Bonds with a NAIC rating 1 and 2 are stated at amortized cost using the interest method; all others are stated at the lower of cost or fair value. Mandatory convertible bonds are stated at the lower of book value or fair value, regardless of the NAIC designation. The Company does not own any SVO Identified Exchanged Traded Funds.

For residential mortgage-backed securities (RMBS), commercial mortgage-backed securities (CMBS) and loan-backed and structured securities (LBASS), the NAIC has retained a third-party investment management firm to assist in the determination of the appropriate NAIC designations and Book Adjusted Carrying Values based on not only the probability of loss, but also the severity of loss. Those RMBS, CMBS and other LBASS securities that are not modeled but receive a current year NAIC Credit Rating Provider (CRP) rating equal to NAIC 1 and 2 are stated at amortized cost and NAIC 3-6 are stated at lower of amortized cost or fair value. The prospective adjustment method is used for all these securities.

Note 20 – Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value

1. Items Measured and Reported at Fair Value by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels. The fair value hierarchy prioritizes the inputs, which refer broadly to assumptions market participants would use in pricing an asset or liability, into three levels. It gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The level in the fair value hierarchy within which a fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical securities that the reporting entity has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices within Level 1 that are observable for the security, either directly or indirectly. Level 2 inputs include quoted prices for similar securities in active markets, quoted prices for identical or similar securities that are not active and observable inputs other than quoted prices, such as interest rate and yield curves.

Level 3 inputs are unobservable inputs for the asset or liability.

The Company did not hold any investments measured at fair value at March 31, 2020.

2. Rollforward of Level 3 Items

The Company did not hold any Level 3 securities carried at fair value during the three months ended March 31, 2020.

NOTES TO FINANCIAL STATEMENTS

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between levels. The Company’s policy is to recognize transfers in and transfers out as of the end of the reporting period.

4. Inputs and Techniques Used for Level 2 and Level 3 Fair Values

The Company's investment manager, American Money Management Corporation (“AMMC”) (an affiliate) is responsible for the valuation process and uses data from outside sources (including nationally recognized pricing services and broker/dealers) in establishing fair value. Pricing services use a variety of observable inputs to estimate the fair value of fixed maturities that do not trade on a daily basis. These inputs include, but are not limited to, recent reported trades, benchmark yields, issuer spreads, bids or offers, reference data and measures of volatility. Included in the pricing of mortgage-backed securities are estimates of the rate of future prepayments and defaults of principal over the remaining life of the underlying collateral. Inputs from brokers and independent financial institutions include, but are not limited to, yields or spreads of comparable investments which have recent trading activity, credit quality, duration, credit enhancements, collateral value and estimated cash flows based on inputs including delinquency rates, estimated defaults and losses, and estimates of the rate of future prepayments. Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by the Company’s affiliated investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the prices obtained, these investment professionals compare the valuation received to independent third party pricing sources and consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions and the credit quality of the specific issuers. In addition, AMMC communicates directly with the pricing service regarding the methods and assumptions used in pricing, including verifying, on a test basis, the inputs used by the pricing service to value specific securities.

Level 1 consists of publicly traded equity securities and highly liquid, direct obligations of the U.S. Government whose fair value is based on quoted prices that are readily and regularly available in an active market. Level 2 primarily consists of financial instruments whose fair value is based on quoted prices in markets that are not active and include U.S. government agency securities, fixed maturity investments and perpetual preferred stocks that are not actively traded. The Company primarily uses the market approach valuation technique for all investments.

Note 22 – Events Subsequent

Since March 31, 2020, the spread of COVID-19 has affected the international and national economy and credit markets and has interrupted normal business activities due to quarantines and other travel or health-related restrictions. As of the date of issuance of these financial statements, the full impact to the Company is unknown, but management expects continued interruptions to day-to-day business activities, impacts to claim and premium activity and decreases in the in the fair value of certain investments. As of the date of issuance, the outbreak is still evolving and thus there is significant uncertainty as to its ultimate impacts on the Company.

Subsequent events have been considered through May 8, 2020, the date of issuance of these financial statements. There were no other events occurring subsequent to the end of the quarter that merited recognition or disclosure in these statements.

Note 25 – Change in Incurred Losses and Loss Adjustment Expenses

A. Reserves as of December 31, 2019 were \$13,989,438. As of March 31, 2020, \$1,135,975 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$12,653,463 as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$200,000 favorable prior year development since December 31, 2019 to March 31, 2020. The favorable development in 2020 resulted from the combination of settling cases and adjusting current estimates of open cases and incurred but not reported losses (IBNR) for amounts less than the case and IBNR estimates carried at the end of the prior year. For purposes of computing the recorded case and IBNR estimates, management of the Company analyzes historic data and estimates the impact of various loss development factors, such as our historic loss experience and that of the industry, trends in claims frequency and severity, our mix of business, our claims processing procedures, legislative enactments, judicial decisions, legal developments in imposition of damages and changes and trends in general economic conditions, including the effects of inflation. Additionally, management utilizes analysis that is derived from a review of quarterly results performed by actuaries employed by Great American Insurance Company.
