NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory financial statements of Medical Mutual of Ohio (the Company) have been prepared in conformity with the National Association of Insurance Commissioners’ (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP), as prescribed by the Ohio Department of Insurance (ODI). No accounting practices were employed by the Company in 2018 or 2017 that departed from NAIC SAP.

B. Use of Estimates in the Preparation of the Financial Statement

The preparation of the statutory financial statements requires management to make estimates and assumptions that affect amounts reported in the statutory financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known which could impact the amounts reported and disclosed herein.

C. Accounting Policy

Basis of Presentation

Statutory accounting practices vary from U.S. generally accepted accounting principles (GAAP). The more significant variances from GAAP are as follows:

Real Estate

Real estate is reported at cost, net of accumulated depreciation. The cost of the property included in the real estate investment, other than land, is depreciated on a straight-line basis over the estimated useful life of the building which the Company has estimated to be 35 years. Depreciation expense is included in investment expense. The Company includes in both income and expense an amount for rent relating to the real estate. The amount recorded is at a rate comparable to rental rates of like property in the same area. For GAAP, no rental income or expense is recognized.

Nonadmitted Assets

Certain assets designated as “nonadmitted,” principally deferred taxes, furniture and equipment, electronic data processing equipment and software, certain accounts receivables, prepaid expenses, and other assets not identified as an admitted asset in the NAIC’s *Accounting Practices and Procedures Manual*, are excluded from the statutory statements of admitted assets, liabilities and surplus and are charged directly to surplus. In accordance with GAAP, such assets are included in the balance sheet, net of a valuation allowance, if necessary. Surplus was reduced by nonadmitted assets of \$36,562,000 and \$31,230,000 at December 31, 2018 and 2017, respectively.

Guarantee Fund Premium Tax Assets

The Company recognizes premium tax assets that are recoverable in excess of one year if the credits are due to the insolvency of a writer of long-term care contracts. For GAAP, the Company is only permitted to recognize premium tax assets that are recoverable in the next calendar year as credits against taxes owed on premiums earned in the current calendar year.

Deferred Acquisition Costs

The costs of acquiring and renewing business are expensed as incurred. During 2017, \$11,138,000 of acquisition costs related to a prior acquisition were recognized in the statutory statement of revenues and expenses. No amounts were recognized in 2018. For GAAP, such costs are capitalized and charged to expense in proportion to the premium revenue recognized.

Deferred Income Taxes

On December 22, 2017, H.R. 1 (formerly known as The Tax Cuts and Jobs Act and referred throughout as the Act) was signed into law. The Act contained significant changes to the corporate income tax system in the U.S. The most significant tax law implications were the reduction of the corporate income tax rate to 21 percent and the repeal of the corporate Alternative Minimum Tax (AMT).

The Company computes deferred income taxes in accordance with Statement of Statutory Accounting Principle (SSAP) No. 101, *Income Taxes*. Under SSAP No. 101, gross deferred tax assets are reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more-likely-than-not that some portion or all of the gross deferred tax assets will not be realized to calculate the adjusted gross deferred tax assets.

Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company includes many factors, including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of reversal; (4) taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards; (5) the length of time that carryovers can be used; (6) unique tax rules that would impact the utilization of the deferred tax assets; (7) any tax planning strategies that the Company would employ to avoid a tax benefit expiring unused.

Admitted adjusted deferred income tax assets are limited to (1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with the Internal Revenue Service tax loss carryback provisions, not to exceed three years, plus (2) the amount of adjusted gross deferred income tax assets expected to be realized within three years limited to an amount that is no greater than 15% of current period’s adjusted statutory surplus, plus (3) the amount of remaining adjusted gross deferred income tax

**NOTES TO FINANCIAL STATEMENTS**

assets that can be offset against existing gross deferred income tax liabilities after considering the character (i.e., ordinary versus capital) and reversal patterns of the deferred tax assets and liabilities. The remaining adjusted deferred income tax assets are nonadmitted.

Under GAAP, a deferred income tax asset is recorded for the amount of gross deferred income tax assets expected to be realized in all future years, and a valuation allowance is established for deferred income tax assets not realizable.

**Reinsurance**

Unpaid claims liability ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

**Transitional Reinsurance**

Unpaid claim liabilities ceded to U.S. Department of Health and Human Services (HHS) in accordance with the ACA's Transitional Reinsurance Program have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

**Statutory Statements of Cash Flow**

Cash and short-term investments in the statutory statements of cash flow represent cash balances and investments with initial maturities of one year or less. In accordance with GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

**Other significant accounting policies are as follows:**

***Invested Assets***

U.S. government securities and corporate bonds not backed by other assets are recorded at amortized cost using the interest method or fair value based on their NAIC rating. Single class mortgage-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys or internal estimates and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities held. The fair values disclosed for these securities are obtained from independent pricing services.

