**NOTES TO FINANCIAL STATEMENTS****Note 1 – Summary of Significant Accounting Policies and Going Concern****A. Accounting Practices**

The accompanying statutory financial statements of the Medical Health Insuring Corporation of Ohio (the Company) have been prepared in conformity with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) as prescribed by the Ohio Department of Insurance (ODI). No accounting practices were employed by the Company in 2018 or 2017 that departed from NAIC SAP.

**B. Use of Estimates in the Preparation of the Financial Statement**

The preparation of the statutory financial statements requires management to make estimates and assumptions that affect amounts reported in the statutory financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known which could impact the amounts reported and disclosed herein.

**C. Accounting Policy****Basis of Presentation**

Statutory accounting practices vary from U.S. generally accepted accounting principles (GAAP). The more significant variances from GAAP are as follows:

**Nonadmitted Assets**

Certain assets designated as "nonadmitted", principally certain health care receivables, prepaid expenses and premiums in the course of collections over 90 days past due, not identified as an admitted asset in the NAIC's *Accounting Practices and Procedures Manual*, are excluded from the accompanying statutory statements of admitted assets, liabilities and capital and surplus and are charged directly to capital and surplus. In accordance with GAAP, such assets are included in the balance sheet, net of valuation allowance, if necessary. Capital and surplus was reduced by nonadmitted assets of \$1,119,000 and \$2,592,000 at December 31, 2018 and 2017, respectively.

**Deferred Acquisition Costs**

The costs of acquiring and renewing business are expensed as incurred. During 2017, \$338,000 of deferred acquisition costs related to a prior acquisition were recognized. No amounts were incurred in 2018. For GAAP, such costs are capitalized and charged to expense in proportion to the premium revenue recognized.

**Deferred Income Taxes**

On December 22, 2017, H.R. 1 (formerly known as The Tax Cuts and Jobs Act and referred throughout as the Act) was signed into law. The Act contained significant changes to the corporate income tax system in the U.S. The most significant tax law implications were the reduction of the corporate income tax rate to 21 percent and the repeal of the corporate Alternative Minimum Tax (AMT).

The Company computes deferred income taxes in accordance with Statement of Statutory Accounting Principle (SSAP) No. 101, *Income Taxes*. Under SSAP No. 101, gross deferred tax assets are reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more-likely-than-not that some portion or all of the gross deferred tax assets will not be realized to calculate the adjusted gross deferred tax assets.

Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company includes many factors, including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of reversal; (4) taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards; (5) the length of time that carryovers can be used; (6) unique tax rules that would impact the utilization of the deferred tax assets; (7) any tax planning strategies that the Company would employ to avoid a tax benefit expiring unused.

Admitted adjusted deferred income tax assets are limited to 1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with the Internal Revenue Service tax loss carryback provisions, not to exceed three years, plus 2) the amount of adjusted gross deferred income tax assets expected to be realized within three years limited to an amount that is no greater than 15% of current period's adjusted statutory capital and surplus, plus 3) the amount of remaining adjusted gross deferred income tax assets that can be offset against existing gross deferred income tax liabilities after considering the character (i.e., ordinary versus capital) and reversal patterns of the deferred tax assets and liabilities. The remaining adjusted deferred income tax assets are nonadmitted.

Under GAAP, a deferred income tax asset is recorded for the amount of gross deferred income tax assets expected to be realized in all future years, and a valuation allowance is established for deferred income tax assets not realizable.

**NOTES TO FINANCIAL STATEMENTS*****Transitional Reinsurance***

Unpaid claim liabilities ceded to U.S. Department of Health and Human Services (HHS) in accordance with the ACA's Transitional Reinsurance Program have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

***Statutory Statements of Cash Flows***

Cash and short-term investments in the statutory statements of cash flows represent cash balances and investments with initial maturities of one year or less. In accordance with GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

**Other significant accounting policies are as follows:**

***Invested Assets***

U.S. government securities and corporate bonds not backed by other assets are recorded at cost adjusted for amortization of premiums and discounts using the interest method. The fair values disclosed for these securities are obtained from independent pricing services.

***Other-Than-Temporary Impairment***

The Company reviews the values of the Company's investments on a quarterly basis. If the value of the investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the following is considered:

- The length of time and the extent to which the fair value has been less than the amortized cost basis.
- The Company's ability and intent to hold the security long enough for it to recover its value.
- A significant deterioration in the earning performance, credit rating, asset quality or business prospects of the investee.
- A significant adverse change in the regulatory, economic, or technological environment of the investee.
- Factors that raise significant concerns about the investee's ability to continue as a going concern such as negative cash flows from operations, working capital deficiencies, or noncompliance with statutory capital requirements or debt covenants.

