Notes 21.C.1 and 9.D).

- The Company owns a 99.0% interest of the Solar Eclipse Investment Fund XXX, LLC., a non-insurance affiliate incorporated in California. In accordance with SSAP No. 4 – Assets and Nonadmitted Assets, this investment is reported as other invested assets in the Company's statutory-basis financial statements (see Schedule BA). This investment is reported on the equity basis as prescribed in the *Accounting Practices and Procedures Manual* of the NAIC *(s*ee Notes 21.C.1 and 9.D)

- The Company owns a 99.0% interest of the Solar Eclipse Investment Fund XXXIV, LLC., a non-insurance affiliate incorporated in California. In accordance with SSAP No. 4 – Assets and Nonadmitted Assets, this investment is reported as other invested assets in the Company's statutory-basis financial statements (see Schedule BA). This investment is reported on the equity basis as prescribed in the *Accounting Practices and Procedures Manual* of the NAIC. *(s*ee Notes 6.B, 9.D and 21.C.1).

- The Company owns a 100% interest of the USB RETC Fund 2018-13, LLC, a non-insurance affiliate incorporated in Delaware. In accordance with SSAP No. 4 – Assets and Nonadmitted Assets, this investment is reported as other invested assets in the Company's statutory-basis financial statements (see Schedule BA). This investment is reported on the equity basis as prescribed in the *Accounting Practices and Procedures Manual* of the NAIC *(s*ee Notes 6.B and 21.C.1).

- Investments in limited partnerships (see Note 6) are valued by using the Generally Accepted Accounting Principles equity method of accounting.

- The Company has no investments in derivatives.

- The Company may enter into repurchase agreements in which it borrows cash by providing certain underlying securities as collateral for the arrangement. The cash borrowed is invested in cash equivalents and an offsetting liability is established. The cash equivalent investment maturities and the term of the borrowing arrangement on the collateralized securities match, eliminating duration risk exposure to the Company. The Company did not have any open repurchase agreements at December 31, 2018 and December 31, 2017.

- The Company may enter into reverse repurchase commitment transactions. In these transactions, the Company loans cash to an accredited bank and receives U.S. Treasury Notes pledged as general collateral against the cash borrowed. The Company chooses to enter into these transactions as rates on general collateral are more attractive than other short-term rates available in the market. The Company's exposure to credit risk is limited, as these internally managed transactions are typically overnight arrangements. The income generated on these transactions is calculated at the then applicable general collateral rates on the value of U.S. Treasury securities received. The Company has counterparty exposure on reverse repurchase agreements in the event of a counterparty default to the extent the general collateral security's value is below the cash which was delivered to acquire the collateral. The short-term duration of the transactions (primarily overnight investing) reduces that default exposure**.** The Company did not have any open reverse repurchase commitment transactions at December 31, 2018 and December 31, 2017 (see Note 5.G).

- Realized gains and losses on sales of securities are computed based on the first-in, first-out method.

- The Company's management routinely monitors individual securities in its investment portfolio for pricing changes that might indicate potential impairments and performs detailed reviews of securities with unrealized losses based on predetermined guidelines to determine whether a decline in the value of a security is other-than-temporary. A review for OTTI requires making certain judgments regarding the materiality of the decline, its effect on the financial statements, the probability, extent, and timing of a valuation recovery, and the Company's ability and intent to hold the security. The scope of this review is broad and requires a forward-looking assessment of the fundamental characteristics of a security, as well as the market-related prospects of the issuer and its industry.

  Management assesses valuation declines to determine the extent to which such changes are attributable to (i) fundamental factors specific to the issuer, such as financial conditions, business prospects or other factors, or (ii) market-related factors such as interest rates or equity market declines (i.e., negative returns at either a sector index level or the broader market level), or (iii) credit-related losses where the present value of cash flows expected to be collected are lower than the amortized cost basis of the security (includes only those securities covered under SSAP No. 43R). This evaluation reflects management's assessment of current conditions, as well as predictions of uncertain future events that may have a material effect on the financial statements related to security valuation.

