NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory financial statements of MedMutual Life Insurance Company (fka Consumers Life Insurance Company) (the Company or MMLIC) have been prepared in conformity with the National Association of Insurance Commissioners’ (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP), as prescribed by the Ohio Department of Insurance (ODI). No accounting practices were employed by the Company in 2019 or 2018 that departed from NAIC SAP.

B. Use of Estimates in the Preparation of the Financial Statement

The preparation of the financial statements requires management to make estimates and assumptions that affect amounts reported in the statutory financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

C. Accounting Policy

Basis of Presentation

Statutory accounting practices vary from generally accepted accounting principles (GAAP). The more significant differences from GAAP are as follows:

Nonadmitted Assets

Certain assets designated as “nonadmitted”, principally other receivables and prepaid expenses, not specifically identified as an admitted asset in the NAIC’s *Accounting Practices and Procedures Manual*, are excluded from the statutory statements of admitted assets, liabilities and capital and surplus and are charged directly to capital and surplus. In accordance with GAAP, such assets are included in the balance sheet, net of valuation allowance, if necessary. Capital and surplus was reduced by nonadmitted assets of \$63,000 and \$47,000 at December 31, 2019 and 2018, respectively.

Guarantee Fund Premium Tax Assets

The Company recognizes premium tax assets that are recoverable in excess of one year if the credits are due to the insolvency of a writer of long-term care contracts. For GAAP, the Company is only permitted to recognize premium tax assets that are recoverable in the next calendar year as credits against taxes owed on premiums earned in the current calendar year.

Deferred Income Taxes

The Company computes deferred income taxes in accordance with Statement of Statutory Accounting Principle (SSAP) No. 101, *Income Taxes*. Under SSAP No. 101, gross deferred tax assets are reduced by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more-likely-than-not that some portion or all of the gross deferred tax assets will not be realized to calculate the adjusted gross deferred tax assets.

Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company includes many factors, including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of reversal; (4) taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards; (5) the length of time that carryovers can be used; (6) unique tax rules that would impact the utilization of the deferred tax assets; (7) any tax planning strategies that the Company would employ to avoid a tax benefit expiring unused.

Admitted adjusted deferred income tax assets are limited to (1) the amount of federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with the Internal Revenue Service tax loss carryback provisions, not to exceed three years, plus (2) the amount of adjusted gross deferred income tax assets expected to be realized within three years limited to an amount that is no greater than 15% of current period’s adjusted statutory capital and surplus, plus 3) the amount of remaining adjusted gross deferred income tax assets that can be offset against existing gross deferred income tax liabilities after considering the character (i.e., ordinary versus capital) and reversal patterns of the deferred tax assets and liabilities. The remaining adjusted deferred income tax assets are nonadmitted.

Under GAAP, a deferred income tax asset is recorded for the amount of gross deferred income tax assets expected to be realized in all future years, and a valuation allowance is established for deferred income tax assets not realizable.

Reinsurance

Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves rather than as assets as would be required under GAAP.

NOTES TO FINANCIAL STATEMENTS

Valuation Reserve

Capital gains on bonds, net of taxes, that arise from interest rate fluctuations are credited to an interest maintenance reserve (IMR), and the IMR is amortized over the remaining life of the bond sold. For GAAP, capital gain and losses are recognized as current income or loss. An asset valuation reserve (AVR) is maintained for the risk asset defaults based on NAIC proscribed formula with changes reflected in unassigned surplus. AVR is not recognized for GAAP.

Statutory Statements of Cash Flow

Cash and short-term investments in the statutory statements of cash flow represent cash balances and investments with initial maturities of one year or less. Under GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with maturities of three months or less.

Other significant accounting practices are as follows:

Invested Assets

U.S. government securities and corporate bonds not backed by other assets are recorded at cost adjusted for amortization of premiums and discounts using the interest method. The fair values disclosed for these securities are obtained from independent pricing services.

Other-Than-Temporary Impairment

The Company reviews the values of the Company’s investments on a quarterly basis. If the value of the investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the following is considered:

- The length of time and the extent to which the fair value has been less than the amortized cost basis.
- The Company’s ability and intent to hold the security long enough for it to recover its value.
- A significant deterioration in the earning performance, credit rating, asset quality or business prospects of the investee.
- A significant adverse change in the regulatory, economic, or technological environment of the investee.
- Factors that raise significant concerns about the investee’s ability to continue as a going concern such as negative cash flows from operations, working capital deficiencies, or noncompliance with statutory capital requirements or debt covenants.

