## NOTES TO FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies and Going Concern

#### a. Accounting Practices

The Company's statutory financial statements are presented on the basis of accounting practices prescribed or permitted by the ODI. The NAIC Accounting Practices and Procedures Manual ("NAIC SSAP") has been adopted as a component of prescribed or permitted practices by the ODI. The ODI has adopted certain prescribed accounting practices that differ from those found in NAIC SSAP, specifically the timing of amounts released from the statutory premium reserve. The following reconciliation summarizes the difference in net loss and capital and surplus between NAIC SSAP and practices prescribed by the ODI as of December 31, 2018 and 2017.

	SSAP #	F/S Page	#	F/S Line	2018	2017

#### b. Use of estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with NAIC SAP, the NAIC Annual Statement Instructions, and other accounting practices as prescribed or permitted by the ODI requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### c. Accounting Policies

##### *Cash and Short-Term Investments*

The Company considers all highly liquid securities with original maturities of twelve months or less when purchased to be cash, cash equivalents and short-term investments. Short-term investments include securities with original maturities of greater than 90 days and twelve months or less. Cash and cash equivalents include money market instruments and highly liquid securities with original maturities of 90 days or less when purchased.

##### *Bonds*

Bonds are stated at amortized cost or at values prescribed by the NAIC, and any discounts or premiums are amortized using the scientific (constant yield) interest method. Bonds that are designated highest quality and high-quality (NAIC designations 1 and 2, respectively) are reported at amortized cost and all other bonds (NAIC designations 3 to 6) shall be reported at lower of amortized cost or fair value. For loan and asset-backed securities, the impacts of changes in expected cash flows, including the effect of updated prepayment assumptions, are recognized using the retrospective adjustment method. Under the retrospective method, the recalculated effective yield will equate the present value of the actual and anticipated cash flows with the original cost of the investment. The current balance is then increased or decreased to the amount that would have resulted had the revised yield been applied since inception, and investment income is correspondingly decreased or increased. Prepayment assumptions are reviewed quarterly using industry data, and are based on prepayment rates of the underlying loans.

Interest is recognized on the accrual basis. Realized capital gains and losses are calculated using the specific cost of the investments sold.

## NOTES TO FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies and Going Concern (continued)

#### c. Accounting Policies (continued)

The Company conducts a quarterly evaluation of declines in market value of the securities to determine whether the decline is other-than-temporary. If the market value of a security is below the cost basis, and it is judged to be other-than-temporary, the cost basis of the individual security is written down to market value through earnings as a realized loss, and the market value becomes the new basis. The Company's evaluation of market declines for other-than-temporary impairment is based on management's case-by-case evaluation of the underlying reasons for the decline in market value. The Company considers a wide range of factors about the security and uses its best judgment in evaluating the cause of the decline in the estimated market value of the security and in assessing the prospects for near-term recovery. Inherent in management's evaluation of the security are assumptions and estimates about the operations of the issuer and its future earnings potential. Considerations used by the Company in the impairment evaluation process include, but are not limited to: (i) the length of time and the extent to which the market value has been below cost or amortized cost; (ii) the potential for impairments of securities when the issuer is experiencing significant financial difficulties; (iii) the potential for impairments in an entire industry sector or sub-sector; (iv) the potential for impairments in certain economically depressed geographic locations; (v) the potential for impairments of securities where the issuer, series of issuers or industry has suffered a catastrophic type of loss or has exhausted natural resources; (vi) the Company's ability and intent to hold the security for a period of time sufficient to allow for the full recovery of its value to an amount equal to or greater than cost or amortized cost; and (vii) other subjective factors, including concentrations and information obtained from regulators and rating agencies. At December 31, 2018 and 2017, there were no taxes owed on realized gains. Unrealized gains and losses are recorded as increases or decreases, respectively, in unassigned surplus.

#### *Title Plants*

Title Plants consist of title records related to regions and are stated at cost. Expenses associated with current maintenance are charged to expense in the year incurred. Properly maintained title plants are not amortized because there is no indication of diminution in their value. The Company reviews title plants for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. As of December 31, 2018 and 2017, there was no impairment for Title Plants.