  When persuasive evidence exists that causes management to conclude that a decline in fair value is other-than-temporary, the book value of such security is written down and recognized as a realized loss. All other unrealized gains or losses are reflected in statutory surplus.

Real Estate, Electronic Data Processing Equipment, and Furniture and Equipment Fixtures

- Company occupied real estate is reported at book/adjusted carrying value, less any related encumbrances. For property held for sale (see Schedule A, Part 1), the Company reports at the lower of book/adjusted carrying value or fair market value, less any related encumbrances. For properties intended for a unique, highly specialized purpose, such as the Company's data centers and service centers, the Company reports book/adjusted carrying value, less any related encumbrances.

  For properties held for sale, the Company engages the services of independent firms or their internal real estate department to issue summary reports indicating the properties' fair market value. The valuations are completed using various methods of valuation including the cost approach, sales comparison approach, or income approach. For occupied properties, the Company uses book/adjusted carrying value to report fair market value.

  All real estate except land is depreciated over its estimated useful life using the straight-line method.

- Electronic data processing equipment and furniture and equipment are reported at depreciated cost and are depreciated over the estimated useful lives of the assets using accelerated methods for computers and the straight-line method for furniture and equipment. The resulting net book value of furniture and equipment is nonadmitted. Application software is capitalized and depreciated over its estimated useful life using the straight-line method, and the resulting net book value is nonadmitted.

Loss, Loss Adjustment Expense, and Premium Deficiency Reserves

- Loss reserves represent the estimated liability on claims reported to the Company, plus reserves for losses incurred but not yet reported ("IBNR"). These estimates are reported net of amounts recoverable from salvage and subrogation. LAE reserves represent the estimated expenses required to settle reported claims and IBNR losses. Such loss and LAE reserves could be susceptible to significant change in the near term. The Company conducts extensive reviews each month on portions of its business to help ensure that the Company is meeting its objective of always having reserves that are adequate with minimal variation. Results would differ if different assumptions were made (see Notes 25 and 33).

- The Company does anticipate investment income when evaluating the need for premium deficiency reserves (see Note 30).

Capitalization of Assets

- The Company has written capitalization policies for its various asset classes. There have been no changes to the predefined capitalization thresholds from the prior year. The Prepaid assets above a $100,000 threshold are capitalized. Under certain circumstances, the Company may decide to establish a prepaid expense for amounts less than the threshold. Prepaid assets are nonadmitted.

Pharmaceutical Rebate Receivables

- The Company does not write medical insurance or prescription drug coverage.

D. Going Concern

Management continuously monitors the Company's financial results and compliance with regulatory requirements and found no reason to expect the Company to not continue as a going concern.

1. The sources used to determine prepayment assumptions are derived from updated cash flows from widely utilized reputable industry sources. The Company's portfolio managers review the available cash flow data and prepayment assumptions and make adjustments based on current performance indicators on the underlying assets (e.g., delinquency rates, foreclosure rates, and default rates), credit support (via current levels of subordination), and historical credit ratings.

2. Intent to Sell or Inability to Hold Securities with a Recognized Other-Than-Temporary Impairment

Not Applicable

3. The Company has not recorded an other-than-temporary impairment for loan-backed and structured debt securities during the current year.

4. At the end of the reporting period, the composition of fair value and gross unrealized losses on loan-backed and structured debt securities by the length of time that individual securities have been in a continuous unrealized loss position is as follows:

a.	The aggregate amount of unrealized losses:	1. Less than 12 Months	$	6,464,160
		2. 12 Months or Longer	$	5,407,083
b.	The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	$	1,083,552,032
		2. 12 Months or Longer	$	263,831,088

5. Additional information

Under SSAP No. 43R, the Company analyzes its structured debt securities to determine if the Company intends to sell, or if it is more likely than not that the Company will be required to sell, the security prior to recovery and, if so, the Company writes down the security to its current fair market value with the entire amount of the write-down recorded as a realized loss. To the extent that it is more likely than not that the Company will hold the debt security until recovery (which could be maturity), the Company determines if any of the decline in value is due to a credit loss (i.e., where the present value of cash flows expected to be collected is lower than the amortized cost basis of the security) and, if so, the Company recognizes that portion of the impairment as a realized loss.