***Fair Value Measurements***

Assets recorded in the statutory statements of admitted assets, liabilities and capital and surplus are categorized based on the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

Level 1	Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.
Level 2	Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.
Level 3	Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

***Federal Medical Loss Ratio Rebate***

The Company is subject to the ACA, which requires the payment of rebates to eligible policyholders or enrollees when the amounts paid for healthcare benefits and quality improvement initiatives fall below specified thresholds. Separate calculations are performed by group size (individual, small group, and large group). At December 31, 2018 and 2017 no liability was recognized on the accompanying statutory statements of admitted assets, liabilities and capital and surplus as the calculated amounts exceeded the applicable thresholds.

***Premiums***

Premiums are earned and recorded, net of amounts assumed and ceded under reinsurance agreements, pro rata over the period for which coverage is provided. Uncollected premiums include uncollected amounts from insured individuals and groups and are reported net of an allowance for amounts deemed uncollectible. Premium payments received prior to the period of coverage are classified as advance premiums.

***Uncertain Tax Policies***

The Company records uncertain tax positions on the basis of a two-step process whereby (1) the Company determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, the Company recognizes the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority.

Changes to liabilities for uncertain tax positions are recorded as income tax expense in the accompanying statutory statement of revenue and expenses. The total liability for uncertain tax positions at December 31, 2018 and 2017 was \$1,525,000 and \$1,248,000, respectively, and is included in current federal income tax receivable from Parent on the statutory statements of admitted assets, liabilities, and capital and surplus. The Company does not expect any significant changes in its uncertain tax positions in 2019.

***Premium Subsidy and Cost Sharing Subsidy***

Under regulations established by the ACA, HHS pays the Company a portion of the premium (Premium Subsidy) and/or a portion of the health care costs (Cost Sharing Subsidy) for qualifying individual members. The Cost Sharing Subsidy was only applicable for 2017 as it was announced in October 2017 that the ACA's cost sharing subsidies would no longer be funded. The Company recognizes monthly premiums received from members and the Premium Subsidy as premium revenue ratably over the contract period. The Premium Subsidy totaled \$162,634,000 and \$75,140,000 in 2018 and 2017, respectively, and is included in net premiums earned. The Cost Sharing Subsidy offset health care costs as incurred. The Company recognized the Cost Sharing Subsidy payments when received. Qualified individuals incurred \$9,407,000 of claims covered by the Cost Sharing Subsidy in 2017. During 2018, the Company recognized an additional \$500,000 of Cost Sharing Subsidy related to the 2017 plan year as a result of the final reconciliation filing for the subsidy. These amount is reported as a reduction of the net claims incurred and claims adjustment expenses on

**NOTES TO FINANCIAL STATEMENTS**

the statutory statement of revenue and expenses.

**Health Insurer Fee**

The Company is subject to a mandatory annual non tax-deductible assessment on health insurers imposed by the ACA. The Company estimates the expense for the Health Insurer Fee based upon the preceding year's ratio of the Company's applicable net written premium compared to the U.S. health insurance industry total applicable net written premium. The Company reclassifies from unassigned surplus to special surplus the estimated assessment amount for the subsequent year. H.R. 195, Division D – Suspension of Certain Health-Related Taxes, § 4003, suspended the Health Insurer Fee for 2019. Therefore, no amounts were reclassified to special surplus at December 31, 2018. See Note 5 for further details.

**ACA Risk Adjustment Program**

The ACA authorized a permanent risk adjustment program designed to transfer funds from qualified individual and small group plans with below average risks scores to those respective plans with above average risk scores. The estimates of amounts owed or due from the permanent risk adjustment program is required to be reflected as an adjustment to earned premium if sufficient data is available to make an estimate. The Company accounts for the Premium Stabilization Program in accordance with SSAP No.107, *Accounting for the Risk-Sharing Provisions of the Affordable Care Act* (SSAP No. 107).

In 2018, the Company recognized \$32,380,000 in net risk adjustment, of which \$45,200,000 of expense related to the 2018 program year, and income of \$12,820,000 related to the prior program years as the final settlement was favorable to the estimate recorded in the 2017 statutory financial statements.

In 2017, the Company recognized \$15,679,000 in net risk adjustment, of which \$19,417,000 of expense related to the 2017 program year and income of \$3,738,000 related to the 2016 program year, as the 2016 payments exceeded the estimate recorded in the 2016 statutory financial statements.

