### **Note 1 – Summary of Significant Accounting Policies and Going Concern**

#### **A. Accounting Practices**

The accompanying statutory financial statements of Nationwide Mutual Fire Insurance Company (the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Ohio.

The Ohio Department of Insurance (Department) recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance law. The NAIC's *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

Eagle Captive Reinsurance, LLC (Eagle) is a special purpose financial captive insurance company domiciled in the State of Ohio. The Company has an indirect partial ownership of Eagle through the Company's ownership of Nationwide Corporation. See the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement. Pursuant to Ohio Revised Code Chapter 3964 and the approval by the Department, Eagle has applied a prescribed practice which values Eagle's reserves on an alternative reserving basis from the NAIC's accounting practices and procedures manual. The prescribed practice decreased the subsidiary's valuation by \$8.8 million and \$8.7 million as of December 31, 2019 and December 31, 2018, respectively.

Olentangy Reinsurance, LLC (Olentangy) is a special purpose financial insurance company domiciled in the State of Vermont. The Company has an indirect partial ownership of Olentangy through the Company's ownership of Nationwide Corporation. See the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement. Olentangy was granted a permitted practice from the State of Vermont which increased the subsidiary's valuation by \$3.2 million and \$3.2 million as of December 31, 2019 and December 31, 2018.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio and the state of Vermont is shown below:

#### **B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of statutory financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### **C. Accounting Policies**

**Federal Income Taxes.** The Company files its own consolidated returns with its subsidiary, Retention Alternatives, Ltd. The Company provides for federal income taxes based on amounts the Company believes it ultimately will owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the financial statements significantly. Management has used best estimates to establish reserves based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation.

In accordance with guidance specified in the NAIC SAP, the Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets (DTA), net of any non-admitted portion and statutory valuation allowance, and deferred tax liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. DTAs and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The change in deferred taxes, excluding the impact of taxes on unrealized capital gains or losses and nonadmitted deferred taxes, is charged directly to surplus.

**Reinsurance Recoverables.** The Company cedes insurance to other companies in order to limit potential losses and diversify its exposure. Such agreements do not relieve the Company of its primary obligation to the policyholder in the event the reinsurer is unable to meet the obligations it has assumed. The Company monitors the financial condition of reinsurers on an ongoing basis and reviews its reinsurance agreements regularly in an attempt to minimize its exposure to significant losses from reinsurer insolvencies. Reinsurance recoverables include amounts billed to reinsurers on losses paid. Estimates of amounts expected to be recovered from reinsurers that have not yet been paid on losses are estimated in a manner consistent with the claim liability associated with the underlying policy. Such reinsurance recoverables and reserved deductions partially offset claim costs in the Company's statutory statements of operations and are included as an offset to losses and loss expense reserves in the accompanying statutory statements of admitted assets, liabilities and surplus. There were no contracts using deposit accounting as of December 31, 2019 and 2018.

Statutory accounting principles require recognition of a minimum liability for certain unsecured or overdue reinsurance recoverables. The conditional reserves were \$0 and \$240,000 as of December 31, 2019 and 2018, respectively.

In addition, the Company uses the following accounting policies:

1. Short-term investments consist of investments with maturities of twelve months or less at acquisition and are stated at amortized cost, which approximates fair value.
2. Bonds, excluding loan-backed and structured securities, are stated at amortized cost except those with a NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value. Amortization of premiums and discounts is calculated using the effective yield method. The Company does not hold any mandatory convertible securities or SVO-identified investments.

**NOTES TO THE FINANCIAL STATEMENTS**

3. Unaffiliated common stocks are reported at fair value.
4. Redeemable preferred stocks are stated at amortized cost except those with an NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value. Perpetual preferred stocks are stated at fair value except those with an NAIC designation of "3" through "6" which are stated at the lower of amortized cost or fair value.
5. Mortgage loans are carried at the unpaid principal balance adjusted for premiums, discounts, less a valuation allowance. The valuation allowance for mortgage loans reflects management's best estimate of probable credit losses.
6. Loan-backed and structured securities (collectively, loan-backed securities) are stated at amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles No. 43-Revised and the Purposes and Procedures Manual of the NAIC Securities Valuation Office. The retrospective adjustment method is used to value loan-backed securities where the collection of all contractual cash flows is probable. For all other loan-backed securities, the Company uses the prospective adjustment method.
7. Investments in subsidiary and affiliated companies are stated as follows:

With the exception of Nationwide Corporation, the admitted investments in all subsidiary, controlled, and affiliated (SCA) entities are valued using an equity method approach. Under this approach, investments in insurance affiliated companies are stated at underlying audited statutory surplus adjusted for unamortized goodwill. Investments in non-insurance affiliated companies that have no significant ongoing operations other than to hold assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity adjusted to a statutory basis of accounting. Investments in non-insurance affiliated companies that have significant ongoing operations beyond holding assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity. Unaudited affiliated companies of the reporting entity or its affiliates are non-admitted under prescribed SAP accounting practices. Goodwill arising from the acquisition of subsidiaries or affiliated companies is amortized over a period of ten years. Investments in affiliated companies are generally included in stocks. There was no unamortized goodwill at December 31, 2019 and 2018.