#### *Electronic Data Processing Equipment and Software*

Included in Other Assets at December 31, 2018 and 2017 is \$76,590 and \$187,900 of electronic data processing ("EDP") equipment and software, respectively, primarily related to computer equipment. EDP equipment and software are recorded at cost and depreciated using the straight-line method over the estimated useful life. Depreciation expense for EDP equipment and software amounted to \$112,230 and \$190,345 for 2018 and 2017, respectively. There has been no change in the EDP capitalization policy from the prior period. SSAP No. 16R, "*Electronic Data Processing Equipment and Software*", establishes a 3% of capital and surplus limit on admitted assets for EDP equipment. As of December 31, 2018 and 2017, all of the Company's EDP assets were reported as admitted assets. The Company reviews EDP equipment for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. As of December 31, 2018 and 2017, there was no impairment for EDP equipment.

#### *Revenue and Expense Recognition*

Premiums on title insurance policies issued by the Company, directly and through independent agents, are recognized as revenue when the Company is legally or contractually entitled to collect the premium. Premiums from title policies issued by the Company through independent agents are recognized and are recorded before the deduction of agent commissions and net of ceded premiums and changes in statutory premium reserves. Premium related expenses, including commissions and premium related taxes/assessments, are charged to operations, as incurred.

For the years ended December 31, 2018 and 2017, the Company had agent title insurance premiums earned of \$6,080,168 and \$5,353,150 net of premiums ceded and changes in statutory premium reserves of \$(34,604) and \$(3,393), respectively. Agent commissions were \$3,911,897 and \$3,506,077 for the years ended December 31, 2018 and 2017, respectively and are included in Operating expenses incurred on the Statement of Operations.

On March 26, 2018, the Company entered into an Agency Agreement and appointed Radian Settlement Services, ("RSS"), formerly known as ValuAmerica, as an agent. RSS is an affiliate of the Company and wholly owned subsidiary of Radian Group, Inc. RSS is authorized to issue commitments, policies, judicial reports, endorsements and other forms of

title evidence authorized by the Company, collectively "Title Assurances", on real estate located in 30 states and the District of Columbia. The Agency Agreement identifies Agent's commissions for each state ranging from 70% to 80%, with the majority of the commissions being at the 80% rate. For the year ending December 31, 2018, Affiliate Agent Premium Revenue and Commission were immaterial.

For the years ended December 31, 2018 and 2017, the Company had gross direct title insurance premiums earned of \$3,306,990 and \$4,147,128 respectively. Total direct premiums ceded and change in statutory premium reserves for the years ended December 31, 2018 and 2017 were \$(195,301) and \$(223,429), respectively. Net direct title insurance premiums earned were \$3,111,690 and \$3,923,699 respectively, for the years ended December 31, 2018 and 2017.

On June 22, 2018, the Company entered into dual Master Services Agreements (MSA's) with RSS. The Company will provide title search and underwriting services to RSS and receive support and facilitation services on title insurance policies from RSS. Fees for services are based upon approved pricing and can be changed upon mutual consent of the parties and approval from the Ohio Department of Insurance (ODI). The MSA's may be terminated without cause upon seven days written notice. For the period ending December 31, 2018, the Company billed \$15,878 for services provided and was invoiced \$123,369 for services received under the MSA's. The Company also provides escrow and settlement services related to residential purchase, sale, or refinancing transactions for which it is paid a fee. Revenues for such services are recognized upon settlement. In certain states that the Company operates, escrow and settlement service fees are prohibited from being collected and the cost of these services is part of an "All-Inclusive Premium." For the year ended December 31, 2018, the Company had gross All-Inclusive Premiums of \$8,317,857 that are included in premiums earned.

For premiums written in Ohio, Ohio insurance law requires the Company to establish an unearned premium reserve equal to 10% of the premium retained by the Company. The Company may release 0.5% of that which was added to the reserve during the previous 20 years. For all other states where the Company writes insurance, the Company follows the various state insurance department regulations when determining what statutory premium reserves are established.

Premiums on title insurance policies issued by the Company are recognized as revenue when the Company is legally or contractually entitled to collect the premium. Premiums from title policies issued by the Company through independent agents are recognized when the policies are reported by the agent.

#### *Losses and Loss Adjustment Expenses*

Generally, title insurance claim rates are lower than for other types of insurance because title insurance policies typically insure against prior events affecting the quality of real estate titles, rather than against unforeseen, and therefore less avoidable, future events. Claims payments generally result from either judgment errors or mistakes made in the title search and examination process or the escrow process, or from other problems such as fraud or incapacity of persons transferring property rights.

