D. Loan—Backed Securities

1. Prepayment assumptions are generally obtained using a model provided by a third-party vendor.
2. None.
3. None.
4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1. Less than 12 months	\$ (21,426)
2. 12 months or Longer	\$ --

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months	\$ 2,449,682
2. 12 months or longer	\$ --

5. The Company reviews all loan-backed and structured securities in which the fair value of a given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

20. Fair Value Measurements

- A. The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by FASB ASC 820 (SFAS No. 157), *Fair Value Measurements*. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

Level 1:

Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2:

Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3:

Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

22. Events Subsequent

Type I – Recognized Subsequent Events:

Subsequent events have been considered through May 15, 2020 for the statutory statement issued on May 15, 2020 for the quarter ending March 31, 2020. No Type I events were identified that would have a material effect on the financial condition of the Company.

Type II – Non-recognized Subsequent Events:

Subsequent events have been considered through May 15, 2020 for the statutory statement issued on May 15, 2020 for the quarter ending March 31, 2020. Subsequent to March 31, 2020, equity and financial markets have experienced significant volatility and interest rates have continued to decline due to the COVID-19 pandemic. Additionally, there is uncertainty with respect to potential state and/or federal legislative actions impacting property and casualty insurance coverages. Furthermore, insured risks like personal auto and commercial auto as well as commercial property and liability have significantly changed and, in some cases, been reduced in the COVID-19 environment, and insurance organizations are evaluating premium refunds and other measures as the risks evolve. The Company is currently in the process of determining the impact of the pandemic to its operations and financial condition.

On March 27, 2020, H.R. 748, the Coronavirus Aid, Relief, and Economic Security Act, “the CARES ACT”, was signed into legislation which includes tax provisions relevant to businesses that during 2020 will impact taxes related to 2018 and 2019. Some of the significant changes are reducing the interest expense disallowance for 2019 and 2020, allowing the five year carryback of net operating losses for 2018-2020, suspension of the 80% limitation of taxable income for net operating loss carryforwards for 2018-2020, and the acceleration of depreciation expense from 2018 and forward on qualified improvement property. The Company is required to recognize the effect on the consolidated financial statements in the period the law was enacted, which is 2020. At this time, for 2018 and 2019, the Company does not expect the impact of the CARES ACT on the Company’s financial position or results of operations to be material.

NOTES TO FINANCIAL STATEMENTS

25. Changes in Incurred Losses and Loss Adjustment Expense

Reserves as of December 31, 2019 were \$54.4 million. During 2020, \$12.0 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$44.2 million as a result of re-estimation of unpaid claims and claim adjusting expenses. Therefore, there has been a \$1.8 million unfavorable prior year development from December 31, 2019 to March 31, 2020. The re-estimation is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. The estimates are not affected by prior year loss development on retrospectively rated policies, as the Company does not write this type of policy.