Common stocks are recorded at fair value as determined by the Securities Valuation Office of the NAIC. Related unrealized capital gains or losses are reported as an adjustment to surplus, net of federal income taxes.

***Other-Than-Temporary Impairment***

The Company reviews the values of the Company's investments on a quarterly basis. If the value of the investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the following is considered:

- The length of time and the extent to which the fair value has been less than the amortized cost basis.
- The Company's ability and intent to hold the security long enough for it to recover its value.
- A significant deterioration in the earning performance, credit rating, asset quality or business prospects of the investee.
- A significant adverse change in the regulatory, economic, or technological environment of the investee.
- Factors that raise significant concerns about the investee's ability to continue as a going concern such as negative cash flows from operations, working capital deficiencies, or noncompliance with statutory capital requirements or debt covenants.

***Fair Value Measurements***

Assets recorded in the statutory statements of admitted assets, liabilities and surplus are categorized based on the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

Level 1	Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.
Level 2	Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.
Level 3	Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

***Other Invested Assets***

Other invested assets include investments in limited partnerships, assets associated with a non-qualified benefit plan, and other invested assets included a health and wellness trust.

***Contingent Consideration***

The Company recognizes contingent consideration in the period incurred based on the contractual obligation.

***Federal Medical Loss Ratio Rebate***

The Company is subject to the Affordable Care Act (ACA), which requires the payment of rebates to eligible policyholders or enrollees when the amounts paid for healthcare benefits and quality improvement initiatives fall below specified thresholds. Separate calculations are performed for each state and by group size (individual, small group, large group and Medicare Advantage). At December 31, 2018 and 2017, no liabilities were recognized on the accompanying statutory statements of admitted assets, liabilities and surplus as the calculated amounts exceeded the applicable thresholds.

**NOTES TO FINANCIAL STATEMENTS**

**Premiums**

Premiums are earned and recorded, net of amounts assumed and ceded under reinsurance agreements, pro rata over the period for which coverage is provided. Uncollected premiums include uncollected amounts from insured individuals and groups and are reported net of an allowance for amounts deemed uncollectible. Premium payments received prior to the period of coverage are classified as advance premiums.

The Company's Medicare Advantage premium revenues are subject to periodic adjustment under the Centers for Medicare & Medicaid Services' (CMS) risk adjustment payment methodology. CMS deploys a risk adjustment model that apportions premiums paid to all health plans according to health severity and certain demographic factors. The CMS risk adjustment model provides higher per member payments for enrollees diagnosed with certain conditions and lower payments for enrollees who are healthier. Under this risk adjustment methodology, CMS calculates the risk adjusted premium payment using diagnosis data from hospital inpatient, hospital outpatient and physician treatment settings. The Company and health care providers collect, capture and submit the necessary and available diagnosis data to CMS within prescribed deadlines. Risk adjustment data for certain plans of the Company are subject to review by the government, including audit by regulators. See Note 16 for additional information regarding these audits.

**Medicare Part D Pharmacy Benefits**

The Company serves as a plan sponsor offering Medicare Part D prescription drug insurance coverage under contracts with CMS. Under the Medicare Part D program, there are seven separate elements of payment during the plan year. These payment elements are as follows:

- *CMS Premium.* CMS pays a fixed monthly premium per member to the Company for the entire plan year.
- *Member Premium.* Additionally, certain members pay a fixed monthly premium to the Company for the entire plan year.
- *Low-Income Premium Subsidy.* For qualifying low-income members, CMS pays some or all of the member's monthly premiums to the Company on the member's behalf.
- *Catastrophic Reinsurance Subsidy.* CMS pays the Company a cost reimbursement estimate monthly to fund the CMS obligation to pay approximately 80% of the costs incurred by individual members in excess of the individual annual out-of-pocket maximum. A settlement is made with CMS based on actual cost experience, after the end of the plan year.
- *Low-Income Member Cost Sharing Subsidy.* For qualifying low-income members, CMS pays on the member's behalf some or all of a member's cost sharing amounts, such as deductibles and coinsurance. The cost sharing subsidy is funded by CMS through monthly payments to the Company. The Company administers and pays the subsidized portion of the claims on behalf of CMS, and a settlement payment is made between CMS and the Company based on actual claims and premium experience, after the end of the plan year.
- *CMS Risk Corridor.* Premiums from CMS are subject to risk corridor provisions that compare costs targeted in the Company's annual bids by product and region to actual prescription drug costs, limited to actual costs that would have been incurred under the standard coverage as defined by CMS. Variances of more than 5% above or below the original bid submitted by the Company may result in CMS making additional payments to the Company or require the Company to refund to CMS a portion of the premiums it received. The Company estimates and recognizes an adjustment to net accident and health premiums earned related to the risk corridor payment settlement based upon pharmacy claims experience to date. The estimate of the settlement associated with these risk corridor provisions requires the Company to consider factors that may not be certain, including estimates of eligible pharmacy costs and member eligibility status differences with CMS. The Company records risk corridor adjustments to net accident and health premiums earned in the statutory statements of revenue and expenses.
- *Coverage Gap Discount Program.* Health Reform Legislation mandated a consumer discount on brand name prescription drugs for Medicare Part D plan participants in the coverage gap. This discount is funded by CMS and pharmaceutical manufacturers while the Company administers the application of these funds. Accordingly, amounts received are not reflected as premium revenues, but rather are accounted for as deposits.