When a claim is reported, the Company establishes a "Known Claims" reserve on a case-by-case basis, based upon the best estimate of the total amount necessary to settle the claim and to provide for allocated loss adjustment expenses (LAE), including legal defense costs. The estimates are based on all information known to the Company and include consideration of all known legal issues. These reserves are periodically adjusted by management based on its evaluation of subsequent developments regarding the reported claim. Adjustments to these estimates are reported in current operations. Claims and expenses paid are charged against this reserve. While management believes the amount recorded is reasonable and adequate, the ultimate losses may vary from the estimated amount included in the statutory financial statements.

#### *Income Taxes*

Current income tax expense is reflected on the statement of operations while changes in DTAs and DTLs are recorded directly to statutory surplus.

The Company has a tax sharing allocation agreement with Radian and EDG for the years ending December 31, 2018 and 2017, respectively, for which the Companies file a consolidated federal income tax return. The agreement states that tax charges or refunds shall be recorded as if the Company had filed its federal income tax returns on a separate

return basis. The Company pays premium taxes on gross premiums written in lieu of most state income or franchise taxes. During 2018 and 2017, total premium taxes incurred amounted to \$241,216 and \$240,817, respectively and are included in Operating expenses incurred.

As of December 31, 2018, and 2017, the Company has not recognized a tax liability for uncertain tax positions. On December 22, 2017, the Tax Cuts and Jobs Act ("TCJA"), was signed into law. In February 2018, the NAIC SAP Working Group adopted Interpretation 18-01 ("INT 18-01"), which provided guidance on accounting for the tax effects of the TCJA including information relating to reporting and updating estimates, reporting changes to deferred tax assets and liabilities, and footnote disclosures. INT 18-01 stated that to the extent the Company's accounting for certain income tax effects of the TCJA were incomplete but the Company was able to determine a reasonable estimate, a provisional estimate must be recorded in the Company's financial statements during a period not to extend beyond one year of the enactment date. The Company completed its accounting in 2018 during the one-year measurement period and no adjustments to the Company's provisional estimates were required.

#### d. Loan –Backed Securities (continued)

5. In evaluating whether a decline in value is other-than-temporary, Company consider several factors, including, but not limited to the following:

- the extent and the duration of the decline in value;
- the reasons for the decline in value (credit event, interest related or market fluctuations);
- the financial position and access to capital of the issuer, including the current and future impact of any specific events;
- our intent to sell the security, or whether it is more likely than not that Company will be required to sell it before recovery; and
- The financial condition of and near-term prospects of the issuer.

A debt security impairment is deemed other-than-temporary if:

- Company either intend to sell the security, or do not have the ability to retain the security for a period of time sufficient to recover the amortized cost basis; or
- Company will be unable to collect cash flows sufficient to recover the amortized cost basis of the security.

Impairments due to deterioration in credit that result in a conclusion that the present value of cash flows expected to be collected will not be sufficient to recover the amortized cost basis of the security are considered other-than-temporary. Other declines in fair value (for example, due to interest rate changes, sector credit rating changes or company-specific rating changes) that result in a conclusion that the present value of cash flows expected to be collected will not be sufficient to recover the amortized cost basis of the security may also result in a conclusion that other-than-temporary impairment has occurred. To the extent Company determines that a security is deemed to be other-than-temporally impaired, an impairment loss is recognized.

### 6. Joint Ventures, Partnerships and Limited Liability Companies

The Company has no investments in Joint Ventures, Partnerships or Limited Liability Companies that exceed 10% of its admitted assets.

### 7. Investment Income

Investment income is recorded on the accrual basis of accounting with the appropriate adjustments made for amortization of premium and accretion of discounts relating to bonds and notes acquired at other than par value. Dividends on stocks are credited to income on the ex-dividend date. Realized gains or losses on disposition of securities owned are determined on a specific identification basis and are reflected in the statement of income. Unrealized investment gains or losses are credited or charged directly to unassigned surplus net of allowed deferred income taxes. At December 31, 2018, the Company had no bonds or note investments in default as to principal and/or interest. Excluding U.S. Government fixed maturity securities; the Company is not exposed to any significant concentration of credit risk.

## NOTES TO FINANCIAL STATEMENTS

### **10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties (continued)**

EIC advanced all costs to LLC under an intercompany agreement that establishes payment terms as soon as the property is sold, and proceeds collected.