Statutory accounting practices vary from U.S. generally accepted accounting principles (GAAP). The more significant variances from GAAP are as follows:

## (1) Basis for Short-Term Investments

Short-term investments, principally money market accounts, include investments with remaining maturities of one year or less at the time of acquisition and are principally stated at amortized cost, which approximates fair value.

## (2) Basis for Bonds and Amortization Schedule

Investments in bonds are reported at cost or amortized cost or fair value based on their NAIC rating; for GAAP, such fixed maturity investments are held as available-for-sale and are reported at fair value with unrealized holding gains and losses reported as a separate component of capital and surplus.

Under statutory accounting, a realized loss is recorded upon the sale of an investment at a loss or when a decline in the fair value of an investment is determined by management to be other than temporary. Realized capital gains and losses are determined on the first-in, first-out cost method.

For GAAP, when a decline in the fair value is other than temporary, the difference between the security's fair value and carrying value (amortized cost) must be realized in earnings if the Company has the intent to sell the security or does not have the intent and ability to hold the security until recovery of the carrying value. If the Company does not intend to sell the security and it is more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the other-than-temporary impairment (OTTI) would be separated into (a) the amount representing the credit loss and (b) the amount related to all other factors. The amount of the total OTTI related to the credit loss would be recognized in earnings. The amount of the total OTTI related to other factors would be recognized in other comprehensive income.

## (11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses for A&amp;H Contracts

Unpaid claims and claims adjustment expenses represent management's best estimate of the ultimate net cost of all reported and unreported claims, less the estimated amount recoverable from claim overpayments and subrogation. The unpaid claims liability is actuarially estimated based on a review of historical claim payment patterns and claim trends. The estimates are subject to the effects of trends in claim severity and frequency, and a reasonable provision for adverse development has been incorporated in management's best estimate. Although considerable variability is inherent in such estimates, management believes that the amounts reported for unpaid claims and claims adjustment expenses are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.

## A. Deferred Tax Assets/(Liabilities)

The Company is taxed as a stock property and casualty insurance company and files a consolidated federal income tax return with MMO and other affiliates. The Company is party to a written tax sharing agreement with its Parent and other affiliates. According to the agreement each member pays taxes or receives credits (from the Parent) as if the member had filed a separate tax return. The payment is finalized for the tax year after the return is filed and/or after an IRS audit is completed. A member generating a taxable loss, or whose net operating losses (NOLs) or other tax attributes are utilized in the current year, or whose tax attributes are utilized, is compensated for such losses or attributes utilized in the year absorbed.

Deferred income tax assets (DTAs) and liabilities (DTLs) represent the expected future tax consequences of temporary items with differences generated by statutory accounting as defined in SSAP No. 101. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a

**NOTES TO FINANCIAL STATEMENTS**

balance sheet approach whereby statutory and tax basis statutory statements of admitted assets, liabilities and capital and surplus are compared.

Due to the 2017 enacted date of the Act, the Statement of Statutory Accounting Principles (SSAP No. 101-7c) requires the Company to re-measure DTAs and DTLs (as of December 31, 2017) based upon the new effective tax rate of 21 percent. The impact of this revaluation is an expense of approximately \$2,489,000 and has a full valuation allowance at December 31, 2017. All deferred tax assets and liabilities are now valued at 21 percent, thus there is no cumulative adjustment for the period ending December 31, 2018.

Current federal income tax receivables from Parent include all current income taxes, including interest, expected to be collected in a subsequent accounting period. Any tax related to the tax sharing agreement is included in the current federal income tax payable balance until the tax return is filed and amounts are then settled with the Parent.

The Company paid no federal income taxes during 2018 or 2017. The Company cannot recover any income tax incurred relating to 2018 and 2017 if the Company has losses in future years. At December 31, 2018 and 2017, the Company did not have any net operating loss carryforwards. The Company has no capital loss carryforwards to utilize in future years at December 31, 2018 and 2017.

The Company is subject to federal income tax examinations by tax authorities for the years 2015 through 2018. 2014 and prior years are closed.

**Note 25 – Change in Incurred Losses and Loss Adjustment Expenses**

## A. Change in Incurred Losses and Loss Adjustment Expenses

A \$5,606,000 redundancy in the December 31, 2017 reserves emerged in 2018, and a \$12,951,000 redundancy in the December 31, 2016 reserves emerged in 2017. In 2017, \$2,004,000 of the total redundancy was the result of favorable development of Healthcare receivables, mostly the result of favorable pharmacy rebates and discounts. Also contributing was an increase in the coinsurance rate from 50.0% to 52.9%, resulting in a redundancy of \$3,833,000 for 2016 ACA transitional reinsurance. The majority of the 2018 and remaining 2017 redundancies resulted from differences in claims severity and utilization as compared to expectations.
