## NOTES TO FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The accompanying statutory financial statements of Aetna Health of Ohio Inc. (the "Company"), indirectly a wholly-owned subsidiary of CVS Health Corporation ("CVS Health"), have been prepared in conformity with accounting practices prescribed or permitted by the Ohio Insurance Division ("Ohio Department") ("Ohio Accounting Practices"). The Ohio Department recognizes statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, which include accounting practices and procedures adopted by the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP"). On November 28, 2018, CVS Health acquired Aetna Inc. ("Aetna") and at that date became the Company's ultimate parent (the "Aetna Acquisition"). On February 22, 2019, the Company re-domesticated to the State of Ohio and received its Certificate of Authority to transact business in Ohio on March 7, 2019. The Company remains licensed in Iowa as a foreign company. On July 24, 2019, the Company changed its name from Aetna Better Health of Iowa, Inc. to Aetna Health of Ohio, Inc.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio for the years ending December 31, 2019 and 2018 is as follows:

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with Ohio Accounting Practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenue and expenses. Actual results could differ from those estimates.

#### C. Accounting Policies

The Company applies the following significant accounting policies:

##### (1) Cash, Cash Equivalents and Short-Term Investments

Cash, cash equivalents and short-term investments, consisting primarily of money market instruments and other debt issues with an original maturity of up to one year, are carried at amortized cost. Short-term investments consist primarily of investments purchased with an original maturity date of greater than three months but less than one year. Cash equivalents consist of highly liquid instruments, which mature within three months from the date of purchase. The carrying amount of cash, cash equivalents and short-term investments approximates fair value. Cash accounts with positive balances shall not be reported separately from cash accounts with negative balances. If in the aggregate, the reporting entity has a net negative cash balance, it shall be reported as a negative asset and shall not be recorded as a liability.

## NOTES TO FINANCIAL STATEMENTS

### (2) Bonds

Bonds, which include special deposits, are carried at amortized cost except for those bonds with an NAIC designation of 3 through 6, which are carried at the lower of amortized cost or fair value. The amount carried at fair value is not material to the financial statements. Bond premiums and discounts are amortized using the scientific interest method. When quoted prices in active markets for identical assets are available, the Company uses these quoted market prices to determine the fair value of bonds. This is used primarily for U.S. government securities. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, the Company estimates fair values using valuation methodologies based on available and observable market information or by using a matrix pricing model. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. The Company had no investments where fair value was determined using broker quotes or an internal analysis of financial performance and cash flow projections at December 31, 2019 and 2018. Bonds include all investments whose maturity is greater than one year when purchased. Loan-backed and structured securities are carried at amortized cost adjusted for unamortized premiums and discounts and are accounted for using the retrospective adjustment method. Premiums and discounts on loan-backed and structured securities are amortized using the scientific method over the estimated remaining term of the securities, adjusted for anticipated prepayments. All adjustments between amortized cost and carrying value are reflected in unrealized capital gains and losses and are reported as direct adjustments to surplus.

Bonds are recorded as purchases or sales on the trade date.

The Company periodically reviews its bonds to determine whether a decline in fair value below the carrying value is other-than-temporary. For bonds, other than loan-backed and structured securities ("LB&SS"), an other-than-temporary impairment ("OTTI") shall be recorded if it is probable that the Company will be unable to collect all amounts due according to the contractual terms in effect at the date of acquisition. Declines deemed to be OTTI in the cost basis are recognized as realized capital losses. Yield-related impairments are deemed other-than-temporary when the Company intends to sell an investment at the reporting date before recovery of the cost of the investment.

For LB&SS, the Company records OTTI when the fair value of the loan-backed or structured security is less than the amortized cost basis at the balance sheet date and (1) the Company intends to sell the investment, or (2) the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost basis, or (3) the Company does not expect to recover the entire amortized cost basis of the security, even if it does not intend to sell the security and has the intent and ability to hold. If it is determined an OTTI has occurred because of (1) or (2), the amount of the OTTI is equal to the difference between the amortized cost and the fair value of the security at the balance sheet date and this difference is recorded as a realized capital loss. If it is determined an OTTI has occurred because of (3), the amount of the OTTI is equal to the difference between the amortized cost and the present value of cash flows expected to be collected, discounted at the loan-backed or structured security's effective interest rate and this difference is also accounted for as a realized capital loss.