8. Other invested assets consist primarily of alternative investments in hedge funds, private equity funds, private and emerging market debt funds, tax credit funds and real estate partnerships. Except for investments in certain tax credit funds, these investments are recorded using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Gains and losses are generally recognized through income at the time of disposal or when operating distributions are received. Partnership interests in tax credit funds are held at amortized cost with amortization charged to investment income over the period in which the tax benefits, primarily credits, are utilized.
9. Refer to Note 8 for the derivative accounting policy.
10. Insurance premiums are generally earned ratably over the policy term. The liability for unearned premiums represents the portion of premiums written relating to the unexpired terms of coverage. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Premiums in course of collection represent agent balances and uncollected premiums from policyholders for current policies in force and policy premiums assumed from others, including amounts placed with affiliates. As of December 31, 2019 and 2018, the Company had no liabilities related to premium deficiency reserves. The Company includes anticipated investment income when calculating its premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
11. The Company establishes losses and loss expense reserves for reported claims and claims incurred but not yet reported (IBNR). Estimating the liability for losses and loss expense reserves involves significant judgment and multiple assumptions. Management considers the Company's experience with similar claims, historical trends, economic factors and judicial, legislative and regulatory changes in establishing reserves. The Company's losses and loss expense reserves are recorded net of reinsurance and amounts expected to be received from salvage (the amount recovered from property after the Company pays for a total loss) and subrogation (the right to recover payments from third parties). Assumptions and estimates for losses and loss expense reserves are updated as new information becomes available. Due to the inherent uncertainty in estimating losses and loss expense reserves, the actual cost of settling claims may differ materially from recorded amounts. Changes in losses and loss expense reserve estimates are included in results of operations in the period the estimates are revised.
12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The Company has not modified its capitalization policy from the prior period.
13. Not applicable as the Company does not write major medical insurance with prescription drug coverage.

4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1. Less than 12 Months	\$ (2,645,882)
2. 12 Months or Longer	\$ (2,966,627)

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$ 144,309,631
2. 12 Months or Longer	\$ 60,463,842

5. The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

## E. Dollar Repurchase Agreements and/or Securities Lending Transactions

1. The Company's securities lending agreement requires a minimum of 102% of the fair value of loaned securities to be held as collateral. Cash collateral received is invested in short-term investments and reported on the Asset page as Securities Lending Reinvested Collateral assets. The offsetting collateral liability is reported in the Payable for Securities Lending line on the Liabilities page.

2. No assets were pledged as collateral as of year-end.

6. The Company has accepted securities as collateral that is not permitted by contract or custom to repledge or sell. The fair value as of the date of each statement of financial position presented of the securities received as collateral was \$30,459,285 as of December 31, 2019.

## 7. There are no securities lending transactions that extend beyond one year as of the reporting date.

## F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

Not applicable.

## G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing

1. To manage short-term liquidity needs within the Nationwide insurance subsidiaries', the company has agreements to enter into repurchase or reverse repurchase agreements with several authorized affiliated insurance companies. The collateral required meets minimum state specific requirements or statutory requirements if state of domicile does not specify.

As these transactions are with affiliated insurance companies within the Nationwide family and are short-term in nature, the risk of changes in the fair value of the collateral are considered negligible.

For yield enhancement, the company has agreements to enter into repurchase agreements through its securities lending program with collateral consisting of U.S. Government/Agency securities with investment grade counterparties. The collateral, which is marked to market daily, must represent 102% of the amount loaned and is monitored by the plan's manager in Bank of New York Mellon for changes in fair value.

**NOTES TO THE FINANCIAL STATEMENTS****Note 8 - Derivative Instruments****A. Derivatives under SSAP No. 86 – Derivatives**

1. The Company is exposed to certain risks relating to its ongoing business operations which are managed using derivative instruments. The primary risks managed by using derivative instruments are foreign currency and interest rate. The Company uses cross currency swaps and interest rate futures to hedge these risks.

The Company is exposed to credit-related losses in the event of nonperformance by counterparties to financial instruments, but it does not expect any counterparties to fail to meet their obligations given their high credit ratings. Potential losses are minimized through careful evaluation of counterparty credit standing, selection of counterparties from a limited group of high quality institutions, and collateral agreements.

The cash requirements of a derivative will vary by contract. In a cross currency swap, notional amounts are typically exchanged in the respective contracted currencies at both settlement date and at expiration. Interest payments are also exchanged in the contracted currencies, timing and amounts. For exchange-traded futures, the broker for the various types of contracts that the Company may employ establishes margin requirements. The margin account is settled daily for movements in market values of open contracts and settlement of closed contracts. The Company uses cash to settle variation margin requirements and either cash or highly liquid securities to settle initial margin requirements.

2. Interest Rate Risk Management. The Company uses interest rate futures to reduce and/or alter interest rate exposure arising from mismatches between assets and liabilities. Interest rate futures are based off an underlying security that changes in value as interest rates change. As the value of the underlying referenced security changes, the promise to deliver or cash settle in the future at a fixed price through the futures contract also changes to offset interest rate risks the Company faces.

Foreign currency risk management. As part of its regular investing activities, the Company may purchase foreign currency denominated investments. These investments and the associated income expose the Company to volatility associated with movements in foreign exchange rates. In an effort to mitigate this risk, the Company uses cross-currency swaps. As foreign exchange rates change, the increase or decrease in the cash flows of the derivative instrument generally offset the changes in the functional-currency equivalent cash flows of the hedged item.