The CMS Premium, the Member Premium and the Low-Income Premium Subsidy represent payments for the Company's insurance risk coverage under the Medicare Part D program and, therefore, are recorded as net accident and health premiums earned in the statutory statements of revenue and expenses. Premiums are recognized ratably over the period in which eligible individuals are entitled to receive prescription drug benefits. The Company records premium payments received in advance of the applicable service period in advanced premiums in the statutory statements of admitted assets, liabilities and surplus.

The Catastrophic Reinsurance Subsidy and the Low-Income Member Cost Sharing Subsidy (Subsidies) represent cost reimbursements under the Medicare Part D program. Amounts received for these Subsidies are not reflected as net accident and health premiums earned, but rather are accounted for as receivables and/or deposits.

Pharmacy benefit costs and administrative costs under the contract are expensed as incurred and are recognized in net accident and health benefits and general administrative expenses, respectively, in statutory statements of revenue and expenses.

The final 2018 risk corridor amount is expected to be settled during the second half of 2019, and is subject to the reconciliation process with CMS.

**Uncertain Tax Policies** The Company records uncertain tax positions on the basis of a two-step process whereby (1) the Company determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, the Company recognizes the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority.

Changes to liabilities for uncertain tax positions are recorded as income tax expenses in the accompanying statutory statement of revenue and expense. The total liability for uncertain tax positions at December 31, 2018 and 2017 was \$8,647,000 and \$8,470,000, respectively, included in current federal income tax payable in the statutory statements of admitted assets, liabilities and surplus. The Company does not expect any

**NOTES TO FINANCIAL STATEMENTS**

significant changes in its liability for uncertain tax positions in 2019.

**Employee Benefits**

The Company computes the funded status (i.e., the difference between the fair value of plan assets and the projected benefit obligations) of employee benefit plans in accordance with SSAP No. 92, *Accounting for Postretirement Benefits Other Than Pensions* and SSAP No. 102, *Accounting for Pensions* in the accompanying statutory statement of admitted assets, liabilities and surplus, with corresponding adjustments to surplus.

**Health Insurer Fee**

The Company is subject to a mandatory annual non tax-deductible assessment on health insurers imposed by the ACA. The Company estimates the expense for the Health Insurer Fee based upon the preceding year's ratio of the Company's applicable net written premium compared to the U.S. health insurance industry total applicable net written premium. The Company reclassifies from unassigned surplus to special surplus the estimated assessment amount for the subsequent year. H.R. 195, Division D – Suspension of Certain Health-Related Taxes, § 4003, suspended the Health Insurer Fee for 2019. Therefore, no amounts were reclassified to special surplus at December 31, 2018.

**ACA Risk Adjustment Program**

The ACA authorized a permanent risk adjustment program designed to transfer funds from qualified individual and small group plans with below average risks scores to those respective plans with above average risk scores. The estimates of amounts owed or due from the ACA risk adjustment program is required to be reflected as an adjustment to earned premium if sufficient data is available to make an estimate. The Company accounts for the Premium Stabilization Program in accordance with SSAP No. 107, *Accounting for the Risk-Sharing Provisions of the Affordable Care Act*.

In 2018, the Company recognized \$13,704,000 in net risk adjustment, of which \$4,880,000 of income related to the 2018 program year, and income of \$8,824,000 related to the prior program years as the final settlement was favorable to the estimate recorded in the 2017 statutory financial statements.

In 2017, the Company recognized \$5,742,000 in net risk adjustment, of which \$53,000 of expense related to the 2017 program year and income of \$5,795,000 related to the 2016 program year, as the payments exceeded the estimate recorded in the 2016 statutory financial statements.