The Company analyzes all relevant facts and circumstances for each investment when performing its analysis to determine whether an OTTI exists. Among the factors considered in evaluating whether a decline is other-than-temporary, management considers whether the decline in fair value results from a change in the quality of the investment security itself, whether the decline results from a downward movement in the market as a whole, the prospects for realizing the carrying value of the bond based on the investee's current and short-term prospects for recovery and other factors. The risks inherent in assessing the impairment of an investment include the risk that market factors may differ from the Company's expectations and the risk that facts and circumstances factored into its assessment may change with the passage of time. Unexpected changes to market factors and circumstances that were not present in past reporting periods may result in a current period decision to sell securities that were not other-than-temporarily-impaired in prior reporting periods.

- (3) The Company did not own any common stock at December 31, 2019 or 2018.
- (4) The Company did not own any preferred stock at December 31, 2019 or 2018.
- (5) The Company did not have any mortgage loans at December 31, 2019 or 2018.
- (6) The Company did not have any investments in subsidiaries, controlled or affiliated companies at December 31, 2019 or 2018.
- (7) The Company did not have any investments in any joint ventures, partnerships and limited liability companies at December 31, 2019 or 2018.
- (8) The Company did not have any derivatives at December 31, 2019 or 2018.
- (9) Aggregate Health Policy Reserves and Related Expenses

Premium deficiency reserves ("PDR") are recognized when it is probable that the expected future hospital and medical costs, including maintenance costs, will exceed anticipated future premiums and reinsurance recoveries on existing contracts. Where allowed, anticipated investment income is considered in the calculation of any PDR. For purposes of calculating a PDR, contracts are grouped in a manner consistent with the method of acquiring, servicing and measuring the profitability of such contracts. The Company had no PDR at December 31, 2019 and 2018.

## NOTES TO FINANCIAL STATEMENTS

Unearned premium reserves ("UEP") are recognized for premiums that are recorded by the Company that have not been earned as of the statement date. The Company had no UEP at December 31, 2019 and 2018.

### (10) Hospital and Medical Costs and Claims Adjustment Expenses and Related Reserves

Hospital and medical costs consist principally of fee-for-service medical claims and capitation costs. Claims unpaid and aggregate health claim reserves include the Company's estimate of payments to be made on claims reported but not yet paid and for health care services rendered to enrollees but not yet reported to the Company as of the Statutory Statements of Assets and Liabilities, Capital and Surplus date. Such estimates are developed using actuarial principles and assumptions, which consider, among other things, historical and projected claim submission and processing payment patterns, medical cost trends, historical utilization of health care services, claim inventory levels, medical inflation, contract requirement changes in membership and product mix, seasonality and other relevant factors. The Company reflects changes in estimates in hospital and medical costs in the Statutory Statements of Revenue and Expenses in the period they are determined. Capitation costs, which are recorded in hospital and medical expenses in the Statutory Statements of Revenue and Expenses, represent contractual monthly fees paid to participating physicians and other medical providers for providing medical care, regardless of the medical services provided to the enrollee.

The Company uses the triangulation method to estimate reserves for claims incurred but not reported. The method of triangulation makes estimates of completion factors that are then applied to the total paid claims (net of coordination of benefits) to date for each incurral month. This provides an estimate of the total projected incurred claims and total amount outstanding or claims incurred but not reported (claims unpaid). For the most current dates of service where there is insufficient paid claim data to rely solely on the triangulation method, the Company examines cost and utilization trends as well as environmental factors, plan changes, provider contracts, changes in membership and/or benefits, and historical seasonal patterns to estimate the reserve required for these months.

Claims adjustment expenses, which include cost containment expenses, represent the costs incurred related to the claim settlement process such as costs to record, process and adjust claims. These expenses are included in the Company's management agreement with an affiliate described in Note 10.

(11) The Company has not modified its capitalization policy from the prior period.

(12) The Company did not have any pharmaceutical rebate receivables at December 31, 2019 or 2018.

### (13) Premiums and Amounts Due and Unpaid

Premium revenue for prepaid health or dental care products is recognized as income in the month in which enrollees are entitled to health or dental care services. Premiums collected before the effective period are reported as premiums received in advance. Premiums related to unexpired contractual coverage periods are reported as unearned premiums in the Statutory Statements of Liabilities, Capital and Surplus (refer to discussion of aggregate health policy reserves and related expenses above).