3. Periodic cash flows and accruals of income/expense are reported in a manner consistent with the hedged item, generally as other investment income. Realized gains and losses on commitment and anticipatory hedges are used to adjust the basis of the hedged item.

Fair value of derivative instruments is determined using various valuation techniques relying predominately on observable market inputs. These inputs include interest rate swap curves, credit spreads, interest rates, counterparty credit risk, equity volatility and equity index levels. In some cases, the Company will utilize non-binding broker quotes to determine fair value.

Derivative instruments used in hedging transactions considered to be effective hedges are valued and reported in a manner consistent with the hedged items (i.e., hedge accounting). Derivative instruments used in hedging transactions that do not meet or no longer meet the criteria of an effective hedge are accounted for at fair value with changes in fair value recorded in surplus as unrealized gains or losses.

4. The Company currently has no equity options where premium is paid at specified intervals throughout the life of the option.
5. No gain or loss recognized in derivative instruments' unrealized gains or losses during the year were excluded from the assessment of hedge effectiveness.
6. There is also no net gain or loss recognized during the year resulting from derivatives that no longer qualify for hedge accounting.
7. a. The Company is not currently engaged in written covered options used for income generation or derivatives accounted for as cash flow hedges of a forecasted transaction, other than the payment of variable interest on existing financial instruments.  
b. No amounts of gains or losses were classified in unrealized gains/losses related to cash flow hedges that have been discontinued because it was no longer probable that the original forecasted transaction would occur as anticipated.
8. The Company has no premium cost due in each of the following four years and thereafter.

2. The amount of Federal income taxes incurred that are available for recoupment in the event of future net losses are:

2019	\$ _____	-
2018	\$ _____	-

3. The Company did not have any protective tax deposits under Section 6603 of the Internal Revenue Code.

## F. Consolidated Federal Income Tax Return

1. The company's federal income tax return is consolidated with the following entities:

Retention Alternatives, Ltd.

2. The method of allocation among the companies is subject to the resolution approved by the Board of Directors. Allocation is based upon separate return or sub-group aggregated separate return calculations with the company being reimbursed for the actual Federal income tax benefit of its net operating losses which are actually used to reduce the taxable income of other companies in the consolidated return.

## G. Federal or Foreign Federal Income Tax Loss Contingencies

The Company does not have any tax loss contingencies for which it is reasonably possible that the total liability will significantly increase within twelve months of the reporting date.

## H. Repatriation Transition Tax (RTT)

Not applicable.

### Note 10 - Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

#### A. Nature of Relationships

The Company is a mutual entity and, as such, is not directly or indirectly owned or controlled by any other company, corporation, and group of companies, partnership or individual. The Company is operated by and solely in the interest of its policyholders.

Bonds and stocks, if any, owned, acquired or disposed of in any year by the Company, in any subsidiary or affiliate, are set forth in Schedule D of either this statement or those of prior years. Intercompany relationships and specific holdings are detailed in the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement.

The Company is a party to various reinsurance agreements including a pooling agreement with several affiliated companies. See Note 26.

The Company and various affiliates have entered into agreements with Nationwide Cash Management Company (NCMC) a subsidiary of Mutual, under which NCMC acts as a common agent in handling the purchases and sales of short-term investments for the respective accounts of the participants. Amounts on deposit with NCMC were \$158,984,576 and \$78,458,241 as of December 31, 2019 and 2018, respectively.

#### B. Detail of Transactions Greater than 1/2 % of Admitted Assets

In October 2018, the Company purchased \$20.1 million of commercial mortgage loans from Nationwide Bank.

#### C. Change in Terms of Intercompany Arrangements

See Note 26 for details.

#### D. Amounts Due to or from Related Parties

Affiliate receivables and payables are the result of cost sharing and intercompany service agreements between the Company and its affiliates in which settlement has not yet occurred. Affiliate receivables are presented gross of affiliate payables when the Company has the right to offset. The gross amounts due from affiliates were \$20,171,254 and \$23,225,164 as of December 31, 2019 and 2018, respectively. The gross amounts due to affiliates were \$186,924 and \$11,161,072 as of December 31, 2019 and 2018, respectively. These arrangements are subject to written agreements which require that intercompany balances be settled within 30 days.

#### E. Guarantees or Undertakings for Related Parties

The Company has no guarantees or contingent commitments to affiliates.

#### F. Management, Service Contracts, Cost Sharing Arrangements

The Company and various affiliates share a home office, other facilities, equipment, common management and administrative services. Pursuant to a cost sharing agreement between the companies, the amounts associated with these services are subject to allocation based on standard allocation techniques and procedures acceptable under general cost accounting techniques and procedures in conformity with the NAIC SAP. Measures used to determine the allocation among companies includes individual employee estimates of time spent, special cost studies, claims counts, policies in force, direct written premium, paid losses, pro rata share of employees or their salaries, and other methods agreed to by the participating companies. The Company does not believe amounts recognized under the intercompany agreement are materially different than what would have been recognized had the Company operated on a stand-alone basis.

#### G. Nature of Relationships that Could Affect Operations

Not applicable.

