1.1 Does the company issue Medical Professional Liability Claims Made insurance policies that provide tail (also known as an extended reporting endorsement, or "ERE") benefits in the event of Death, Disability, or Retirement (DDR) at a reduced charge or at no additional cost? Yes [ ] No [X]

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as " Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement? Yes [X] No [ ]

3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. 7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses? Yes [X] No [ ]

7.2 (An extended statement may be attached.)

Estimated salvage and subrogation recoveries have been include in all applicable lines of business. The Cincinnati Insurance Companies have implemented an accounting change to the quantification of claim counts reported in Schedule P beginning in 2011. Our old method of counting claims was based on internal loss and expense transaction codes. Our new method of counting claims is based on actual financial transactions. Since it is driven by actual loss and expense payments and/or changes in loss and expense reserves, the new method is more accurate and less susceptible to data entry errors.