Nonadmitted amounts consist of all premiums due and unpaid greater than 90 days past due, with the exception of amounts due under government insured plans, which may be admitted assets under certain circumstances. In addition, for any customer for which the premiums due and unpaid greater than 90 days past due is more than a de minimus portion of the entire balance of premiums due and unpaid for that customer, the entire balance of premiums due and unpaid for that customer is nonadmitted. Management also performs a specific review of accounts and based on the results of the review, additional amounts may be nonadmitted. Uncollectible amounts are generally written-off and charged to revenue in the period in which the customer reconciliations are completed and agreed to by the customer (retroactivity) or when the account is determined to be uncollectible by the Company.

### (14) Aggregate Health Claim Reserves

The reserve for future contingent benefits includes the estimated cost of services that will continue to be incurred after the Statutory Statements of Liabilities, Capital and Surplus date if the Company is obligated to pay for such services in accordance with contract provisions or regulatory requirements. These balances are recorded in aggregate health claim reserves in the Statutory Statements of Liabilities, Capital and Surplus and are estimated using a percentage of current hospital and medical costs, which is based on the Company's historical cost experience.

### (15) Investment Income Due and Accrued

Accrued investment income consists primarily of interest. Interest is recognized on an accrual basis and dividends are recorded as earned on the ex-dividend date. Due and accrued income is not recorded on: (a) bonds in default; and (b) bonds delinquent more than 90 days or where collection of interest is improbable. At December 31, 2019 and 2018, the Company did not have any nonadmitted investment income due and accrued.

### (16) Covered and Uncovered Expenses and Related Liabilities

Covered expenses and related liabilities represent costs for health care expenses for which a member is not responsible in the event of the insolvency of the Company. Uncovered expenses and related liabilities represent costs to the Company for health care services that are the obligation of the Company and for which a member may also be liable in the event of the Company's insolvency.

### (17) Fees Paid to the Federal Government by Health Insurers

## NOTES TO FINANCIAL STATEMENTS

SSAP No. 106 - *Affordable Care Act Section 9010 Assessment* ("SSAP No. 106") required (1) that the health insurer fee be recognized in full on January 1 of the fee year (the calendar year in which the assessment must be paid to the federal government), in the operating expense category of insurance taxes, licenses and fees, excluding federal income taxes and (2) that in each data year preceding a fee year a reporting entity pro-ratably accrue by reclassifying from unassigned funds (surplus) to aggregate write-ins for special surplus funds an amount equal to its estimated subsequent fee year assessment. This reclassification has no impact on total capital and surplus and is reversed in full on January 1 of the fee year. On January 22, 2018, Public Law No: 115-120 was signed into law and it imposes a moratorium on the health insurer fee for calendar year 2019. As interpreted in INT 18-02: ACA Section 9010 Assessment Moratoriums, because there was not an ACA Section 9010 fee due in September 2019, there was not an accrual of a liability on January 1, 2019 based on 2018 data year net written premiums. Accrual of a liability on January 1, 2020 for the ACA Section 9010 assessment based on 2019 data year net written premiums and the reclassification from unassigned funds (surplus) to aggregate write-ins for special surplus funds equal to the estimated 2020 fee year assessment accrued in data year 2019 will both continue as prescribed under SSAP No. 106. See Note 22 for disclosure of all amounts related to the health insurer fee for the Company.

(18) The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010's (collectively, the "ACA") Risk Adjustment

Risk Adjustment

The ACA established a permanent risk adjustment program to transfer funds from qualified individual and small group insurance plans with below average risk scores to plans with above average risk scores. Based on the risk of the Company's qualified plan members relative to the average risk of members of other qualified plans in comparable markets, the Company estimates its ultimate risk adjustment receivable or payable for the current calendar year and reflects the impact as an adjustment to its premium revenue in accordance with SSAP No. 107.

(19) Federal and State Income Taxes

Aetna and its wholly-owned subsidiaries are included in the consolidated federal income tax return of its parent company, CVS Health, pursuant to the terms of a tax sharing agreement (and a Supplemental Tax Sharing Agreement where applicable) between CVS Health and the Company.

In accordance with the agreements, the Company's current federal and state income tax provisions are generally computed as if the Company were filing a separate federal and state income tax return; current income tax benefits, including those resulting from net operating losses, are recognized to the extent expected to be realized in the consolidated return. Pursuant to the agreements, the Company has the enforceable right to recoup federal and state income taxes paid in prior years in the event of future net losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal and state income taxes.