(1) **Basis for Short-Term Investments**

Short-term investments, principally money market accounts, include investments with remaining maturities of one year or less at the time of acquisition and are principally stated at amortized cost, which approximates fair value.

(2) **Basis for Bonds and Amortization Schedule**

Investments in bonds are reported at amortized cost or fair value based on their NAIC rating; for GAAP, such fixed maturity investments are held as available-for-sale and are reported at fair value with unrealized holding gains and losses reported as a separate component of surplus. All single class and multiclass mortgage-backed securities (MBSs) (e.g., collateralized mortgage obligations (CMOs) are adjusted for the effects of changes in prepayment assumptions on the related accretion of discount or amortization of premium of such securities using either the retrospective or prospective methods. If it is determined that a decline in fair value is other than temporary, the cost basis of the security is written down to the undiscounted estimated future cash flows. For GAAP purposes, all securities purchased or retained that represent beneficial interests in securitized assets (e.g., CMO and MBS securities), other than high credit quality securities, are adjusted using the prospective method when there is a change in estimated future cash flows. If high credit quality securities are adjusted, the retrospective method is used. If it is determined that a decline in fair value is other than temporary, the cost basis of the security is written down to the discounted fair value.

Under statutory accounting, a realized loss is recorded upon the sale of an investment at a loss or when a decline in the fair value of an investment is determined by management to be other than temporary. Realized capital gains and losses are determined on the first-in, first-out cost method.

For GAAP, if a decline in the fair value is other than temporary, the difference between the security's fair value and carrying value (amortized cost) must be realized in earnings if the Company has the intent to sell the security or does not have the intent and ability to hold the security until recovery of the carrying value. If the Company does not intend to sell the security and it is more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the other-than-temporary impairment (OTTI) would be separated into (a) the amount representing the credit loss and (b) the amount related to all other factors. The amount of the total OTTI related to the credit loss would be recognized in earnings. The amount of the total OTTI related to other factors would be recognized in other comprehensive income.

(7) **Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities**

The accounts and operations of the Company's subsidiaries are not consolidated with the accounts and operations of the Company as would be required by GAAP. The investment in Medical Mutual Services, LLC (MMS) is carried at its audited GAAP equity value. The Company's investments in Medical Health Insuring Corporation of Ohio (MHICO), Consumers Life Insurance Company (CLIC) and Superior Dental Care Alliance, Inc. (SDCA) are carried at their audited statutory surplus values. The changes in equity in the undistributed income or losses of subsidiaries are charged or credited directly to surplus. Distributed income of the subsidiaries is recognized in net investment income when the dividend is declared.

**NOTES TO FINANCIAL STATEMENTS**

(8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities

Investments in limited partnerships are recorded in other invested assets. These investments are based on the Company's interest in the underlying audited GAAP equity of the investee. Undistributed earnings and losses of the investee are accounted for as changes in unrealized gains and losses. Under GAAP, these earnings would be accounted for as an equity method investment and flow through net income.

(9) Accounting Policies for Derivatives

Not Applicable.

(10) Anticipated Investment Income Used in Premium Deficiency Calculation

The Company considers anticipated net investment income as a factor in determining the premium deficiency reserve amount.

(11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses for A&H Contracts

Unpaid claims and claims adjustment expenses represent management's best estimate of the ultimate net cost of all reported and unreported claims, less the estimated amount recoverable from claim overpayments and subrogation. The unpaid claims liability is actuarially estimated based on a review of historical claim payment patterns and claim trends. The estimates are subject to the effects of trends in claim severity and frequency, and a reasonable provision for adverse development has been incorporated in management's best estimate. Although considerable variability is inherent in such estimates, management believes that the amounts reported for unpaid claims and claims adjustment expenses are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.

A. Statutory Purchase Method

Effective August 31, 2018, MMO entered into an acquisition agreement with SDCA to be the sole shareholder of SDCA, an Ohio corporation. Its wholly owned subsidiary is Superior Dental Care, Inc. (SDC), an Ohio corporation. SDCA provides administrative services to self-insured dental plans. SDC is an Individual Practice Association prepaid dental plan. SDCA and SDC operate under the trade names Superior Dental Care Alliance and Superior Dental Care, respectively. In conjunction with the acquisition, liabilities assumed were \$5,428,000.