#### H. Amount Deducted for Investment in Upstream Company

Not applicable.

#### I. Detail of Investment in Affiliates Greater than 10% of Admitted Assets

The Company does not hold any investments in affiliates greater than 10% of Admitted Assets.

#### J. Write-down for Impairments of Investments in Subsidiary, Controlled or Affiliated Companies

Not applicable.

#### K. Investment in a foreign insurance subsidiary

Not applicable.

**NOTES TO THE FINANCIAL STATEMENTS****L. Downstream Holding Company**

Nationwide Corporation and NW REI (NMFIC), LLC are unaudited, downstream, noninsurance holding companies. In accordance with the "look through" provisions of SSAP No. 97, *Investments in Subsidiary, Controlled, and Affiliated Entities*, valuation of the admitted investments are based on the individual audited SCA entities owned by the holding companies. Additionally, all non-affiliated liabilities, commitments, contingencies, guarantees or obligations of the holding companies are reflected in the Company's determination of the carrying value of the investments. The unaudited assets and the unaudited SCA entities of the holding companies, both of which are immaterial, are non-admitted. The carrying values of the investments in Nationwide Corporation and NW REI (NMFIC), LLC at December 31, 2019 are \$311.8 million and \$39.2 million, respectively.

**E. Defined Contribution Plans**

Mutual sponsors a defined contribution retirement savings plan (401(k)) which covers substantially all employees. Employees may make salary deferral contributions of up to 80% provided this deferral does not exceed the maximum annual amount allowed by the IRS. Salary deferrals of up to 8% receive a 50% company match and salary deferrals of up to 7% receive a 50% company match for the years ended December 31, 2019 and 2018, respectively, 20% of which vests each year until the participant has five years of vesting service. The Company match is funded on a biweekly basis and the expense for contributions are allocated to the Company based on employee contributions. The Company's allocated expense for contributions was \$15,039,003 and \$16,192,910 for the years ended December 31, 2019 and 2018, respectively. Individuals are subject to a dollar limit on salary deferrals per IRS Section 402(g) (\$19,000 in 2019 and \$18,500 in 2018). Other limits also apply. The Company has no legal obligation for benefits under this plan.

**F. Multiemployer Plans**

Not applicable.

**G. Consolidated/Holding Company Plans**

The Company, together with other affiliated companies, participates in a qualified defined benefit pension plan (the Nationwide Retirement Plan or the NRP) sponsored by Mutual. The Company funds pension costs accrued for direct employees plus an allocation of pension costs accrued for employees of affiliates whose work benefits the Company. The Company also participates in a non-qualified defined benefit supplemental executive retirement plan sponsored by Mutual that covers certain executives with at least one year of service. The Company's portion of expense relating to these plans was \$12,966,426 and \$5,866,998 for the years ended December 31, 2019 and 2018, respectively.

In addition to the defined benefit plans, the Company and certain affiliated companies participate in health care benefit plans sponsored by Mutual for qualifying retirees, which are generally available to retirees who were full time employees who have attained age 55 and have at least 15 years of service with the Company. The Company's portion of the expense relating to these plans was \$1,581,930 and \$1,371,961 for the years ended December 31, 2019 and 2018, respectively.

**2. Dividend Rate of Preferred Stock**

Not applicable.

**3. Dividend Restrictions**

The maximum amount of dividends which can be paid to shareholders by a State of Ohio domiciled insurance company without prior approval of the Director of Insurance is limited to, together with that of other dividends or distributions made within the preceding twelve months, the greater of either 10% of surplus as regards policyholders as of the preceding December 31, or the net income for the twelve month period ending December 31 of the previous calendar year. Additionally, any dividend or distribution paid from other than earned surplus shall require prior approval of the Director of Insurance. Subject to applicable regulatory approval(s), dividends are paid as determined by the insurer's board of directors.

**4. Dividends Paid**

No dividends were paid by the company during 2019 and 2018.

**5. Profits Available for Ordinary Dividends**

Within the limitations of (3) above, there are no restrictions placed on the portion of Company profits that may be paid as ordinary dividends to shareholders.

**6. Restrictions on Surplus**

There is no restriction on the use of the Company's unassigned surplus and such surplus is held for the benefit of the shareholder.

**7. Advances to Surplus Not Repaid**

**Note 14 – Contingencies**

## A. Contingent Commitments

At December 31, 2019, the Company has unfunded commitments of \$259.6 million related to its investments in limited partnerships and limited liability companies.

As indicated in Note 10E, the Company has made no guarantees on behalf of affiliates or on indebtedness of others.

## B. Assessments

1. The Company is subject to guaranty fund and other assessments by the states in which it writes business. Guaranty fund assessments should be accrued at the time of insolvencies. Other assessments should be accrued either at the time of assessment or in the case of premium based assessments, at the time the premiums were written. In the case of loss-based assessments, the assessments should be accrued at the time the losses are incurred.

As of December 31, 2019 and 2018, the Company accrued a liability for guaranty fund and other assessments of \$512 thousand and \$226 thousand, respectively. These represent management's best estimates based on information received from the states in which the Company writes business and may change due to many factors including the Company's share of the ultimate cost of current insolvencies.