On December 22, 2017, legislation commonly known as the Tax Cuts and Jobs Act of 2017 (the "Tax Act"), was signed into law and was generally effective beginning January 1, 2018. The Tax Act made several changes to the loss discounting rules that insurance companies must apply to their loss and loss adjustment expense reserves for tax purposes. At December 31, 2017, the Company did not record any amounts related to these changes because the IRS had not yet determined the interest rate or the loss payment patterns that must be applied to make these calculations and the Company was unable to make a reasonable estimate of such amounts. In December 2018, the IRS published the loss payment patterns, interest rate, and discount factors which enabled us to compute the adjustments. As a result, the Company recorded an increase to the deferred tax asset for discounting of unpaid losses of $17,091,657 and an increase to the deferred tax liability for salvage and subrogation of $571,085. The net increase of $16,520,572 was offset by a deferred tax liability in the same amount for the transition adjustment required by the Tax Act, and therefore there was no net impact on deferred taxes.

D. Reconciliation of Federal Income Tax Rate to Actual Effective Rate Among the more significant book to tax adjustments were the following:

Description	Tax Effect Amount	Effective Tax Rate
Provision computed at statutory rate	$ 224,308,329	21.0%
Exempt interest income	(511,311)	0.0%
Dividends received deduction	(1,436,912)	-0.1%
Impact of nonadmitted assets	(3,218,032)	-0.3%
Intercompany dividend exclusion	(30,996,000)	-2.9%
Tax credits	(72,645,620)	-6.8%
Stock-based compensation	(11,607,672)	-1.1%
Other	(2,853,118)	-0.3%
Total	$ 101,039,664	9.5%
Federal and foreign income taxes incurred	$ 88,732,672	
Change in net deferred income tax	12,306,992	
Total statutory income taxes	$ 101,039,664	

The Company understands that the sponsor of three federal renewable energy tax credit funds in which the Company invested in from 2016 through 2018, along with the owners of the sponsor, are under investigation by federal authorities. The Company has also learned that the sponsor and certain related entities filed for bankruptcy protection in early February, 2019 and, since then, federal authorities filed a forfeiture action in federal court against certain real estate and related entities owned, directly or indirectly, by the sponsor's owners. The forfeiture action alleges that the sponsor and its owners engaged in fraud in connection with its operations and the establishment of certain tax credit funds. The Company's investment in these transactions generated approximately $150 million of tax benefits. The Company cannot predict if these matters will lead to an impact on the validity of any portion of these federal tax credits or require an additional write down on the related investments, which were valued at $24.3 million, in the aggregate, and reported as nonadmitted assets as of December 31, 2018. (see Notes 1.C, 6B, and 21.C.1).

E. Operating Loss Carryforwards and Income Taxes Available for Recoupment

1. During the reporting period, the Company did not have any unused operating loss carryforwards available to offset against future taxable income.

2. The following is income tax expense for current year and proceeding years that is available for recoupment in the event of future net losses:

Period	Amount
Current tax year:	$ 96,099,542
First preceding tax year:	$ 83,733,260

The amounts that can be recouped may be subject to the alternative minimum tax rules, and therefore may be limited.

The Company did not have any protective tax deposits under Section 6603 of the Internal Revenue Code.

F. Consolidated Federal Income Tax Return

1. The Company's Federal income tax return is consolidated with The Progressive Corporation ("TPC") and all its wholly-owned United States corporate subsidiaries. Effective 4/3/2018, ARX Holding Corp ("ARX"), a holding company incorporated in Delaware and its corporate subsidiaries also became members of TPC's consolidated federal income tax return filing group.

2. The method of allocation between the companies is subject to written agreement and is jointly approved by an officer of TPC and the Company. Intercompany tax balances are settled quarterly.

Note 20 – Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., U.S. government obligations, which are continually priced on a daily basis, active exchange-traded equity securities, and certain short-term securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly (e.g., certain corporate and municipal bonds and certain preferred stocks). This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect our subjective evaluation about the assumptions market participants would use in pricing the financial instrument (e.g., certain structured securities and privately held investments).