The transaction was accounted for as a statutory purchased, and reflects the following:

	2. 12 Months or Longer	\$ 8,755,800
b. The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$ 5,118,873
	2. 12 Months or Longer	\$ 278,404,814

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

The unrealized losses on bonds and common stocks have been reviewed for OTTI as of December 31, 2018. The Company has determined that the decline in value of bonds is principally the result of a general increase in interest rates and widening of credit spreads subsequent to the purchases of these securities and in the opinion of management is temporary. The Company does not intend to sell any of the bonds in an unrealized loss position, nor does the Company expect to be required to sell any of these investments prior to recovery of fair value or maturity. All of the fixed maturity securities in an unrealized loss position at December 31, 2018, are current with respect to required principal and interest payments.

As for the common stocks, the Company evaluated the near-term prospects of the issuers in relation to the severity and duration of the impairment. Based on that evaluation and the Company's ability and intent to hold these investments for a reasonable period of time sufficient for a forecasted recovery of fair value, the Company does not consider these common stock investments to be other-than-temporarily impaired at December 31, 2018.

**Note 9 – Income Taxes**

A. Deferred Tax Assets/(Liabilities)

The Company is taxed as a stock property and casualty insurance company and files a consolidated federal income tax return with certain subsidiaries. Certain subsidiaries of the Company are organized as single-member, limited liability companies (LLC) and accordingly taxable income or loss of these LLC subsidiaries are included in the tax provision of the Company, regardless of the level of income or loss of such subsidiaries recognized in the Statements of Operations.

Deferred income tax assets (DTAs) and liabilities (DTLs) represent the expected future tax consequences of temporary items with differences generated by statutory accounting as defined in SSAP No. 101. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a balance sheet approach whereby statutory and tax basis balance sheets are compared. Current federal income tax recoverables include all current income taxes, including interest, reasonably expected to be recovered in a subsequent accounting period. Current federal income tax payables include all current income taxes, including interest, expected to be paid in a subsequent accounting period.

Due to the 2017 enactment date of the Act, the Statement of Statutory Accounting Principles (SSAP No. 101-7c) requires the Company to re-measure DTAs and DTLs (as of December 31, 2017) based upon the new effective tax rate of 21 percent. The cumulate adjustment of the revaluation recognized in surplus in 2017 was \$56,362,000. All deferred tax assets and liabilities are now valued at 21 percent, thus there is no cumulative adjustment for the period ending December 31, 2018.

Prior to the Act, the Company had a full valuation allowance against AMT tax credits. These credits did not expire and had an unlimited carryforward period. The Company previously anticipated being in an AMT position in perpetuity and the realization of the credit carryforwards was unlikely and thus had a full valuation allowance recorded against the AMT credits. The Company’s strong earnings performance coupled with multiple years of utilizing AMT credits prompted the Company to reevaluate the valuation allowance on the AMT credits in 2017. The enactment of the Act strengthened the position to release the majority of the valuation allowance by providing a definitive monetization schedule. The monetization schedule, as outlined under IRC Section 53, states that AMT credits will first offset 100 percent of the current year tax liability and 50 percent of the remaining AMT credits will be refunded. This offset/ refund schedule applies for tax years 2018 – 2021. At the end of said period all AMT balances will have offset current taxes payable or will have been refunded. As of December 31, 2017 the AMT credits have realizable value resulting in the Company recording a deferred tax benefit of \$213,145,000 related to the reversal of the valuation allowance to surplus.

In 2017, pursuant to the requirements of the Balanced Budget and Emergency Deficit Control Act of 1985, these remaining credits were subject to a sequestration reduction rate of 6.6 percent. In December 2018, the Office of Management and Budget issued a formal directive to the U.S. Department of Treasury announcing its decision to rescind the sequestration of AMT credits. In response to this new directive, the Company released the valuation allowance for sequestration.

The Company paid federal income tax of \$14,983,000 during 2017. No amount was paid in 2018 due to the AMT credit offsets.

The Company is subject to federal income tax examinations by tax authorities for the years 2015 through 2018. 2014 and prior years are closed.

F. Consolidated Federal Income Tax Return

1. The Company's federal income tax return is consolidated with the following entities:

Medical Mutual of Ohio  
Medical Health Insuring Corporation of Ohio  
Consumers Life Insurance Company  
Medical Mutual Services, LLC  
Superior Dental Care Alliance, Inc

2. The manner in which the Board of Directors sets forth for allocating the consolidated federal income tax:

The Company is party to a written tax sharing agreement with its affiliates that specifies that each member pays taxes to or receives credits from the Company as if the member had filed a separate tax return. The payment is finalized for the tax year after the return is filed and/or after an IRS audit is completed. A member generating a taxable loss, or whose net operating losses (NOLs) or other tax attributes are utilized in the current year, or whose tax attributes are utilized, is compensated for such losses or attributes utilized in the year absorbed. The Company had a payable to (receivable from) subsidiaries related to the tax sharing agreement of \$9,408,000 and (\$10,844,000) at December 31, 2017 and 2018.