2.	Description	Amount

**NOTES TO THE FINANCIAL STATEMENTS****G. All Other Contingencies**

Various lawsuits arise against the Company in the normal course of the Company's business. Contingent liabilities arising from litigation were reserved net of anticipated recoveries for \$13.2 million and \$9.5 million at December 31, 2019 and 2018, respectively.

**Note 15 – Leases**

Not applicable.

**Note 16 - Information About Financial Instruments With Off-Balance Sheet Risk And Financial Instruments With Concentrations of Credit Risk**

A. The table below summarizes the face amount of the Company's financial instruments with off balance sheet risk.

Description	Assets		Liabilities	
	2019 Notional	2018 Notional	2019 Notional	2018 Notional
a. Swaps	\$ 14,920,000	\$ 14,920,000	- \$	-
b. Futures	33,600,000	-	-	42,700,000
c. Options	-	-	-	-
Total	\$ 48,520,000	\$ 14,920,000	- \$	42,700,000

B. Notional amounts of derivative financial instruments significantly exceed the credit risk associated with these instruments and represent contractual balances on which calculations of amounts to be exchanged are based. Credit exposure is limited to the sum of the aggregate fair value of positions that have become favorable to the Company, including accrued interest receivable due from counterparties, net of collateral received.

C. Potential credit losses from derivative counterparties are minimized through careful evaluation of counterparty credit standing, selection of counterparties from a limited group of high quality institutions, collateral agreement and other contract provisions.

D. Collateral requirements for over-the-counter derivative instruments are controlled by the International Swap Dealers Association and Credit Support Annex documents that are negotiated with each counterparty. Generally, these documents outline each party's rights and obligations for receiving and posting collateral. These documents address such issues as calculating collateral due/owed, delivery and return of collateral, uses and substitution for collateral, distributions and interest rights and remedies for both parties, credit thresholds and eligible collateral (typically cash, debt obligations issued by the United States Treasury, or obligations issued by government agencies). The Company monitors their collateral position on a daily basis, adjusting positions as necessary, and in accordance with the terms of these agreements. For future contracts, the broker for the various types of futures contracts that the Company may employ establishes margin requirements. The margin account is settled daily for changes in contracts outstanding and movements in market values of open contracts. The Company uses cash to cover the margin account for future activity.

**Note 17 - Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities**

A. Transfers of Receivables Reported as Sales

Not applicable.

B. Transfer and Servicing of Financial Assets

1. The Company has entered into a securities lending agreement with an agent bank whereby eligible securities may be loaned to third parties, primarily major brokerage firms. These transactions are used to generate additional income on the securities portfolio. Loaned securities continue to be reported as invested assets and the Company is entitled to receive any payments of interest or dividends paid on loaned securities. The agreement requires a minimum of 102% of the fair value of loaned securities to be held as collateral. Cash collateral received from borrowers is reflected as a "Payable for securities lending" on the "Statement of Liabilities, Surplus and Other Funds" while non-cash collateral is recorded off-balance sheet. Cash collateral received is reinvested by the agent bank in accordance with the Company's authorized investment policy and included in "Securities lending reinvested collateral assets" in the "Statement of Assets". If the fair value of the reinvested collateral assets is less than the fair value of the securities loaned, the shortfall is non-admitted. Because the borrower or the Company may terminate a securities lending transaction at any time, if loans are terminated in advance of the reinvested collateral asset maturities, the Company would repay its securities lending obligation from operating cash flows or the proceeds of sales from its investment portfolio, which includes significant liquid securities.

The fair value of loaned securities was \$60.3 million at December 31, 2019. The Company holds \$30.5 million of non-cash collateral for loaned securities as of December 31, 2019.

Reinvested collateral assets reported on Schedule DL are excluded from other statutory schedules and disclosures.

**Note 20 – Fair Value Measurements**

A. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Company categorizes assets and liabilities held at fair value in the statutory statements of assets and liabilities, surplus and other funds as follows:

**Level 1.** Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

**Level 2.** Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, London Interbank Offered Rate, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

**Level 3.** Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimates of the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs. Primary inputs to this valuation technique include broker quotes and comparative trades.

The Company reviews its fair value hierarchy classifications for assets and liabilities quarterly. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the period in which the change occurs.

Independent pricing services are most often utilized to determine the fair value of bonds and stocks for which market quotations or quotations on comparable securities are available. For these bonds and stocks, the Company obtains the pricing services' methodologies, pricing from additional sources, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

A corporate pricing matrix is used in valuing certain corporate bonds. The corporate pricing matrix was developed using publicly available spreads for privately placed corporate securities with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when deemed appropriate or when quotes are not available from independent pricing services or a corporate pricing matrix. These bonds are classified with the lowest priority in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased. Inputs used in the development of prices are not provided to the Company by the brokers as the brokers often do not provide the necessary transparency into their quotes and methodologies. At least annually, the Company performs reviews and tests to ensure that quotes are a reasonable estimate of the investments' fair value. Price movements of broker quotes are subject to validation and require approval from the Company's management. Management uses its knowledge of the investment and current market conditions to determine if the price is indicative of the investment's fair value.

The Company carries short-term investments at amortized cost, which approximates fair value.