Fair Value Measurements

Assets recorded in the statutory statements of admitted assets, liabilities and capital and surplus are categorized based on the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

Level 1	Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.
Level 2	Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.
Level 3	Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company’s best estimate of what hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

Premiums

Premiums are earned and recorded, net of amounts assumed and ceded under reinsurance agreements, pro rata over the period for which coverage is provided. Uncollected premiums include uncollected amounts from insured individuals and groups and are reported net of an allowance for amounts deemed uncollectible. Premium payments received prior to the period of coverage are classified as advance premiums.

The Company is subject to premium and loss experience rating agreements with certain life insurance customers. As of December 31, 2019 and 2018, the Company recognized a liability of \$3,292,000 and \$3,270,000, respectively, for these agreements. These premium adjustments are recognized as adjustments to earned premium in the period in which it is determined that adjustments are required.

Uncertain Tax Policies

The Company records uncertain tax positions on the basis of a two-step process whereby (1) the Company determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, the Company recognizes the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority.

Changes to liabilities for uncertain tax positions are recorded as income tax expense in the accompanying statutory statements of revenue and expenses. The total liability for uncertain tax positions at December 31, 2019 and 2018 was \$35,000 and \$44,000, respectively. The Company does not expect any significant changes in its uncertain tax positions in 2020.

ACA Risk Adjustment Program

The ACA authorized a permanent risk adjustment program designed to transfer funds from qualified individual and small group plans with below average risks scores to those respective plans with above average risk scores. The estimates of amounts owed or due from the permanent risk adjustment program is required to be reflected as an adjustment to earned premium if sufficient data is available to make an estimate. The Company accounts for the Premium Stabilization Program in accordance with SSAP No.107, *Accounting for the Risk-Sharing Provisions of the Affordable Care Act* (SSAP No. 107).

In 2018, the Company recognized \$756,000 related to 2017 net risk adjustments. Settlement of 2017 risk adjustment was favorable to the estimate

NOTES TO FINANCIAL STATEMENTS

recorded in the 2017 statutory financial statements. The Company no longer offers products subject to the risk adjustment program.

(1) *Basis for Short-Term Investments*

Short-term investments, principally money market accounts, include investments with remaining maturities of one year or less at the time of acquisition and are principally carried at amortized cost, which approximates fair value.

(2) *Basis for Bonds and Amortization Schedule*

Investments in bonds are reported at cost, or amortized cost or fair value based on their NAIC rating; for GAAP, such fixed maturity investments are held as available-for-sale and are reported at fair value with unrealized holding gains and losses reported as a separate component of capital and surplus.

Under statutory accounting, a realized loss is recorded upon the sale of an investment at a loss or when a decline in the fair value of an investment is determined by management to be other than temporary. Realized capital gains and losses are determined on the first-in, first-out cost method.

For GAAP, when a decline in the fair value is other than temporary, the difference between the security’s fair value and carrying value (amortized cost) must be realized in earnings if the Company has the intent to sell the security or does not have the intent and ability to hold the security until recovery of the carrying value. If the Company does not intend to sell the security and it is more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, the other-than-temporary impairment (OTTI) would be separated into (a) the amount representing the credit loss and (b) the amount related to all other factors. The amount of the total OTTI related to the credit loss would be recognized in earnings. The amount of the total OTTI related to other factors would be recognized in other comprehensive income.

A. Deferred Tax Assets/(Liabilities)

The Company is taxed as a stock property and casualty insurance company and met the requirements to file a consolidated federal income tax return with its Parent and other affiliates in 2019 and 2018. According to Internal Revenue Code (IRC) Section 816(a), if a company's average life reserves comprise more than 50 percent of its aggregate reserves it will be taxed as a life insurance company. Under the TCJA, net operating losses (NOLs) of life insurance

NOTES TO FINANCIAL STATEMENTS

companies may carryforward indefinitely, but limits utilization to 80 percent of a given year’s taxable income with no loss carryback capacity. If MMLIC meets this test, it will no longer be able to carryback NOLs. This classification would not materially impact MMLICs overall admitted DTA under SSAP 101. The Company’s DTAs would be admitted under SSAP 101 paragraph 11b versus 11a.

The Company is party to a written tax sharing agreement with its Parent and other affiliates. According to the agreement each member pays taxes or receives credits (to/from the Parent) as if the member had filed a separate tax return. The payment is finalized for the tax year after the return is filed and/or after an IRS audit is completed. A member generating a taxable loss, or whose net operating losses (NOLs) or other tax attributes are utilized in the current year, or whose tax attributes are utilized, is compensated for such loss or attributes utilized in the year absorbed.

Deferred income tax assets (DTAs) and liabilities (DTLs) represent the expected future tax consequences of temporary items with differences generated by statutory accounting as defined in SSAP No. 101. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a balance sheet approach whereby statutory and tax basis statutory statements of admitted assets, liabilities and capital and surplus are compared.

