**B. Use of Estimates in the Preparation of the Financial Statement**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. It also requires estimates in the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

**C. Accounting Policy**

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Expenses incurred in connection with acquiring new insurance business, including acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

**B. Investment Policies and Strategies**

In recognition of the difficulty in predicting the direction of the market or future state of the economy, the Plan's assets will be prudently diversified. In addition to asset classes, the Plan will be diversified among managers/funds and investment styles. The purpose of this approach is to incorporate prudent diversification within the Plan, enhancing expected returns and/or reducing the risk of the total portfolio.

The Plan may include liability-matching assets. The primary purpose of these assets is to gain duration exposure similar to that of the Plan liabilities and better match the credit exposure and asset quality with the discount rate used to value the Plan liabilities. As funded status changes, Plan asset allocation may change to better match duration and interest rate risk of Plan liabilities.

Reserves as of December 31, 2018 were \$9.252 million. As of December 31, 2019, \$4.553 million has been paid for incurred losses and loss adjusting expense attributable to insured events of prior years. Reserves remaining for prior years are now \$2.408 million as a result of re-estimation of unpaid claims and claim adjustment expenses principally on the auto liability and homeowners & farmowners lines of insurance. Therefore, there has been \$2.291 million of favorable prior year development since December 31, 2018 to December 31, 2019. The increase is generally the result on ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. The Company does not have retrospectively rated policies.