Income taxes are accounted for under the asset and liability method. Deferred income tax assets ("DTAs") and liabilities ("DTLs") represent the expected future tax consequences of temporary differences generated by statutory accounting as defined in SSAP No. 101 - *Income Taxes*. DTAs and DTLs are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a balance sheet approach whereby statutory and tax basis balance sheets are compared. Current income tax recoverables include all current income taxes, including interest, reasonably expected to be recovered in a subsequent accounting period.

Pursuant to SSAP No. 101, gross DTAs are first reduced by a statutory valuation allowance adjustment to an amount that is more likely than not to be realized ("adjusted gross DTAs"). Adjusted gross DTAs are then admitted in an amount equal to the sum of paragraphs a. b. and c. below:

- a. Federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with Internal Revenue Code ("IRC") tax loss carryback provisions.
- b. The amount of adjusted gross DTAs, after the application of paragraph a. above, expected to be realized within the applicable period and that is no greater than the applicable percentage as determined using the applicable Realization Threshold Limitation Table. The applicable period refers to the number of years in which the DTA will reverse in the Company's tax return and the applicable percentage refers to the percentage of the Company's statutory capital and surplus as required to be shown on the statutory balance sheet adjusted to exclude any net DTAs, electronic data processing equipment and operating system software and any net positive goodwill ("Stat Cap ExDTA").

The Realization Threshold Limitation Tables allow DTAs to be admitted based upon either realization within 3 years and 15% of Stat Cap ExDTA, 1 year and 10% of Stat Cap ExDTA, or no DTA admitted pursuant to this paragraph b. In general, the Realization Threshold Limitation Tables allow the Company to admit more DTAs if total DTAs as reported by the Company are a smaller percentage of statutory capital and surplus.

- c. The amount of gross DTAs, after the application of paragraphs a. and b. above that can be offset against existing gross DTLs. In applying this offset, the Company considers the character (i.e. ordinary versus capital) of the DTAs and DTLs such that offsetting would be permitted in the tax return under existing enacted federal income tax laws and regulations and the reversal patterns of temporary differences.

## NOTES TO FINANCIAL STATEMENTS

Changes in DTAs and DTLs are recognized as a separate component of gains and losses in surplus ("Change in net deferred income tax") except to the extent allocated to changes in unrealized gains and losses. Changes in DTAs and DTLs allocated to unrealized gains and losses are netted against the related changes in unrealized gains and losses and are reported as "Change in net unrealized capital gains (losses)", also a separate component of gains and losses in surplus.

The Company is subject to state income taxes in various states. State income tax expense is recorded in general administrative expenses in the Statutory Statements of Revenue and Expenses. For the years ended December 31, 2019 and 2018, the Company incurred state income tax expenses of \$1,017 and \$0, respectively. The Company had \$226 and \$0 state income tax payables at December 31, 2019 and 2018 included in general expenses due or accrued in the Statutory Statements of Liabilities, Capital and Surplus. The Company had no state income tax receivables at December 31, 2019 and 2018, respectively. These balances were included as aggregate write-in's for other than invested assets in the Statutory Statements of Assets.

### **(20) Reinsurance**

In the normal course of business, the Company seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results and to help balance its risks and capital by reinsuring certain levels of risk with other insurance enterprises. The reinsurance coverage does not relieve the Company of its primary obligations. Reinsurance premiums and reserves related to reinsured business are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Premiums ceded for medical losses and the related unpaid reserves have been reported as reductions of these items. The reinsurance agreements are more fully discussed in Notes 10 and 23.

### **D. Going Concern**

As of February 28, 2020, management evaluated whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern and management has determined that it is not probable that the Company will be unable to meet its obligations as they become due within one year after the financial statements are available to be issued. Management will continuously evaluate the Company's ability to continue as a going concern and will take appropriate action and will make appropriate disclosures if there is any change in any condition or events that would raise substantial doubt about the Company's ability to continue as a going concern.

### **2. Accounting Changes and Corrections of Errors**

The Company did not have any accounting changes or correction of errors in the years ended December 31, 2019 and 2018.

### **3. Business Combinations and Goodwill**

The Company was not a part of any business combinations that involved the statutory purchase method, a statutory merger, an assumption reinsurance, or an impairment loss in the years ending December 31, 2019 and 2018.