Current federal income tax payables to the Parent include all current income taxes, including interest, expected to be paid in a subsequent accounting period. Any tax related to the tax sharing agreement is included in the current federal income tax payable balance until the tax return is filed and amounts are then settled with the Parent.

The Company paid no federal income taxes during 2019 or 2018. The Company cannot recover any income tax incurred relating to 2019 and 2018 if the Company has losses in future years.

The Company is subject to federal income tax examinations by tax authorities for the years 2016 through 2019. 2015 and prior years are closed.

Note 23 – Reinsurance

A. Ceded Reinsurance Report

Certain premiums and benefits are ceded to other insurance companies under various reinsurance agreements. The ceded reinsurance agreements provide the Company with increased capacity to write larger risks and maintain its exposure to loss within its capital resources. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations.

The Company cedes life claims in accordance with an excess of loss reinsurance contract. In addition, the Company cedes all of the risk for accidental death and dismemberment and long-term disability coverage.

The effects of reinsurance on earned life premiums are as follows:

	Year Ended December 31	
	2019	2018
Direct life insurance premiums	\$ 25,515,000	\$ 25,365,000
Ceded life insurance premiums	2,403,000	2,423,000
Net life insurance premiums	<u>\$ 23,112,000</u>	<u>\$ 22,942,000</u>

The effects of reinsurance on earned accident and health premiums are as follows:

	Year Ended December 31	
	2019	2018
Direct accident and health insurance premiums	\$ 6,808,000	\$ 6,734,000
Ceded accident and health insurance premiums	2,706,000	2,471,000
Net accident and health insurance premiums	<u>\$ 4,102,000</u>	<u>\$ 4,263,000</u>

Differences between written and earned premiums subject to reinsurance are not significant.

The Company’s ceded reinsurance arrangements reduced certain other items in the accompanying statutory financial statements by the following amounts:

	Year Ended December 31	
	2019	2018
Benefit expenses	\$ 2,934,000	\$ 2,191,000
Aggregate reserves and contract claim reserves	\$ 8,509,000	\$ 8,430,000

Section 1 – General Interrogatories

- (1)

Are any of the reinsurers listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the company or by any representative, officer, trustee, or director of the company? Yes [] No [X]
If yes, give full details.
- (2)

Have any policies issued by the company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business? Yes [] No [X]
If yes, give full details.

Section 2 – Ceded Reinsurance Report – Part A

- (1)

Does the company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits? Yes [] No [X]

a.

If yes, what is the estimated amount of the aggregate reduction in surplus of a unilateral cancellation by the reinsurer as of the date of this statement, for those agreements in which cancellation results in a net obligation of the reporting entity to the reinsurer, and for which such obligation is not presently accrued? Where necessary, the reporting entity may consider the current or anticipated experience of the business reinsured in making this estimate. \$

b.

What is the total amount of reinsurance credits taken, whether as an asset or as a reduction of liability, for these agreements in this statement? \$0

NOTES TO FINANCIAL STATEMENTS

- (2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies? Yes [] No [X]
If yes, give full details.

Section 3 – Ceded Reinsurance Report – Part B

- (1) What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the company may consider the current or anticipated experience of the business reinsured in making this estimate. **\$0**
- (2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the company as of the effective date of the agreement? Yes [] No [X]
If yes, what is the amount of reinsurance credits, whether an asset or a reduction of liability, taken for such new agreements or amendments? **\$**

Note 25 – Change in Incurred Losses and Loss Adjustment Expenses

- A. Change in Incurred Losses and Loss Adjustment Expenses

A \$289,000 redundancy in the December 31, 2018, reserves emerged in 2019 and a \$1,158,000 deficiency in the December 31, 2017, reserves emerged in 2018. The deviations in the year end reserves that emerged in 2019 and 2018 were due in part to the ultimate reserves developing differently as a result of lower than estimated claims.

Note 31 – Reserves for Life Contracts and Annuity Contracts

(1) Reserve Practices

Aggregate reserves include future policy benefit reserves for disability policies which are required on claims involving continuing losses. The reserve is a measure of the present value of future benefits or amount not yet due as of the statement date. Aggregate reserves also include active life reserves for accident and health insurance policies. Active life reserves are based on the net level premium method, and estimates of future premium, claims, and lapses using the Company’s experience and actuarial judgment.

The liabilities for contract claims represent management’s best estimate of the ultimate net cost of all reported and unreported accident and health and life claims, less the estimated amount recoverable from claim overpayments and subrogation. The liabilities are actuarially estimated based on a review of historical claim payment patterns and claim trends. The estimates are subject to the effects of trends in claim severity and frequency, and a reasonable provision for adverse development has been incorporated in management’s best estimate. Although considerable variability is inherent in such estimates, management believes that the amounts reported are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or
