NOTES TO FINANCIAL STATEMENTS

The interim financial information presented below has been prepared under the assumption that users of such interim financial information have either read or have access to the annual statement of Molina Healthcare of Ohio, Inc. (the Plan) for the fiscal year ended December 31, 2019. Accordingly, footnote disclosures that would substantially duplicate the disclosures contained in the December 31, 2019 annual statement or audited financial statements have been omitted.

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The Plan is a wholly owned subsidiary of Molina Healthcare, Inc. (Molina, or the Parent). The financial statements of the Plan are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio insurance law. The National Association of Insurance Commissioners' *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio

Such prescribed accounting practices have no significant effect on the Plan's statutory basis financial statements for the periods presented.

B. Use of Estimates in the Preparation of the Financial Statement: No significant change.

C. Accounting Policy

- (1) No significant change.
- (2) Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method: No significant change.
- (3) – (5) No significant changes.
- (6) Basis for Loan-Backed Securities and Adjustment Methodology

Basis for Loan-Backed Securities and Adjustment Methodology: Loan-backed securities are stated at amortized cost or lower of amortized cost or fair value. The Plan's investments in loan-backed securities consist of asset-backed securities and mortgage backed securities. Prepayment assumptions using a prospective approach were obtained from broker-dealer survey values or internal estimates.

- (7) – (13) No significant changes.

D. Going Concern: The Plan is not aware of any relevant conditions or events that raise substantial doubt about its abilities to continue as a going concern.

Note 2 – Accounting Changes and Corrections of Errors

None.

Note 3 – Business Combinations and Goodwill

None.

Note 4 – Discontinued Operations

None.

Note 5 – Investments

A. – C. None.

D. Loan-Backed Securities

As of March 31, 2020, the Plan's long-term investments include asset-backed securities and mortgage-backed securities.

- (1) Description of Sources Used to Determined Prepayment Assumptions: Prepayment assumptions for mortgage-backed securities, collateralized mortgage obligations and other structure securities were generated using a purchased prepayment model. The prepayment model uses a number of factors to estimate prepayment activity including the time of year (seasonally), current levels of interest rates (refinancing incentive), economic activity (including

NOTES TO FINANCIAL STATEMENTS

housing turnover) and term and age of the underlying collateral (burnout, seasoning). On an ongoing basis, the rate of prepayment is monitored and model is calibrated to reflect actual experience, market factors and view point.

- (2), (3) Recognized other-than-temporary impairment ("OTTI") securities: None.
- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:	1. Less than 12 Months	\$ 1,158,201
	2. 12 Months or Longer	\$
b. The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$ 37,129,002
	2. 12 Months or Longer	\$

- (5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary: Because the decline in the market values of the securities was not due to the credit quality of the issuers, and because the Plan does not intend to sell nor does it expect to be required to sell these securities before a recovery in their cost basis, the Plan does not consider the securities to be other-than-temporarily impaired at March 31, 2020.

- (5) – (8) No significant changes.
- (9) Changes in the balance of special surplus funds: The special surplus balance at December 31, 2019 represented the Plan’s estimated health insurer fee for 2020. Due to the repeal of the health insurer fee for calendar years 2021 and beyond, the Plan did not reclassify amounts to special surplus at March 31, 2020.

- (2) Fair Value Measurements in Level 3 of the Fair Value Hierarchy: None.
- (3) Policy for Determining When Transfers Between Levels are Recognized: The actual date of the event or change in circumstances that caused the transfer.
- (4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement: Level 2 financial instruments include investments that are traded frequently though not necessarily daily. Fair value for these securities is determined using a market approach based on quoted prices for similar securities in active markets or quoted prices for identical securities in inactive markets.
- (5) Derivative Assets and Liabilities: None.
- B. Fair Value Reporting under SSAP No. 100, *Fair Value Measurements*, and Other Accounting Pronouncements: In addition to bonds and short-term investments (see below), the Plan’s statutory basis balance sheets typically include the following financial instruments: investment income due and accrued, federal income tax recoverable (payable), receivables, and current liabilities. The Plan believes the carrying amounts of these financial instruments approximate the fair value of these financial instruments because of the relatively short period of time between the origination of the instruments and their expected realization or payment.
- C. Aggregate Fair Value Hierarchy

The aggregate fair value hierarchy of all financial instruments as of March 31, 2020 is presented in the table below:

Note 21 – Other Items

A. – B. No significant changes.

C. Other Disclosures and Unusual Items:

On March 11, 2020, the World Health Organization officially declared COVID-19, the disease caused by the novel coronavirus, a pandemic. The ultimate effects of the pandemic, and the duration of any such effects, including any impact to the Plan’s medical care ratio (which could increase or decrease), are not known or quantifiable at this time. As of March 31, 2020, the Plan has not experienced any significant interruptions in the services it provides, nor was there a material impact of the pandemic to its financial position, results of operations, and cash flows in the first quarter of 2020.

The Plan has received information that the state of Ohio expects to release its Medicaid contract request for proposal in mid-2020, with an announcement of the awards expected by end of year 2020, and an operational effective date in July 2021. A loss of the Ohio Medicaid contract could have a material adverse effect on the Plan’s business, financial condition, cash flows, and results of operations.

The Plan’s Medicare-Medicaid Plan contract has been extended, with one-year renewal terms, through December 31, 2022.

D. – H. No significant changes.

Note 22 – Events Subsequent

Subsequent events were considered through May 13, 2020, the date the statutory financial statements were available to be issued.

On April 27, 2020, the United States Supreme Court issued its opinion in *Maine Community Health Options v. United States*. The Supreme Court held that §1342 of the Affordable Care Act obligated the federal government to pay participating insurers the full Marketplace risk corridor amounts calculated by that statute, that such payment obligations survived Congress’ appropriations riders, and that impacted insurers may sue the federal government in the U.S. Court of Federal Claims to recover damages for breach of that obligation. There are no distinguishing factors regarding liability or damages between this case and the cases the Parent has brought against the federal government for its failure to pay its Marketplace risk corridors claims for 2014, 2015, and 2016. The Parent has already obtained summary judgment for its 2014 and 2015 consolidated risk corridor claims in the approximate amount of \$52.0 million, and it has brought another claim for approximately \$76.0 million for the government’s failure to pay its 2016 consolidated risk corridor claims. The timing of recognition and collection of these outstanding Marketplace risk corridor claims is uncertain, but the Parent will request that the Court of Claims act as expeditiously as possible to enter judgment for all of the risk corridors amounts owed to it and its subsidiaries. Refer to Note 24E(5).
