ANNUAL STATEMENT FOR THE YEAR 2018 OF THE BCS Insurance Company

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices and Going Concern

The accompanying financial statements of the Company have been prepared on the basis of accounting procedures prescribed or permitted by the Ohio Insurance Department. The state of Ohio requires insurance companies domiciled in the state of Ohio to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual subject to any deviations prescribed or permitted by the Ohio Insurance Department.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

C. Accounting Policy

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium is established to cover the unexpired portion of premiums written. Such reserves are computed by the pro rata method. Expenses incurred in connection with acquiring new insurance business (acquisition costs) are charged to operations as incurred. Net investment income consists primarily of interest and dividends. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed or otherwise disposed.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at cost, which approximates market.
2. Long-term bonds are generally stated at their amortized value using the scientific interest method. Non-investment grade securities with NAIC designations of 3 through 6 are stated at the lower of amortized value or fair value, with any unrealized losses recorded as a reduction to surplus. If a security is deemed to be other than temporarily impaired, it is written down to its fair value through a charge to earnings.
3. Common Stocks, other than investments in stocks of subsidiaries and affiliates, are stated at fair value.
4. Preferred Stocks - Not applicable
5. Mortgage Loans - Not applicable
6. Prepayment assumptions for loan-backed securities are obtained from broker dealer survey values or Bloomberg System. These assumptions are consistent with current interest rates and the economic environment. The retrospective scientific method is used to value all loan backed and structured securities.
7. Subsidiaries, Controlled and Affiliated Companies are on an equity basis.
8. Joint ventures, Partnerships and Limited Liability Companies are stated at fair value.
9. Derivatives - Not applicable
10. Anticipated investment income is a factor for premium deficiency reserves.

ANNUAL STATEMENT FOR THE YEAR 2018 OF THE BCS Insurance Company

NOTES TO FINANCIAL STATEMENTS

11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.

D. Loan-Backed Securities

1. Anticipated prepayments for loan-backed and structured securities are used to determine the effective yield of an issue at purchase. Changes in the estimated cash flows of the issue are incorporated when determining the statement value at the end of each quarter and year-end. The Company calculates prepayment speeds for fixed-rate agency mortgage-backed securities utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, the Company utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, the Company uses data from Reuters, which utilizes the median prepayment speed from contributors' models. These assumptions are consistent with the current interest rate and economic environment. The retrospective scientific method is used to value most loan-backed and structured securities. For structured securities deemed to be high-risk, meaning the Company might not recover substantially all of its recorded investment due to unanticipated prepayment events, changes in investment yields due to changes in estimated future cash flows are accounted for on a prospective basis.

2. The following table summarizes by quarter other-than-temporary impairments (OTTI) for loan-backed securities recorded during the year because the Company had either the intent to sell the securities or the inability or lack of intent to retain as cited in the table:

None

3. The following table summarizes other-than-temporary impairments (OTTI) for loan-backed and structured securities held at the end of the year recorded based on the fact that the present value of projected cash flows expected to be collected was less than the amortized cost of the securities:

None

NOTES TO FINANCIAL STATEMENTS

4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1. Less than 12 months	\$237,512
2. 12 Months or Longer	\$568,277

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months	\$24,847,850
2. 12 Months or Longer	\$18,987,217

5. The Company periodically reviews its bonds on a case by case basis to determine whether any decline in fair value below amortized cost is other than temporary. Factors considered when determining whether a decline is other than temporary include the length of time a security has been in an unrealized loss position, reasons for the decline in value, expectations for the amount and timing of a recovery in fair value, and whether or not the Company has the intent and ability to hold the security. When the Company intends to sell an impaired security or has the intent and ability to sell an impaired security before recovery of its amortized cost basis, an other than temporary impairment is recognized in the statutory statements of operations as the difference between the amortized cost basis of the security and fair value. For structured securities, a credit loss also exists when an estimate of the present value of cash flows expected to be collected on the security is less than its amortized cost basis. For other bonds, a credit loss exists when the fair value of the security is less than the amortized cost basis and based on analysis, the decrease in value is thought to be other than temporary. Credit losses are recognized in the statutory statements of operations.