NOTES TO FINANCIAL STATEMENTS

See Note 1, Investment Policies section for further information regarding methods used to determine fair market value.

Determining the fair value of the investment portfolio is the responsibility of management. As part of the responsibility, management evaluates whether a market is distressed or inactive in determining the fair value for our portfolio. Management reviews certain market level inputs to evaluate whether sufficient activity, volume, and new issuances exist to create an active market. Based on this evaluation, management concluded that there was sufficient activity related to the sectors and securities for which we obtained valuations.

The valuations classified as either Level 1 or Level 2 in the table below are priced exclusively by external sources, including: pricing vendors, dealers/market makers, and exchange-quoted prices. The Company did not have any transfers between Level 1 and Level 2. At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

The following subprime disclosure and the review and procedures described within are completed at a consolidated level for all the Progressive companies. To the extent the Company had any direct subprime exposure, those securities would be listed in Note 21.F.3.

Management’s review of the investment portfolio for securities with direct subprime exposure, such as Alt-A residential mortgage loan-backed bonds and home equity loan-backed bonds is performed in conjunction with the OTTI analysis and procedures (see Note 1.C). Additionally, securities that were determined to have an indirect subprime exposure were also reviewed as part of the OTTI process.

The Company's management continues to perform a detailed review of its investment portfolio, paying particular attention to the credit profile of the issuers to identify the extent to which any asset values may have been impacted by direct or indirect exposure to the subprime mortgage loan disruption, as well as broader credit and financial market events.

For the Company's investment in Specialty, Gulf, and PC Investment Company (see Note 1.C), management's review uncovered no issues related to their exposure to subprime risk or that required recognition of losses that would have a significant effect on the financial strength and surplus of the Company.

In the reporting period, the Company recorded no OTTI write-downs on any securities as a result of direct subprime exposure.

Note 26 – Intercompany Pooling Arrangements

The Company participates in a pooling reinsurance agreement with the property-casualty affiliates listed below (the “Agency Pool”) under which 100% of the underwriting business of each member company, net of external reinsurance, is ceded to the Company, the Agency Pool manager and an Agency Pool participant. The combined premiums, losses, and expenses are then retroceded to each Agency Pool member based on pre-determined pooling percentages.

Progressive Hawaii Insurance Corp. (“Hawaii”), an insurance affiliate domiciled in Ohio and National Continental Insurance Company (“National Continental”), an insurance affiliate domiciled in New York, terminated their future participation in the Agency Pool effective November 5, 2005 and January 1, 1996, respectively. Hawaii and National Continental have zero percent retrocession participation in the Agency Pool for all policies written prior to the dates listed above.

Effective January 1 , 2019, The Company's pooling reinsurance agreement with property-casualty affiliates was amended to include Progressive Freedom Insurance Company (See Note 22).

Note 33 – Asbestos/Environmental Reserves

Because the Company is primarily an insurer of motor vehicles, it has limited exposure for asbestos and environmental claims. In accordance with disclosure requirements, the amounts reported for direct, assumed, and net below reflect the Company's pooled share (see Note 26) of the Agency Pool's exposure to asbestos and environmental claims. The Agency Pool's exposure arises from the Company's participation in various reinsurance pools from 1972 to 1975, which underwrote general liability insurance, the Company's aggregate stop loss reinsurance agreement with Max for various reinsurance pools from 1972 to 1974, Progressive American Insurance Company's, an insurance affiliate domiciled in Ohio and Agency Pool member, exposure from a limited number of general liability policies issued from 1972 to 1975, and the Company's aggregate stop loss reinsurance agreement with National Continental for general liability business written on or before November 25, 1985. During 2018, the Company and Max entered a commutation agreement to commute various reinsurance pool reserves from 1965 to 1975. (see Note 10.F and 26).

The Company records case and DCC reserves based on financial information received from the various external reinsurance pool managers. IBNR reserves are established based on previous experience.
