NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

A. Accounting Practices

The statutory basis financial statements of UnitedHealthcare of Ohio, Inc. (the "Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the "Department").

The Department recognizes only statutory accounting practices, prescribed or permitted by the State of Ohio, for determining and reporting the financial condition and results of operations of a health insuring corporation, for determining its solvency under Ohio Insurance Law. The state prescribes the use of the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") in effect for the accounting periods covered in the statutory basis financial statements.

No significant differences exist between the practices prescribed or permitted by the State of Ohio and the NAIC SAP which materially affect the statutory basis net income and capital and surplus, as illustrated in the table below:

The Company was required to expense 100% of the estimated annual fee on January 1, 2018. The Company's HIF expense was \$832,338 in 2018, which was paid in September 2018. The Company has been, or is currently involved, in various governmental investigations, audits and reviews. These include routine, regular and special investigations, audits and reviews by Centers for Medicare and Medicaid Services ("CMS"), state insurance and health and welfare departments and other governmental authorities. Certain aspects of the Company's businesses have been reviewed or are currently under review, for reasons including compliance with coding and other requirements under the Medicare risk-adjustment model.

On February 14, 2017, the Department of Justice (“DOJ”) announced its decision to pursue certain claims within a lawsuit initially asserted against the Company and filed under seal by a whistleblower in 2011. The whistleblower’s complaint, which was unsealed on February 15, 2017, alleges that the Company made improper risk adjustment submissions and violated the False Claims Act. On February 12, 2018, the court granted in part and denied in part the Company’s motion to dismiss. In May 2018, the DOJ moved to dismiss the Company’s counterclaims, which were filed in March 2018, and moved for partial summary judgment. In March 2019, the court denied the government’s motion of partial summary judgment and dismissed the Company’s counterclaims without prejudice. The Company cannot reasonably estimate the outcome that may result from this matter given its procedural status.

20. FAIR VALUE MEASUREMENTS

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds, short-term investments, and cash equivalents are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service ("pricing service"), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source; prices reported by its custodian, its investment consultant and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment in the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

(1) The Company has accident and health insurance premiums in 2019 and 2018 subject to the risk-sharing provisions of the ACA.

The ACA imposed fees and premium stabilization provisions on health insurance issuers offering comprehensive commercial health insurance. The three premium stabilization programs are commonly referred to as the 3Rs – risk adjustment, reinsurance, and risk corridors.

Risk Adjustment – The permanent risk adjustment program, designed to mitigate the potential impact of adverse selection and provide stability for health insurance issuers, applies to all non-grandfathered plans not subject to transitional relief in the individual and small group markets both inside and outside of the insurance exchanges. Premium adjustments pursuant to the risk adjustment program are accounted for as premium subject to redetermination and user fees are accounted for as assessments.

Reinsurance – The transitional reinsurance program was designed to protect issuers in the individual market from an expected increase in large claims due to the elimination of preexisting condition limitations. The transitional reinsurance program was effective from 2014 through 2016 and applied to all issuers of major medical commercial products and third party administrators. Contributions attributable to enrollees in ACA compliant individual plans, including program administrative costs, were accounted for as ceded premium and payments received were accounted for as ceded benefit recoveries. The portion of the individual contributions earmarked for the U.S. Treasury was accounted for as an assessment. Contributions made for enrollees in fully insured plans other than ACA compliant individual plans, including program administrative costs and payments to the U.S. Treasury, were treated as assessments.

Risk Corridors – The temporary risk corridors program, designed to provide some aggregate protection against variability for issuers in the individual and small group markets during the period 2014 through 2016, applied to Qualified Health Plans in the individual and small group markets both inside and outside of the insurance exchanges. Premium adjustments pursuant to the risk corridors program were accounted for as premium adjustments for retrospectively rated contracts.

The liability for claims unpaid and accrued medical incentive pool and bonus amounts, net of health care receivables and reinsurance recoverables as of December 31, 2018 was \$4,243,645. As of June 30, 2019, \$3,862,398 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, net of health care receivables and reinsurance recoverables are now \$(1,413) as a result of re-estimation of unpaid claims. Therefore, there has been \$382,660 favorable prior year development since December 31, 2018 to June 30, 2019. The primary drivers consist of favorable development as a result of a change in the provision for adverse deviations in experience of \$448,813, favorable development of \$267,434 in retroactivity for inpatient, outpatient, physician, and pharmacy claims, favorable development of \$101,893 related to subrogation recoveries, offset by, unfavorable development in Medicare Part D claims experience of \$296,076 and unfavorable development of \$131,017 related to risk share.

At December 31, 2018, the Company recorded favorable development of \$1,156,456 as a result of a change in the provision for adverse deviations in experience of \$472,334, favorable development of \$244,718 related to subrogation recoveries, favorable development of \$282,291 in retroactivity for inpatient, outpatient, physician, and pharmacy claims, and favorable development in Medicare Part D claims experience of \$141,597. Original estimates are increased or decreased, as additional information becomes known regarding individual claims, which could have an impact to the accruals for medical loss ratio rebates and retrospectively rated contracts. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the statutory basis statements of operations.