G. Federal or Foreign Federal Income Tax Loss Contingencies:

The Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

(2) The payment of each tax year's refund is received in the subsequent period with the final payment in 2022.

**Note 10 – Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties**

A - L

The Company is a mutual casualty insurance organization domiciled in Ohio. The Company provides commercial, Medicare Advantage (MA) and Medicare Supplement, accident and health plans to both individuals and employer groups in Ohio. The Company also provides stop loss coverage to uninsured accident and health plans. The Company's principal operating subsidiaries are MMS, a wholly owned subsidiary which provides claims processing and network access services to uninsured accident and health plans, third-party administrators, and other insurance companies; MHICO, a wholly owned stock casualty company; CLIC, a wholly owned life and accident and health insurance company; and SDCA, a wholly owned subsidiary which provides administrative services to self-insured dental plans. SDCA is the sole owner of its subsidiary, SDC, an Ohio domiciled dental insurance company.

The Company shares office facilities and personnel with its subsidiaries. Such shared costs are allocated between the Company and its subsidiaries based on the actual work performed for, and facilities utilized by, each entity. The Company also provided various services to its subsidiaries, including claims processing, membership, billing, payroll, customer service, information technology services and other administrative services. Charges for shared facilities and services totaled \$268,137,000 and \$240,154,000 in 2018 and 2017, respectively, and are reported as a reduction of expenses on the accompanying statutory statements of revenue and expenses. Amounts due to and from the Company and its subsidiaries are settled within 90 days.

During 2018 and 2017, CLIC provided life, accidental death and dismemberment, and long-term disability coverage to employees of the Company. Premiums paid by the Company to CLIC for such coverage totaled \$1,772,000 and \$1,573,000 for 2018 and 2017, respectively.

MMS provides access to the Company's Ohio provider networks through sales to unaffiliated third-party administrators, uninsured accident and health plans, and unaffiliated insurance companies. The Company receives no income from subsidiaries for access to the Company's provider network.

The Company also guarantees that MHICO will maintain minimum surplus in accordance with state laws. The Company made a cash capital contribution of \$10,000,000 to MHICO in 2018. No capital contributions were made in 2017.

**Note 12 – Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans**

A. Defined Benefit Plan

**Nonqualified Defined Benefit Pension Plans**

The Company sponsors a nonqualified defined benefit pension plan for specified independent members of the Board of Directors. The benefit is an annuity form of payment, based upon current compensation and years-of-service, and is limited to a maximum benefit period of 12 years. The accompanying statutory statements of admitted assets, liabilities and surplus include \$3,019,000 and \$3,284,000 at December 31, 2018 and 2017, respectively, in other liabilities related to this plan.

On April 1, 2017 the Company began sponsoring a nonqualified defined benefit pension plan for executive level employees. The plan provides a lump sum distribution upon retirement, based on a base salary calculation and the applicable vesting period. The accompanying statutory statements of admitted assets, liabilities and surplus includes a liability of \$1,018,000 and \$665,000 at December 31, 2018 and 2017, respectively, in accounts payable and accrued expenses related to this plan. Of the \$665,000 recorded in 2017, \$454,000 (\$359,000, net of tax) related to a cumulative adjustment as the plan was retroactively applied based on prior years of service.

**Postretirement Health and Life Insurance Plan**

The Company sponsors a postretirement plan (the Postretirement Plan) that provides certain health care and life insurance benefits for retired employees who have attained age 55 and have provided at least ten years of service. Postretirement health care is considered for employees hired on or before January 1, 2010. Retiree contributions, which vary by employee age, years of service at retirement and date of retirement, are made only by retirees utilizing these benefits. Retiree contributions are adjusted as the cost of health care changes. Effective January 1, 2016, a Health Reimbursement Arrangement (HRA) was provided to certain Medicare-eligible participants. The HRA amount is based on plan eligibility and is equal to the cap amount the participant previously received based on points at retirement or is allocated as a portion of their retiree health premium account balance. Postretirement life insurance is considered for all employees meeting retirement criteria.

(9) Accumulated Benefit Obligation for Defined Benefit Pension Plans

The accompanying statutory statements of admitted assets, liabilities and surplus include \$4,037,000 and \$3,949,000 at December 31, 2018 and 2017, respectively, in other liabilities related to defined benefit plans.