The fair value of derivative instruments is determined using various valuation techniques relying predominately on observable market inputs. These inputs include interest rate swap curves, credit spreads, interest rates, counterparty credit risk, equity volatility and equity index levels. Fair value of derivative instruments is determined using various valuation techniques relying predominately on observable market inputs. These inputs include interest rate swap curves, credit spreads, interest rates, counterparty credit risk, equity volatility and equity index levels. In cases where observable inputs are not available, the Company will utilize non-binding broker quotes to determine fair value and these instruments are classified accordingly in the fair value hierarchy.

C. Other Disclosures

At December 31, 2019, the Company has commitments for commercial mortgage loans of \$37 million.

As part of the Company's derivative program, the Company may receive securities posted by counterparties that are considered off-balance sheet and are not included in the financials of the Company. Such securities are reflected in Schedule DB, Part D, Section 2 under the Collateral Pledged to Reporting Entity heading.

Effective June 1, 2019, the Company renewed the Property Catastrophe Program as follows: National Tower with varying placements totaling \$2.566 billion for losses per event between \$500 million and \$3.40 billion. This includes the catastrophe bond, Caelus Re 2016-1, issued in 2016 providing national coverage at 75% of \$400.0 million excess of \$1.95 billion. Following a single loss event over \$500 million, the retention would be reduced from \$500 million to \$250 million for a second loss event in the treaty year. For the 2019 risk period, the Caelus Re 2017-1 and 2018-1 aggregate catastrophe bonds also provide national coverage. See Note 21G for additional information regarding the Caelus Re catastrophe bonds.

Effective July 1, 2019, the Nationwide group renewed its Property per Risk program on an enterprise-wide basis covering risks underwritten by the Company. The structure remains unchanged at \$115.0 million excess of \$10.0 million.

In August 2011, the Company entered into the California Earthquake Authority (CEA). Exposure to certain potential losses from earthquakes in California is limited by the Company's participation in the CEA, which provides insurance for California earthquake losses. The CEA is a privately-financed, publicly-managed state agency created to provide insurance coverage for earthquake damage. Management believes that the Company's exposure to earthquake losses in California will be significantly reduced as a result of its participation in the CEA.

Should losses arising from an earthquake cause a deficit in the CEA, additional funding would be obtained from the proceeds of revenue bonds the CEA may issue, an existing reinsurance layer and finally, if needed, assessments on participating insurance companies, to restore the CEA capital to the statutory minimum-capital level. All future assessments on participating CEA insurers are based on their CEA market share as of December 31 of the preceding year. As of December 31, 2019, the Company has not been charged an assessment.

An additional issuance, Caelus Re 2018-1, was offered May 10, 2018 within Caelus Re V Limited augmenting the existing program. The coverage is effective June 1, 2018 and expires on May 31, 2021. For the 2019 risk period, the aggregate Caelus Re V structure provides aggregate coverage of \$675 million, prior to accounting for previous qualifying losses, for aggregate losses between \$1.262 billion and \$1.987 billion with varying placements per layer.

On May 4, 2017, the Company and certain of its affiliates entered into an agreement with Caelus Re V Limited, a Cayman Islands Special Purpose Reinsurance Vehicle, for the purpose of securing collateralized, multiyear property catastrophe loss protection through the capital markets. The catastrophe bond, Caelus Re 2017-1, issued as part of this agreement provides reinsurance coverage to the Company and certain of its affiliates for catastrophic events, including hurricanes, winter storms, convective storms, wildfire, meteorite, volcanic eruption, earthquakes and the fires following earthquakes. The catastrophe bond is an indemnity trigger-based bond where the Company and certain of its affiliates recover losses in excess of specified levels of annual aggregate catastrophic claims with a franchise deductible of \$50 million for each catastrophic event. The coverage is effective June 1, 2017 and expires on May 31, 2020.

On February 29, 2016, the Company and certain of its affiliates entered into an agreement with Caelus Re IV Limited, a Cayman Islands Special Purpose Reinsurance Vehicle, for the purpose of securing collateralized, multiyear property catastrophe loss protection through the capital markets. The catastrophe bond, Caelus Re 2016-1, issued as part of this agreement provides per occurrence reinsurance coverage to the Company and certain of its affiliates for catastrophic events, including hurricanes, winter storms, convective storms, wildfire, meteorite, volcanic eruption, earthquakes and the fires following earthquakes. The catastrophe bond is an indemnity trigger-based bond where the Company and certain of its affiliates recover losses in excess of specified levels of catastrophic claims. For the 2019 risk period, the Caelus Re 2016-1 catastrophe bond provides national coverage at 75% of \$400 million excess of \$1.95 billion. ### **Note 25 - Changes in Incurred Losses and Loss Adjustment Expenses**

A. As of December 31, 2018, loss and loss adjustment expense reserves, net of reinsurance recoveries, were \$3.40 billion. On January 1, 2019, loss and loss adjustment expense reserves of \$15.1 million were transferred from the Company as a result of the pooling and quota share agreements, effective January 1, 2019. See Note 26 for details. Payments for incurred claims and claim adjustment expenses attributable to insured events of prior years were \$1.40 billion for the year ended December 31, 2019. As of December 31, 2019, remaining loss and loss adjustment expense reserves attributable to insured events of prior years were \$2.05 billion. The Company experienced unfavorable prior-year development of \$55.1 million during the year ended December 31, 2019, primarily driven by excess and surplus unfavorable development in discontinued lines and development across various liability products, partially offset by lower than expected prior year claim emergence in standard commercial and favorable emergence in homeowners as a result of subrogation.