### **4. Discontinued Operations**

The Company did not have any discontinued operations in the years ending December 31, 2019 and 2018.

## NOTES TO FINANCIAL STATEMENTS

There was no valuation allowance adjustment to gross DTAs as of December 31, 2019 or 2018. The Company bases its estimates of the future realization of DTAs primarily on historic taxable income and existing DTLs.

D. The provision for federal income taxes is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes. The items causing this difference were as follows:

	12/31/2019	Effective Tax Rate	12/31/2018	Effective Tax Rate
Provision computed at statutory rate	\$ 6,858	21.1 %	\$ 4,144	21.0 %

Impact on Deferred Tax for Enacted Rate Change	—	0.0 %	—	0.0 %
Contribution of Intangibles to JV	—	0.0 %	—	0.0 %
Other	—	0.0 %	1	0.0 %
<b>Total</b>	<b>\$ 6,858</b>	<b>21.1 %</b>	<b>\$ 4,145</b>	<b>21.0 %</b>
 Federal and foreign income taxes incurred	 \$ 6,889	 21.0 %	 \$ 4,145	 21.0 %
Change in net deferred income taxes	(31)	0.1 %	—	0.0 %
<b>Total statutory income taxes</b>	<b>\$ 6,858</b>	<b>21.1 %</b>	<b>\$ 4,145</b>	<b>21.0 %</b>

The transfer pricing adjustment allows taxpayers to apply different methods to price current period intercompany services at arm's length prices (i.e., prices at which unrelated entities would be willing to transact), which results in a permanent deduction for tax reporting purposes.

E.

- (1) At December 31, 2019 and 2018, the Company had no net capital loss or net operating loss carryforwards for tax purposes.
- (2) The amount of federal income taxes incurred that is available for recoupment in the event of future net losses is as follows:

Year	Ordinary	Capital	Total
2019	\$ 6,887	\$ 1	\$ 6,888
2018 Stub 2	375	—	375
2018 Stub 1	N/A	—	—
<b>Total</b>	<b>\$ 7,262</b>	<b>\$ 1</b>	<b>\$ 7,263</b>

- (3) The Company did not report any deposits as admitted assets under Internal Revenue Code Section 6603 at December 31, 2019 and 2018.

## NOTES TO FINANCIAL STATEMENTS

### 13. Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

- (1) The Company had 10,000 shares of common capital stock authorized with a par value of \$0.01 with 1,000 shares issued and outstanding at December 31, 2019 and 2018.
- (2) The Company had no shares of preferred stock issued and outstanding at December 31, 2019 and 2018.
- (3) Dividend Restrictions

Pursuant to Ohio statute, the Company shall not pay any extraordinary dividend unless the Company has notified the superintendent on a form provided by the superintendent at least 30 days prior thereto or such shorter period as the superintendent may permit and the superintendent has not disapproved it within such period. An extraordinary dividend is any dividend or other distribution which, together with other dividends and distributions made within the preceding 12 months, exceeds the greater of: ten percent of such insurer's surplus as regards policyholders as of the next preceding December 31; or the net income of such insurer for the period covered by such statement, but shall not include pro rata distributions of any class of the insurer's own securities. The Company may not make a non-extraordinary dividend without prior notification to the Insurance Department within five business days following the declaration thereto and at least ten days, commencing from the date of receipt by the superintendent, prior to the payment thereof. Ordinary dividends are ultimately limited to earned surplus.

- (4) The Company did not pay any dividends in 2019 or 2018.

The Company received \$2,000,000 as a capital contribution from its parent on November 8, 2019. The Company did not receive any capital contributions in 2018.

The Company did not pay any returns of capital in 2019 or 2018.

- (5) Within the limitations of (3) above, there are no other restrictions placed on the portion of the Company profits that may be paid as ordinary dividends to the stockholder.
- (6) There were no restrictions placed on the Company's surplus, including for whom the surplus is being held.
- (7) The Company had no advances to surplus not repaid.
- (8) The Company did not hold any stock for any special purposes at December 31, 2019 or 2018.
- (9) Changes in the balances of special surplus funds from the prior year are due to the accrual of estimated ACA health insurer fees reclassified from unassigned funds or surplus to aggregate write-ins for special surplus funds as discussed more fully in Note 1.C and Note 22.
- (10) At December 31, 2019 and 2018, there were no unassigned funds that was represented or reduced by unrealized gains and losses.
- (11) The Company has not issued any surplus notes or debentures or similar obligations at December 31, 2019 or 2018.
- (12) The Company did not participate in any quasi-reorganizations during the statement year.
- (13) The Company did not participate in any quasi-reorganizations in the past 10 years.