Generally, securities with fair values that are less than 80% of cost, other securities the Company determines are underperforming, or potential problem securities are subject to regular impairment review. To facilitate the review, securities with significant declines in value, or where objective criteria evidencing credit deterioration have been met, are included on a watch list. Among the criteria for securities to be included on a watch list are: credit deterioration, which has led to a significant decline in value of the security; rating downgrades, a significant covenant related to the security has been breached; and an issuer has filed or indicated a possibility of filing for bankruptcy, has missed or announced it intends to miss a scheduled interest or principal payment, or has experienced a specific material adverse change that may impair its creditworthiness.

When performing these reviews, the Company considers the relevant facts and circumstances relating to each investment and exercises considerable judgment in determining whether a security is other than temporarily impaired. Assessment factors include judgments about an obligor's current and projected financial position, an issuer's current and projected ability to service and repay its debt obligations, the existence of, and realizable value of, any collateral backing the obligations, the macro economic outlook, and the micro economic outlook for specific industries and issuers. Assessing the duration of asset backed securities can also involve assumptions regarding underlying collateral, such as prepayment rates, default and recovery rates, and third party servicing capabilities.

Among the factors considered is whether the decline in fair value results from a change in the quality of the security itself, or from a downward movement in the market as a whole, the likelihood of recovering the carrying value based on the current and short term prospects of the issuer and the Company's ability and intent to sell the security before such a recovery may occur. Unrealized losses that are considered to be primarily the result of market conditions, such as increasing interest rates, unusual market volatility, or industry related events, and where the Company also believes there exists a reasonable expectation for recovery and, furthermore, has the intent and ability to hold the investment until maturity or the market recovery, are usually determined to be temporary. To the extent factors contributing to recognized other than temporary impairment losses affected other investments, such investments were reviewed for other than temporary impairment and losses were recorded when appropriate.

In addition to the review procedures described above, investments in structured securities where market prices are depressed are subject to a review of their future estimated cash flows, including expected and stress case scenarios, to identify potential shortfalls with regards to full recovery of amortized cost. Even in the case of severely depressed market values on structured securities, the Company places significant importance on the results of its cash flow testing and its intent to sell these securities prior to full recovery of amortized cost until their fair values recover when reaching other than temporary impairment conclusions. If amortized cost of the security is less than the present value of estimated cash flows, an other than temporary impairment is recognized in the statutory statements of operations.

If the Company does not expect to recover the amortized cost of nonstructured securities, an impairment loss is recognized as the difference between amortized cost and fair value under SSAP No. 26, Bonds, Excluding Loan Backed and Structured Securities. If the Company intends to sell an impaired loan backed or structured security or has the intent and ability to sell such a security before a period of time sufficient for recovery of the amortized cost basis, an other than temporary impairment has occurred and an impairment loss is recognized as the difference between amortized cost and fair value of the loan backed or structured security. If the Company does not expect to recover the amortized cost basis of loan backed or structured securities even if the entity has no intent to sell and the entity has the intent and ability to hold, an impairment loss is recognized as the difference between the amortized cost basis and the present value of cash flows expected to be collected. Impairment losses are recognized in the statutory statements of operations.

ANNUAL STATEMENT FOR THE YEAR 2018 OF THE BCS Insurance Company

NOTES TO FINANCIAL STATEMENTS

There are inherent uncertainties in assessing the fair values assigned to the Company's investments and in determining whether a decline in fair value is other than temporary. The Company's review of fair value involves several criteria including economic conditions, credit loss experience, other issuer specific developments, and future cash flows. These assessments are based on the best available information at the time. Factors such as market liquidity, the widening of bid/ask spreads, and a change in the cash flow assumptions can contribute to fair value volatility and uncertainty with regards to other than temporary impairment. If actual experience differs negatively from the assumptions and other considerations, realized losses may be recognized in the statutory statements of operations in future periods.

As of December 31, 2018, the Company does not intend to sell securities with unrealized losses not considered other than temporary prior to full recovery of amortized cost. However, if the specific facts and circumstances surrounding a security or the outlook for its industry sector change, the Company may sell the security and realize a loss in the period in which the decision to sell was made.