B. During 2019, the Company did not make any significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses.

### **Note 26 - Intercompany Pooling Arrangements**

Nationwide Mutual Insurance Company is the lead company in the Nationwide Pool. Each pool member company contributes 100% of its underwriting results to the Nationwide Pool through the reinsurance pooling agreement.

Effective January 1, 2019, Nationwide General Insurance Company was added as a Nationwide Pool recipient and changed from a 0% to 1% retrocessionnaire.

As of December 31, 2019 and December 31, 2018, the companies in the Nationwide Pool assuming a proportionate share of the pool are:

	NAIC #	2019 Pool	2018 Pool
Nationwide Mutual Insurance Company	23787	72.0%	73.0%

Scottsdale Insurance Company	41297	4.0%	4.0%
Nationwide General Insurance Company	23760	1.0%	0.0%

**NOTES TO THE FINANCIAL STATEMENTS**

Effective January 1, 2020, the Nationwide Pool structure was revised. Nationwide Mutual Insurance Company's assumed pooling percentage decreased from 72% to 71%. Scottsdale Insurance Company was removed as a Nationwide Pool recipient. National Casualty Company terminated its 100% quota share reinsurance agreement with Nationwide Mutual. Nationwide Agribusiness Insurance Company, Nationwide Insurance Company of America and National Casualty Company were each added as a Nationwide Pool recipient with a 3%, 1% and 1% assumed pooling percentage, respectively.

Effective January 1, 2019, Victoria Select Insurance Company was removed from the Nationwide Pool and entered into a 100% quota share reinsurance agreement with Nationwide Mutual Insurance Company. Nationwide Mutual Insurance Company then cedes 100% of the business to the Nationwide Pool.

Effective January 1, 2019, in conjunction with the merger of Titan Indemnity Company with and into Titan Insurance Company on January 1, 2019, Titan Indemnity Company terminated its participation in the Nationwide Pool and the assets and liabilities were commuted back to Titan Indemnity Company.

All of the other companies in the Nationwide Pool have a 0% retrocession. The zero percent participants in the Nationwide Pool as of December 31, 2019 are: Nationwide Property and Casualty Insurance Company (NAIC #37877), Nationwide Affinity Insurance Company of America (NAIC #26093), Crestbrook Insurance Company (NAIC #18961), Allied Insurance Company of America (NAIC #10127), Nationwide Assurance Company (NAIC #10723), Nationwide Lloyds (NAIC #42110), Nationwide Insurance Company of Florida (NAIC #10948), AMCO Insurance Company (NAIC #19100), Allied Property and Casualty Insurance Company (NAIC #42579), Depositors Insurance Company (NAIC #42587), Nationwide Agribusiness Insurance Company (NAIC #28223), Nationwide Insurance Company of America (NAIC #25453), Victoria Fire & Casualty Company (NAIC #42889), Victoria National Insurance Company (NAIC #10778), Harleysville Preferred Insurance Company (NAIC #35696), Harleysville Insurance Company of New Jersey (NAIC #42900), Harleysville Worcester Insurance Company (NAIC #26182), Harleysville Insurance Company of New York (NAIC #10674), Harleysville Lake States Insurance Company (NAIC #14516), Harleysville Insurance Company (NAIC #23582) and Veterinary Pet Insurance Company (NAIC #42285).

All lines of business are subject to the pooling agreements.

There are no discrepancies related to the pooled business between the assumed and ceded reinsurance schedules of the pool participants.

As of December 31, 2019, National Casualty Company and Colonial County Mutual Insurance Company remain covered under separate 100% quota share reinsurance agreements with Nationwide Mutual Insurance Company. Nationwide Mutual Insurance Company then cedes 100% of this business to the Nationwide Pool.

As of December 31, 2019, Scottsdale Surplus Lines Insurance Company, Scottsdale Indemnity Company and Freedom Specialty Insurance Company remain covered under a separate 100% quota share reinsurance agreement with Scottsdale Insurance Company. Scottsdale Insurance Company then cedes 100% of this business to the Nationwide Pool.

In connection with the above pooling percentage change and the participation of Titan Indemnity Company being terminated effective January 1, 2019, assets and liabilities were transferred between Nationwide Mutual Insurance Company, Nationwide Mutual Fire Insurance Company, Scottsdale Insurance Company, Nationwide General Insurance Company and Titan Insurance Company. The Company transferred assets of \$4.5 million and liabilities of \$19.8 million, primarily consisting of loss and loss expense reserves of \$15.1 million.

Furthermore, the Company transferred securities of \$14.2 million and cash of \$1.1 million to settle these transactions.

**Note 27 - Structured Settlements**

A. Reserves Released due to Purchases of Annuities

The Company has settled certain losses with structured settlement agreements whereby the Company has purchased an annuity with the claimant as the payee. The structured settlement agreements are considered qualified assignments, and therefore the Company is not contingently liable if the annuity issuing company is unable to meet the payment obligations.

