Notes to Financial Statement

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

Summa Insurance Company’s (the Company or SIC) statutory financial statements are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (ODI) and in accordance with the Accounting Practices and Procedures Manual.

The ODI recognizes only statutory accounting practices prescribed or permitted by the State of Ohio (the State) for determining its solvency under Ohio Insurance Law. NAIC SAP has been adopted as a component of the prescribed or permitted practices by the State with some modifications. These modifications include a five-year life on Electronic Data Processing (EDP) equipment and a 90-day limitation on collection of affiliate balances. Accordingly, the admitted assets, liabilities, capital and surplus of the Company as of September 30, 2019 and December 31, 2018 and the results of its operations and its cash flow for the years then ended have been determined in accordance with accounting principles prescribed or permitted by the ODI. Management believes the monetary effect on net income and statutory surplus between NAIC SAP and accounting principles prescribed or permitted by the ODI is not material. Additionally, the Company’s risk based capital would not have triggered a regulatory event had it not used a prescribed or permitted practice.

Actual results could differ significantly from those estimates.

The 2019 amounts were calculated in accordance with SSAP No. 101. The application of SSAP No. 101 requires a company to evaluate the recoverability of deferred tax assets and to establish a valuation allowance if necessary to

Notes to Financial Statement

reduce the deferred tax asset to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company includes many factors, including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of reversal; (4) taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards; (5) the length of time that carryovers can be used; (6) unique tax rules that would impact the utilization of the deferred tax assets; (7) any tax planning strategies that the Company would employ to avoid a tax benefit expiring unused. In 2019 and 2018, the Company determined a full valuation allowance was necessary.

A. The components of deferred tax asset / liability at September 30, 2019 and December 31, 2018 are as follows:

The Company is subject to an annual fee under section 9010 of the Federal Affordable Care Act (ACA). The fee is allocated to individual health insurers based on the ratio of the amount of the entity’s net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity’s portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. The Consolidated Appropriation Act of 2018 placed a moratorium on this fee for 2019. Due to the moratorium put in place, no fee was assessed for 2019 on the Company’s net premiums written during 2018.