## NOTES TO FINANCIAL STATEMENTS

### 14. Liabilities, Contingencies and Assessments

A. The Company did not have any contingent commitments at December 31, 2019 or 2018.

#### B. Assessments

##### Guaranty Fund Assessments

(1) Under guaranty fund laws existing in all states, insurers doing business in those states can be assessed (in most states up to prescribed limits) for certain obligations of insolvent insurance companies to policyholders and claimants. The life and health insurance guaranty associations in which the Company participates that operate under these laws respond to insolvencies of long-term care insurers as well as health insurers. The Company's assessments generally are based on a formula relating to the Company's health care premiums in the state compared to the premiums of other insurers. Certain states allow assessments to be recovered over time as offsets to premium taxes. Some states have similar laws relating to HMOs and/or other payers such as not-for-profit consumer-governed health plans established under the ACA.

The Company did not have any contingent assessments at December 31, 2019 or 2018.

C. The Company did not have any gain contingencies at December 31, 2019 or 2018.

D. The Company did not have any claims related extra contractual obligation and bad faith losses stemming from lawsuits at December 31, 2019 or 2018.

E. The Company did not have any joint and several liability arrangements at December 31, 2019 or 2018.

F. Various liabilities arise in the normal course of the Company's business and have been recorded. In the opinion of management, any ultimate contingent losses will not have a material adverse effect on the Company's future results of operations and financial position. The Company, to the best of its knowledge, has no assets that it considers impaired that are not already recorded in the Company's books.

The Company maintains insurance coverage for certain litigation exposures in an amount it believes is reasonable.

### 15. Leases

The Company did not have any material lease obligations at December 31, 2019 or 2018.

### 16. Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company did not have any financial instruments with off-balance sheet risk or financial instruments with concentrations of credit risk at December 31, 2019 or 2018.

### 17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

#### A. Transfers of Receivables Reported as Sales

The Company did not have any transfers of receivables reported as sales for the years ending December 31, 2019 or 2018.

#### B. Transfer and Servicing of Financial Assets

(1) The Company did not have any loaned securities at December 31, 2019 or 2018.

(2) and (3)

The Company did not have any servicing assets or liabilities at December 31, 2019 or 2018.

(4) The Company did not have any securitized financial assets at December 31, 2019 or 2018.

(5) The Company did not have any transfers of financial assets accounted for as secured borrowing at December 31, 2019 or 2018.

(6) The Company did not have any transfers of receivables with recourse at December 31, 2019 or 2018.

(7) The Company did not have any dollar repurchase or reverse repurchase agreements at December 31, 2019 or 2018.

#### C. Wash Sales

(1) In the course of the Company's asset management, securities are sold and reacquired within 30 days of the sale date to enhance the Company's yield on its investment portfolio.

(2) The Company had no securities sold during the year for the year ended December 31, 2019 and reacquired within 30 days of the sale date.

## NOTES TO FINANCIAL STATEMENTS

### 18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

- A. The Company did not serve as an Administrative Services Only plan administrator for uninsured accident and health plans or the uninsured portion of partially insured plans for the period ended December 31, 2019.
- B. The Company did not serve as an Administrative Services Contract (ASC) plan administrator for uninsured accident and health plans or the uninsured portion of partially insured plans for the period ended December 31, 2019.
- C. The Company did not have any Medicare or other similarly structured cost based reimbursement contracts for the period ended December 31, 2019.

### 19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

The Company did not have any material direct premiums written/produced by managing general agents or third party administrators for the years ended December 31, 2019 and 2018.

### 20. Fair Value Measurements

A. and B.

The Company had no material assets and liabilities that are measured and reported at fair value as of December 31, 2019 and 2018.

Certain of the Company's financial instruments are measured at fair value in the financial statements. The fair values of these instruments are based on valuations that include inputs that can be classified within one of three levels of a hierarchy. The following are the levels of the hierarchy and a brief description of the type of valuation information ("inputs") that qualifies a financial asset or liability for each level:

- **Level 1** – Unadjusted quoted prices for identical assets or liabilities in active markets.
- **Level 2** – Inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, inputs that are observable that are not prices (such as interest rates and credit risks) and inputs that are derived from or corroborated by observable markets.
- **Level 3** – Developed from unobservable data, reflecting the Company's own assumptions.