(10) For Postretirement Benefits Other Than Pensions, the Assumed Health Care Cost Trend Rate(s)

For measurement purposes, a 6.25% and 6.50% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2018 and 2017, respectively.

(11) Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one-percentage point change in assumed health care cost trend rates would have the following effects:

	1 Percentage Point Increase	1 Percentage Point Decrease
a. Effect on total of service and interest cost components	\$ 30,000	\$ (29,000)
b. Effect on postretirement benefit obligation	\$ 770,000	\$ (700,000)

E. Defined Contribution Plans

**Retirement Savings Plan**

The Company sponsors a retirement savings plan that consists of a defined contribution employee retirement savings plan (the 401(k) Plan) and a defined contribution retirement plan (the Horizons Plan).

The 401(k) Plan is available to employees. The Company contributes 100% of the first 3% and 50% of the next 2% of compensation that a participant contributes to the 401(k) Plan. Participants in the 401(k) Plan immediately vest in employer matching contributions. The Company's contributions to the 401(k) Plan totaled \$7,516,000 and \$6,776,000 for 2018 and 2017, respectively.

The Horizons Plan provides for a fixed contribution to eligible employees, calculated as a percentage of the employees' covered compensation. The fixed contribution is calculated using percentages ranging from 3% to 8%, based on an age plus years of service-graded scale. At December 31, 2018, the Company accrued \$12,957,000 for the fixed contribution relating to the 2018 plan year, which was subsequently paid in January 2019. At December 31, 2017, the Company accrued \$12,621,000 for the fixed contribution relating to the 2017 plan year, which was subsequently paid in January 2018. Amounts are included in accounts payable and accrued expenses in the statutory financial statements.

**Restoration Savings Plan**

The Company sponsors a funded, nonqualified deferred compensation plan (the Restoration Plan) for certain highly compensated employees and Directors participating in the nonqualified deferred compensation plan. The IRC currently limits the amounts the Company can pay to certain employees pursuant to the Horizons Plan and the 401(k) Plan. The Restoration Plan provides an additional contribution amount calculated as if those contributions were not limited. Director-level participation is limited to Horizons Plan contributions lost due to nonqualified deferred compensation. At December 31, 2018, the Company accrued \$1,441,000 related to the 2018 plan year, which is expected to be paid in 2019. At December 31, 2017, the Company accrued \$1,081,000 related to the 2017 plan year, which was paid in 2018. Amounts are included in accounts payable and accrued expenses in the statutory financial statements.

F. All Other Contingencies

Various lawsuits against the Company have arisen in the ordinary course of business. While the outcome of these matters cannot be predicted with certainty at this time, management believes they will not have a material adverse effect on the Company's financial position or results of operations.

The CMS uses a risk-adjustment model to determine premiums paid to MA plans according to the health status of covered members. Under the risk-adjustment methodology, all MA plans must collect and submit specified medical diagnosis code information from providers to CMS. This data is used to calculate the risk-adjusted premium payments to MA plans. The Company relies on providers to submit claims using proper coding practices and to appropriately document medical data. The Company conducts medical record reviews as part of our data and payment accuracy compliance efforts.

CMS has instituted risk adjustment data validation (RADV) audits to validate the coding practices and supporting documentation maintained by providers. If selected for audit, CMS could require the Company to refund premium payments if the Company's risk-adjusted premiums are not properly supported by medical record data. Currently, none of the Company's MA plans have been selected for audit. The Company is unable to predict if any of the Company's MA plans will be selected for future audit, or the amount of any retrospective or prospective MA premium adjustments that may result. Premium adjustments resulting from RADV audits could have a material adverse effect on the Company's operating results, financial position, and cash flows.

**Note 15 – Leases**

A. Lessee Operating Lease

(1) Lessee's Leasing Arrangements

The Company leases office space and computer equipment. Renewal options are available on the majority of leases and, under certain conditions; options exist to purchase equipment at the end of the lease term. Rental expense was \$7,702,000 and \$5,358,000 for 2018 and 2017, respectively.

During 2018, the Company has entered into a lease agreement for the new location of our operations facility in Brooklyn, Ohio. The initial term of sixteen years commences January 1, 2020 with an option to extend the lease.

On September 18, 2017, the Company purchased the office facilities and land of its headquarters, which was previously accounted for as part of the sell and leaseback transaction. With the purchase of the office facilities and land, the corresponding operating lease agreement was terminated, and the remaining deferred gain balance at the time of the transaction of \$3,311,000 was fully recognized.