<u>Loss Reserves Eliminated by Annuities</u>	<u>Unrecorded Loss Contingencies</u>
\$21.2 million	\$0

B. Annuity Insurers with Balances due Greater than 1% of Policyholders' Surplus

There were no annuity insurers with balances due greater than 1% of policyholders' surplus in 2019.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **Note 28 - Health Care Receivables**

Not applicable.

### **Note 29 – Participating Policies**

Not applicable.

### **Note 30 - Premium Deficiency Reserves**

The Company's liability for premium deficiency reserves as of December 31, 2019 is as follows:

1. Liability carried for premium deficiency reserves	\$0
2. Date of the most recent evaluation of this liability	January 24, 2020
3. Was anticipated investment income utilized in the calculation?	Yes

### **Note 31 – High Deductibles**

Not applicable.

### **Note 32 - Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses**

The Company discounts the liabilities for unpaid losses and loss expenses for long-term accident and health claims. The Company does not discount IBNR for accident and health claims. Third party administrators service the Company's long-term accident and health unpaid disability claims and supply the reserves and tabular discount; thus, different methodologies have been utilized.

#### **A. Tabular Discounts**

Reserves for long-term accident and health claims have been discounted on a tabular basis using the 1987 Commissioner's Group Disability Table (CGDT). The rate used was the maximum interest rate permitted by law in the valuation of a single premium immediate annuity issued on the same date as the claim incurrable date, reduced by one hundred basis points (rates used vary from 2.75% to 10.25%). As of December 31, 2019 and 2018, liabilities include \$130,382 and \$224,454 of such discounted reserves, respectively.

During 2019, the Company recognized \$7,460 of interest accretion related to tabular discount, which is included within the Statement of Income on Line 2.

The table below represents the amount of tabular discount for case and IBNR reserves as of December 31, 2019:

**NOTES TO THE FINANCIAL STATEMENTS****Note 33 - Asbestos/Environmental Reserves**

A. The Company has exposure to asbestos and environmental claims through either the direct issuance of general liability policies or through reinsurance assumptions. The Company estimates the full impact of its asbestos and environmental exposure by establishing case reserves when sufficient information has been developed to indicate the involvement of a specific insurance policy. In addition, incurred but not reported reserves have been established to cover additional exposures on both known and unasserted claims, primarily utilizing historical information.

The Company's asbestos and environmental related losses for calendar years 2015-2016 have been restated to reflect the pooling changes that were effective January 1, 2017. See Note 26 for details.

# NATIONWIDE MUTUAL FIRE INSURANCE COMPANY

## GENERAL INTERROGATORIES

### PART 1 - COMMON INTERROGATORIES

For fixed maturity and marketable equity securities for which market quotations generally are available, Nationwide generally uses independent pricing services to assist in determining the fair value measurement. For certain fixed maturity securities not priced by independent services (generally private placement securities without quoted market prices), an internally developed pricing model or "corporate pricing matrix" is most often used. The corporate pricing matrix is developed by obtaining private spreads versus the U.S. Treasury yield for corporate securities with varying weighted average lives and bond ratings. The weighted average life and bond rating of a particular fixed maturity security to be priced using the corporate matrix are important inputs into the model and are used to determine a corresponding spread that is added to the U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular fixed maturity security. Nationwide also utilized broker quotes to assist in pricing securities or to validate modeled prices.

31.1 Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D? Yes [X] No [ ]

31.2 If the answer to 31.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source? Yes [ ] No [X]

31.3 If the answer to 31.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:  
Nationwide relies on broker valuations only when an approved third party vendor evaluation is not available. Any exceptions are approved by Risk Management and the Middle Office and reviewed by the Investments Pricing Committee. The brokers used to value securities are deemed to be main market makers for each individual security and therefore have in depth knowledge of the particular issue.

32.1 Have all the filing requirements of the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* been followed? Yes [X] No [ ]

32.2 If no, list exceptions:

33. By self-designating 5GI securities, the reporting entity is certifying the following elements for each self-designation 5GI security:

- Documentation necessary to permit a full credit analysis of the security does not exist or an NAIC CRP credit rating for an FE or PL security is not available.
- Issuer or obligor is current on all contracted interest and principal payments.
- The insurer has an actual expectation of ultimate payment of all contracted interest and principal.

Has the reporting entity self-designated 5GI securities? Yes [X] No [ ]

34. By self-designating PLGI securities, the reporting entity is certifying the following elements of each self-designated PLGI security:

- The security was purchased prior to January 1, 2018.
- The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.
- The NAIC Designation was derived from the credit rating assigned by an NAIC CRP in its legal capacity as an NRSRO which is shown on a current private letter rating held by the insurer and available for examination by state insurance regulators.
- The reporting entity is not permitted to share this credit rating of the PL security with the SVO.

Has the reporting entity self-designated PLGI securities? Yes [ ] No [X]

35. By assigning FE to a Schedule BA non-registered private fund, the reporting entity is certifying the following elements of each self-designated FE fund:

- The shares were purchased prior to January 1, 2019.
- The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.
- The security had a public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO prior to January 1, 2019.
- The fund only or predominantly holds bonds in its portfolio.
- The current reported NAIC Designation was derived from the public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO.
- The public credit rating(s) with annual surveillance assigned by an NAIC CRP has not lapsed.

Has the reporting entity assigned FE to Schedule BA non-registered private funds that complied with the above criteria? Yes [ ] No [X]