Financial assets and liabilities are classified based upon the lowest level of input that is significant to the valuation. When quoted prices in active markets for identical assets and liabilities are available, the Company uses these quoted market prices to determine the fair value of financial assets and liabilities and classifies these assets and liabilities as Level 1. In other cases where a quoted market price for identical assets and liabilities in an active market is either not available or not observable, the Company estimates fair value using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets and liabilities would then be classified as Level 2. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. Thus, financial assets and liabilities may be classified in Level 3 even though there may be some significant inputs that may be observable.

The valuation methods and assumptions used by the Company in estimating the fair value of debt securities are discussed in Note 1.

There were no material realized and unrealized capital gains, purchases, sales, settlements, or transfers into or out of the Company's Level 3 financial assets during December 31, 2019 or 2018.

Transfers in and out of all levels are recognized at the end of the reporting period of which the transfer occurred.

C. The carrying values and estimated fair values of the Company's financial instruments at December 31, 2019 and 2018 were as follows:

December 31, 2019

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets (Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds, Short Term, and Cash Equivalents	\$ 1,785,562	\$ 1,781,652	\$ 429,225	\$ 1,356,337	\$ —	\$ —

December 31, 2018

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets (Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds, Short Term, and Cash Equivalents	\$ 1,106,317	\$ 1,104,683	\$ 1,105,657	\$ 660	\$ —	\$ —

## NOTES TO FINANCIAL STATEMENTS

In evaluating the Company's management of interest rate and liquidity risk and currency exposures, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

- D. The Company did not have any financial instruments where it was not practicable to estimate the fair value.
- E. The Company has not elected to use the net asset value practical expedient to fair value to measure its investments.

### 21. Other Items

#### A. Unusual or Infrequent Items

The Company did not have any unusual or infrequent items for the years ended December 31, 2019 and 2018.

#### B. Troubled Debt Restructuring

The Company did not have any troubled debt restructuring in the years ended December 31, 2019 and 2018.

#### C. Other Disclosures

##### Minimum Capital and Surplus

Pursuant to the laws of the states in which the Company is licensed to do business, the Company is required to maintain a minimum surplus and capital stock as defined by the statutes and regulations of those states. At both December 31, 2019 and 2018, the Company was in compliance with the minimum surplus and capital stock requirements of the states in which it is licensed to do business.

The NAIC utilizes risk-based capital ("RBC") standards for health organizations, including HMOs, that are designed to identify weakly capitalized companies by comparing each company's adjusted capital and surplus to its required capital and surplus (the "RBC Ratio"). The RBC Ratio is designed to reflect the risk profile of the company. Within certain ratio ranges, regulators have increasing authority to take action as the RBC Ratio decreases. There are four levels of regulatory action, ranging from requiring insurers to submit a comprehensive plan to the state insurance commissioner to requiring the state insurance commissioner to place the insurer under regulatory control. At December 31, 2019 and 2018, the Company had capital and surplus that exceeded the highest threshold specified by the RBC rules.

##### Health Care Reform

The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively, the "ACA"), made broad-based changes to the United States health care system. While the Company anticipates continued efforts in 2020 and beyond to invalidate, modify, repeal or replace the ACA, the Company expects aspects of the ACA to continue to significantly impact the Company's business operations and financial results, including pricing, medical benefit ratios ("MBRs") and the geographies in which the Company's products are available.

While most of the significant aspects of the ACA became effective during or prior to 2014, parts of the ACA continue to evolve through the promulgation of executive orders, legislation, regulations and guidance as well as ongoing litigation. Additional changes to the ACA and those regulations and guidance at the federal and/or state level are likely, and those changes are likely to be significant. Growing federal and state budgetary pressures make it more likely that any changes, including changes at the state level in response to changes to, or invalidation, repeal or replacement of, the ACA and/or changes in the funding levels and/or payment mechanisms of federally supported benefit programs, will be adverse to the Company. For example, if any elements of the ACA are invalidated or repealed at the federal level, the Company expects that some states would seek to enact similar requirements, such as prohibiting pre-existing condition exclusions, prohibiting rescission of insurance coverage, requiring coverage for dependents up to age 26, requiring guaranteed renewability of insurance coverage and prohibiting lifetime limits on insurance coverage.