The following is a summary of future minimum lease payments under noncancelable leases having initial or remaining terms in excess of one year at December 31, 2018:

(2) Leases with Initial or Remaining Noncancelable Lease Terms in Excess of One Year

a. At December 31, 2018 the minimum aggregate rental commitments are as follows:

Year Ending December 31	Operating Leases
1. 2019	\$ 5,194,000
2. 2020	\$ 2,857,000
3. 2021	\$ 3,514,000
4. 2022	\$ 3,318,000
5. 2023	\$ 3,082,000
6. Total	\$ 17,965,000

The minimum aggregate rental commitments for years thereafter are \$42,838,000 for the year ending December 31, 2018.

Note 20 – Fair Value Measurements

- A. Fair Value Measurements
- (1) Fair Value Measurements at Reporting Date

Level 1 fair values are based on quoted prices for identical assets in active markets. Other invested assets consist of mutual funds that are held in the Company’s nonqualified deferred benefit plans. The fair value measurements for other invested assets are also based on Level 1 inputs. If Level 1 valuations are not available, fair value is determined using models such as matrix pricing, which uses quoted market prices of fixed maturity securities with similar characteristics or discounted cash flows to estimate fair value. The Company does not have any assets carried at fair value based upon Level 2 or 3 inputs.

As the Company is responsible for the determination of fair value, it performs quarterly reviews of the prices received from its custodian. Specifically, the Company compares changes in the reported fair values and returns to relevant market indices to test the reasonableness of the reported prices. If further review is required, and also at year end, the Company will compare the prices received from its custodian to a secondary pricing source. The Company’s internal price verification procedures and review of fair value methodology documentation provided by its custodian’s independent pricing has not historically resulted in adjustment in the prices obtained from the custodian.

There were no transfers between Level 1, 2, and 3 during 2018 or 2017.

**Note 23 – Reinsurance**

A. Ceded Reinsurance Report

Certain premiums and benefits are ceded to other insurance companies under various reinsurance agreements. The ceded reinsurance agreements provide the Company with increased capacity to write larger risks and maintain its exposure to loss within its capital resources. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations.

The effects of reinsurance on earned premiums for the year ended December 31, 2018 and 2017 are as follows:

	Year Ended December 31	
	2018	2017
Direct accident and health insurance premiums	\$ 2,627,870,000	\$ 2,462,162,000
Assumed accident and health insurance premiums	8,210,000	8,137,000
Ceded accident and health insurance premiums	-	(30,000)
Net accident and health insurance premiums	\$ 2,636,080,000	\$ 2,470,269,000

**NOTES TO FINANCIAL STATEMENTS**

Differences between written and earned premiums subject to reinsurance are not significant.

**Section1 – General Interrogatories**

- (1) Are any of the reinsurers listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the company or by any representative, officer, trustee, or director of the company? Yes [ ] No [X]  
If yes, give full details.
- (2) Have any policies issued by the company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business? Yes [ ] No [X]  
If yes, give full details.

**Section 2 – Ceded Reinsurance Report – Part A**

- (1) Does the company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits? Yes [ ] No [X]  
a. If yes, what is the estimated amount of the aggregate reduction in surplus of a unilateral cancellation by the reinsurer as of the date of this statement, for those agreements in which cancellation results in a net obligation of the reporting entity to the reinsurer, and for which such obligation is not presently accrued? Where necessary, the reporting entity may consider the current or anticipated experience of the business reinsured in making this estimate. **\$0**  
b. What is the total amount of reinsurance credits taken, whether as an asset or as a reduction of liability, for these agreements in this statement? **\$0**
- (2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies? Yes [ ] No [X]  
If yes, give full details.

**Section 3 – Ceded Reinsurance Report – Part B**

- (1) What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the company may consider the current or anticipated experience of the business reinsured in making this estimate. **\$0**
- (2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the company as of the effective date of the agreement? Yes [ ] No [X]  
If yes, what is the amount of reinsurance credits, whether an asset or a reduction of liability, taken for such new agreements or amendments? **\$0**

Note 25 – Change in Incurred Losses and Loss Adjustment Expenses

- A. Change in Incurred Losses and Loss Adjustment Expenses

A \$45,575,000 redundancy in the December 31, 2017 reserves emerged in 2018, and a \$44,516,000 redundancy in the December 31, 2016 emerged in 2017. The redundancies resulted from differences in claims severity and utilization as compared to expectations. In addition, \$7,800,000 of the total 2017 redundancy was the result of favorable development of Health Care receivables, mostly the result of favorable pharmacy rebates and discounts. Also contributing was an increase in the coinsurance rate from 50.0% to 52.9%, resulting in a redundancy of \$3,116,000 for 2016 ACA transitional reinsurance.