In April of 2018 all the assets of the LLC were sold for approximately \$110K. The LLC's operating costs were recorded as an inter-company receivable on EIC's ledger and prior to being written off as a loss were non-admitted.

On March 29, 2018 and June 25, 2018, EDG contributed \$3MM and \$20MM to EIC respectively.

EDG made the following contributions to EIC which are recorded as type 1 subsequent events:

- In February 2017, EDG contributed \$1 million to EIC recorded as subsequent event type 1 as of December 31, 2016.
- In November 2017, EDG contributed \$1 million to EIC recorded as a subsequent event type 1 as of September 30, 2017.

On December 31, 2017, EDG entered into a definitive merger agreement with RTS and was effective March 27, 2018. The transaction was subject to certain closing conditions, including regulatory approval. Immediately following the closing of this transaction, the Company entered into a Loss Portfolio Transfer Reinsurance transaction with PartnerRe in which all policies issued by the Company and outstanding at the time will be 100% reinsured by a subsidiary of PartnerRe.

c. The Company provides title insurance on residential and commercial property in 39 states and the District of Columbia in which it holds certificates of authority. The Company provides title insurance policies as well as escrow and settlement services through a network of direct operations and independent agents.

## NOTES TO FINANCIAL STATEMENTS

### 23. Reinsurance

- a. *Unsecured Reinsurance Recoverable* – None
- b. *Reinsurance Recoverable in Dispute* – None
- c. *Reinsurance Ceded*

As is common in the insurance industry, the Company enters into excess of loss reinsurance arrangements, which allow management to control exposure to losses arising from large risks by ceding a portion of such risks to other insurers. Ceded reinsurance premiums, losses, and loss adjusted expenses (LAE) are accounted for on bases consistent with those used in accounting for the related original policies issued and the terms of the reinsurance contracts.

Reinsurance does not legally relieve the Company from its liability under the title insurance policies it issues, but it does make the assuming reinsurers liable to the Company for the reinsurance ceded. Therefore, the Company is subject to credit risk with respect to the obligations of its reinsurers. Though the Company regularly performs internal reviews of the financial strength of its reinsurers, any failure on the part of these reinsurers could have a material adverse effect on the Company's business, financial condition, and results of operations.

The Company's reinsurance agreement with a syndicate of Lloyd's of London, which is separate and apart from the Loss Portfolio Transfer reinsurance agreement that it entered into in March of 2018, provides for coverage on 100% of losses up to \$4,000,000 ultimate net loss, as defined, for each and every loss discovered on each policy in excess of \$1,000,000 ultimate net loss (the "Excess of Loss Reinsurance Agreement"). Total reinsurer liability under the Excess of Loss Reinsurance Agreement shall not exceed \$12,000,000 in all respects to the total of ultimate net loss and allocated LAE attributable to the reinsurance agreements. Premiums earned in 2018 and 2017 are net of ceded premium of \$206,195 and \$183,500, respectively.

- d. *Uncollected Reinsurance* – None
- e. *Commutation of Ceded Reinsurance* – None
- f. *Retroactive Reinsurance*

On March 27, 2018, the Company entered into a Loss Portfolio Transfer Reinsurance Agreement, with a former affiliate, PartnerRe Europe SE, in which all policies issued by the Company as of the effective date, subject to certain limitations, became 100% reinsured for consideration paid by the Company of \$4,231,821. The reinsurance agreement was classified as retroactive reinsurance and a contra liability reserve ("Reserve for Retroactive Reinsurance") was established equal to the total of the SPR and Known Claims Reserves of \$6,297,622 which represented the Company's liabilities for the reinsured policies as of the effective date of the agreement. The difference in the liability transferred and the consideration paid of \$2,065,801, was recorded as a gain from retroactive reinsurance on the statement of operations and the amount was transferred from unassigned deficit and restricted as Special surplus funds.

The Reserve for Retroactive Reinsurance is reduced for covered claims payments made by the Company as well as adjustments for changes in reserve estimates and SPR withdrawals. As of December 31, 2018, changes to the Retroactive Reinsurance Reserve included reimbursements of \$411,835 for claims paid, SPR withdrawals of \$411,853 and additional incurred losses of \$364,519. Other assets includes \$111,595 of paid losses that are expected to be reimbursed to the Company in accordance with the agreement. The Special surplus funds will be transferred into unassigned deficit when the actual retroactive reinsurance recovered exceeds the consideration paid.