H.R. 1, formerly known as the Tax Cuts and Jobs Act was enacted December 22, 2017. Accordingly, the Company revalued its deferred tax inventory as of December 31, 2017 to reflect the lower tax rate. The Company recognized an additional tax expense of \$2,869 as of December 31, 2018 related to its return to provision true-up adjustments recorded during the year.

In computing taxable income, property and casualty insurance companies are allowed a deduction attributable to their unpaid losses and loss adjustment expenses. H.R.1 now requires that companies use the corporate bond yield curve as specified by the U.S. Treasury to discount unpaid losses, rather than the applicable federal mid-term rate under the prior law. The changes were effective for tax years beginning after 2017 and are subject to a transition rule that spreads the additional income liability (or benefit) over the subsequent years beginning in 2018. Pursuant to guidance released in INT 18-01, the Company was unable to make a reasonable estimate of any adjustment related to the changes in discounting methodology in its statutory financial statements as of December 31, 2017. Based on additional guidance released by the IRS, the Company recorded a \$129,643 net adjustment related to the change in its discounted loss reserves, which will be recognized over the subsequent eight years beginning in the current period.

E. Operating Loss and Tax Credit Carryforwards and Protective Tax Deposits

1. As of December 31, 2018 and December 31, 2017, the Company did not have any unused operating loss carryforwards available to offset against future taxable income.
2. The income tax expense of \$2,727,355 from 2018 and \$6,304,198 from 2017 is available for recoupment in the event of future net losses.
3. The reporting entity has a total of \$0 protective deposits which are on deposit with the Internal Revenue Service under Section 6603 of the Internal Revenue Service Code.

F. Consolidated Federal Income Tax Return

1. The Company's federal income tax return is consolidated with its parent, BCS Financial Corporation (BCSF).
2. The method of allocation between companies is subject to written agreement, approved by the Board of Directors. Intercompany tax balances are settled annually. Allocation is based upon separate return calculations, with credit for net losses being obtained when utilized.

G. Federal or Foreign Federal Income Tax Loss Contingencies

The Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

H. Repatriation Transition Tax (RTT)

10. Information Concerning Parent, Subsidiaries, Affiliates, and Other Related Parties

A. B. & C. Nature of Relationships

The Company is owned 100% by BCS Financial Corporation (BCSF). The Company has a management service agreement with BCSF. It shares common management, staff and facilities provided by BCSF with its other affiliates. Expenses identified as specific to a company are charged directly; all other expenses are charged in accordance with the service agreement.

A surplus note was acquired as of December 31, 2017 from Plans' Liability Insurance Company for the principal sum of \$22,000,000 borrowed and approved by the Insurance Director of Ohio for the purpose of providing additional surplus funds in cash. Interest shall be paid semi-annually in arrears on June 15 and December 15 in each year commencing June 15, 2018 at an annual rate of 6.50%. No payments of principal or interest on this note shall be repaid without the prior approval of the Director. The \$22,000,000 surplus note is recorded at line 8 as an other invested asset on the Assets page. The invested asset amount of \$5,836,000 was non-admitted as the note exceeded 6% of total admitted assets, per ORC 3925.0811. BCS Insurance Company, the note holder, is subordinated in all its rights and claims to policyholders' claims of all other creditors other than surplus note holders. No interest was accrued or paid in the current year.

The Company paid cash dividends to BCSF of \$14,500,000 and \$15,500,000 in 2018 and 2017, respectively.

The Company entered into a Reinsurance Assumption and Novation Agreement ("Novation Agreement") effective July 1, 2018 with Plans' Liability Insurance Company ("PLIC") and BCS Re Inc. ("BCS Re") whereby all of PLIC's reinsurance obligations to BCSI relating to a professional liability line of business were novated to BCS Re, an affiliate and wholly owned subsidiary of BCSF. BCS Re transferred \$58,562,116 as funds held to the Company in order to collateralize the reinsurance liabilities assumed under the Novation Agreement.