Potential repeal of the ACA, ongoing legislative, regulatory and administrative policy changes to the ACA, the results of federal and state level elections, pending litigation challenging the constitutionality of the ACA or funding for the law and federal budget negotiations continue to create uncertainty about the ultimate impact of the ACA. The time frame for conclusion and final outcome and ultimate impact of this litigation are uncertain. Given the inherent difficulty of foreseeing the nature and scope of future changes to the ACA and how states, businesses and individuals will respond to those changes, the Company cannot predict the impact on it of future changes to the ACA. It is reasonably possible that invalidation, repeal or replacement of or other changes to the ACA and/or states' responses to such changes, in the aggregate, could have a significant adverse effect on the Company's businesses, results of operations and cash flows.

- D. The Company did not have any business interruption insurance recoveries for the years ending December 31, 2019 or 2018.
- E. The Company did not have any state transferable and non-transferable tax credits for the years ending December 31, 2019 or 2018.
- F. The Company did not have any subprime mortgage related risk exposures at December 31, 2019 or 2018.

## NOTES TO FINANCIAL STATEMENTS

- G. The Company did not have any retained assets at December 31, 2019 or 2018.
- H. The Company did not have any insurance-linked securities ("ILS") contracts at December 31, 2019 or 2018.
- I. The Company did not have amounts that could be realized on life insurance at December 31, 2019.

### 22. Events Subsequent

#### Type I - Recognized Subsequent Events

Subsequent events have been considered through February 28, 2020 for the statutory statement issued on February 28, 2020.

The Company had no known reportable recognized subsequent events.

#### Type II - Nonrecognized Subsequent Events

Subsequent events have been considered through February 28, 2020 for the statutory statement issued on February 28, 2020.

The Company had no known reportable nonrecognized subsequent events.

The Administrative Services Agreement by and between the Company and AHM was amended effective January 1, 2020 and approved by Ohio Department on August 30, 2019. The amendment allows other affiliates to provide services in accordance to a schedule of services with at cost pricing.

### 23. Reinsurance

The Company did not have any reinsurance recoverables in dispute, uncollectible reinsurance, commutation of ceded reinsurance or retroactive reinsurance at December 31, 2019 or 2018.

### 24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. and B.

The Company did not have any retrospectively rated contracts in 2019 or 2018.

#### C. Contracts Subject to Retrospective Rating Features

The Company did not have any contracts subject to retrospective rating features in 2019 or 2018.

#### D. Medical Loss Ratio Rebates Required Pursuant to the Public Health Service Act

The Company did not have any medical loss ratio rebates required pursuant to the Public Health Service Act in 2019 or 2018.

#### E. Risk Sharing Provisions of the Affordable Care Act (ACA)

(1) Did the reporting entity write accident and health insurance premium which is subject to the ACA risk sharing provisions (YES/NO)? Yes  No

(2) through (5): Not applicable.

### 25. Change in Incurred Claims and Claims Adjustment Expense

The Company did not have any liability for unpaid claims or claims adjustment expenses at December 31, 2019.

### 26. Intercompany Pooling Arrangements

The Company did not have any intercompany pooling arrangements at December 31, 2019 or 2018.

### 27. Structured Settlements

The Company did not have any structured settlements at December 31, 2019 or 2018.

### 28. Health Care Receivables

#### A. Pharmaceutical Rebate Receivables

The Company did not have any pharmaceutical rebates receivables at December 31, 2019 or 2018.

## NOTES TO FINANCIAL STATEMENTS

### B. Risk sharing receivables

The Company did not have any admitted risk sharing receivables at December 31, 2019 or 2018.

### 29. Participating Policies

The Company did not have any participating policies at December 31, 2019 or 2018.

### 30. Premium Deficiency Reserves

	<u>December 31, 2019</u>
1. Liability carried for premium deficiency reserves	\$—
2. Date of the most recent evaluation of this liability	12/31/2019
3. Was anticipated investment income utilized in the calculation?	No

### 31. Anticipated Salvage and Subrogation

The Company did not reduce its liability for unpaid claims/losses by any estimated anticipated salvage and subrogation at December 31, 2019 or 2018 as the Company records salvage and subrogation on a paid basis when cash is received.