D. Amounts Due to or from Related Parties

20. Fair Value Measurements

A. Input used for assets measured and reported at Fair Value

1. Items measured and reported at Fair Value by Levels 1, 2, and 3

Statutory accounting principles define the fair value of a financial instrument as the amount at which that asset could be bought or sold in a current transaction between willing parties that is other than in a forced or liquidation sale. The fair value of a liability is the amount at which that liability could be incurred or settled in a current transaction between willing parties. Certain financial instruments and all nonfinancial instruments are excluded from statutory disclosure requirements. Therefore, the aggregate fair value amounts presented below do not represent the underlying fair value of the Company.

Fair values are based on quoted market prices when available. When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporation of current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Company estimates fair value using methods, models, and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment, which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology model or input used.

ANNUAL STATEMENT FOR THE YEAR 2018 OF THE BCS Insurance Company

NOTES TO FINANCIAL STATEMENTS

The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy as defined by SSAP No. 100, Fair Value Measurements. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

The levels of the fair value hierarchy are as follows:

Level 1 – Management's valuations are unadjusted quoted prices for identical, unrestricted assets and liabilities in active markets accessible at the measurement date. Since valuations are based on quoted prices that are readily available in an active market, valuation of these assets does not involve any meaningful degree of judgment. An active market is defined as a market where transactions for the financial instrument occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 financial assets and liabilities generally include common stocks and U.S. government debt securities, where management's valuations are based on quoted market prices.

Level 2 – Management's valuations are based on quoted prices where such markets are not deemed to be sufficiently "active." In such circumstances, additional valuations metrics will be used, which involve direct or indirect observable market inputs. Level 2 financial assets and liabilities generally include debt securities other than debt issued by the U.S. government. Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.

Level 3 – Management's valuations are based on inputs that are unobservable (supported by little or no market activity) and significant to the fair value measurement. Valuations under Level 3 generally involve a significant degree of judgment on the part of management.

Assets Measured at Fair Value

Certain financial assets are measured at fair value, such as certain bonds valued at the lower of cost or fair value, or investments that are impaired during the reporting period and recorded at fair value on the balance sheet at December 31, 2018. The following table summarizes assets measured at fair value:

Description of each class of assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value(NAV)	(Total)

Bonds measured at fair value are those bonds that were determined to be other-than-temporarily impaired at December 31, 2018 and bonds valued at the lower of cost or fair value at December 31, 2018. NAIC 3 – 6 rated bonds are valued at the lower of cost or market. The Company does not have any investment commitments at December 31, 2018.

2. Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

None

3. Policy on Transfers into and out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

4. Inputs and techniques used for level 2 and level 3 Fair Values

Bonds carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations as quoted markets prices for similar instruments in an active market were utilized. This was accomplished by the use of matrix pricing. Matrix pricing takes quoted prices of bonds with similar features and applies analytic methods to determine the fair value of bonds held. Features that are inputs into the analysis include duration, credit quality, tax status and call and sinking fund features.

ANNUAL STATEMENT FOR THE YEAR 2018 OF THE BCS Insurance Company

NOTES TO FINANCIAL STATEMENTS

Investments categorized as Level 3 had key unobservable inputs. Also, the investments are less liquid, and there is limited trading activity. The use of independent non-binding broker quotations to value investments generally indicates there is a lack of liquidity or the general lack of transparency in the process to develop the valuation estimates generally causing these investments to be classified in Level 3.

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancelable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.....
Yes [] No [X]

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.....
Yes [] No [X]

9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.....

9.4 Except for transactions meeting the requirements of paragraph 31 of SSAP No. 62R - *Property and Casualty Reinsurance*, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?.....
Yes [] No [X]

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.....

(b) Explanation of basis of allocation of premiums by states, etc.

See below footnote for allocation explanation.

For group accident and health business, BCS Insurance Company allocates premium by either the group situs state or by the insured member state depending upon the specific type of accident and health business. The group entity, usually an employer, that the policy is issued to and the insured member is the participant, usually an employee, to whom a certificate is issued to. For travel accident business, the premium is allocated by state based upon the insured state of residence. The insured is the individual that purchases the travel accident coverage through a particular entity. For professional liability business the premium is allocated by the group situs state. The group is a corporate entity that purchases the policy.
